

Charging the Belkin QODE Ultimate Keyboard Case

IMPORTANT: Before using your **Belkin QODE Keyboard**, make sure to disconnect the *Bluetooth®* devices previously connected to it. Also, if the keyboard layout of your device is different from that of your Hardware Keyboard, you must change the keyboard language to update the output. Modifying only the iPad® or mobile phone language, will not change the keyboard output. For more information on how to change this on your Android™ device, click [here](#). For more information on how to change this on your iOS device, click [here](#).

Charging the **Belkin QODE Ultimate Keyboard Case** is easy with its micro-USB cable. The Belkin QODE Ultimate Keyboard Case variants are the following:

- **Belkin F5L151** (for iPad Air®)
- **Belkin F5L178** (for iPad Air® 2)
- **Belkin F5L149** (for iPad® 4th and 3rd generations and iPad® 2)

To charge the Belkin QODE Ultimate Keyboard Case, connect one end of the micro-USB cable to the QODE Ultimate Keyboard Case and connect the other end to a computer or to a USB wall adapter. Make sure that the cable is in good condition and both ends are properly connected.

The indicator lights of the Belkin QODE Ultimate Keyboard will indicate when it is time to charge.

- If it has **low battery charge** – An **orange** indicator light will flash once every second for 1 minute.
- If it is **charging** – The **orange** indicator light turns **ON** during charging and turns **OFF** when charging is complete.

QUICK TIP: The Belkin QODE Ultimate Keyboard Case requires approximately **2.5 hours** of charging for first time use. The keyboard will be in standby mode after 10 seconds of inactivity to prevent the battery's power from draining.

Connecting the Belkin Keyboard via Bluetooth®

Whenever you need to use a different tablet with your Belkin Keyboard, pairing must be performed to ensure that your keyboard is in control of the correct device.

IMPORTANT: Before using your Belkin QODE Keyboard, make sure to disconnect the *Bluetooth®* devices previously connected to it. Also, if the keyboard layout of your device is different from that of your Hardware Keyboard, you must change the keyboard language to update the output. Modifying only the iPad® or mobile phone language will not change the keyboard output. For more information on how to change this on your Android™ device, click [here](#). For more information on how to change this on your iOS device, click [here](#).

The steps below will guide you on how to properly pair your device with the keyboard via *Bluetooth*.

NOTE: Make sure the keyboard and tablet are close to each other before pairing.

[iPad](#)

[Android](#)

iPad

Step 1:

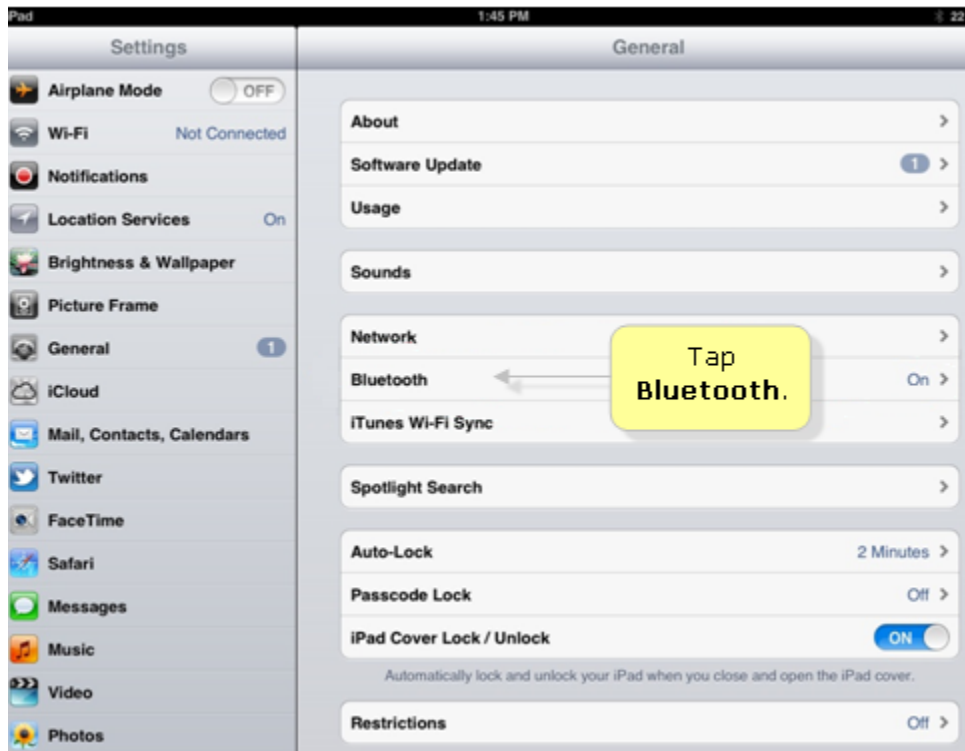

On your iPad tap the  icon from the Home Screen.

Step 2:

Tap **General**.

Step 3:

Tap **Bluetooth**.

Step 4:
Toggle Bluetooth to **ON**.

Step 5:
Turn **ON** the Belkin Keyboard then press and hold the **Pair** key.

NOTE: The Pair key may be different depending on the model of your keyboard. Try to look for the

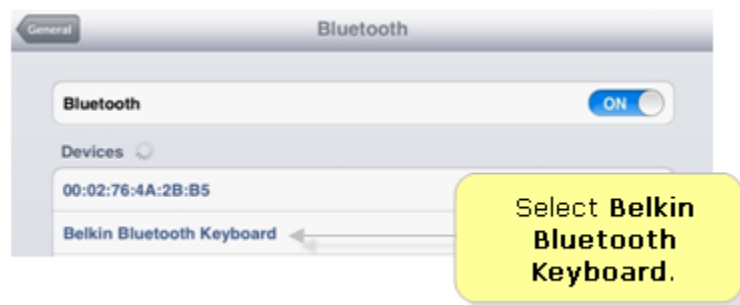

or key.

Step 6:

The keyboard will show up under **Devices** on the iPad. Select **Belkin Bluetooth Keyboard**.

Step 7:

A code will appear on the screen. Enter this code on the keyboard and press **[Enter]**.

A message will pop up when pairing is successful.

Android

Step 1:

Open the Settings on your phone.

Step 2:

Switch Bluetooth to **ON**.

Step 3:

Turn **ON** the keyboard then press and hold the **Pair** key.

NOTE: The Pair key may be different depending on the model of your keyboard. Try to look for

the  or  key.

Step 4:

Turn **ON** Bluetooth connection in **Settings > Bluetooth** on your Android device, then scan for nearby devices.

Step 5:

Select **Belkin Bluetooth Keyboard**.

The Android device will notify you when the pairing is successful. If pairing fails, switch the keyboard OFF and ON before repeating the steps above.

NOTE: If you are pairing a **Kindle Fire™** with your Belkin Keyboard, click [here](#).

Setting up and connecting the Belkin QODE Ultimate Keyboard Case for the first time

The **Belkin QODE Ultimate Keyboard Case** connects with your iPad® tablet wirelessly through **Bluetooth®** technology, eliminating the fuss of using cables.

IMPORTANT: Before using your Belkin QODE Keyboard, make sure to disconnect the *Bluetooth* devices previously connected to it. Also, if the keyboard layout of your device is different from that of your Hardware Keyboard, you must change the keyboard language to update the output. Modifying only the iPad or mobile phone language will not change the keyboard output. For more information on how to change this on your Android™ device, click [here](#). For more information on how to change this on your iOS device, click [here](#).

QUICK TIP: Refer to the table below for the compatibility of your Belkin QODE Ultimate Keyboard Case.

Model Number	Model Name	Compatibility
F5L149	QODE Ultimate Keyboard Case for iPad (4th & 3rd gen) and iPad 2	iPad (3rd and 4th gen) and iPad 2

F5L151	QODE Ultimate Keyboard Case for iPad Air	iPad Air®
F5L178	QODE Ultimate Keyboard Case for iPad Air 2	iPad Air 2

This article will guide you on how to set up and connect your Belkin QODE Ultimate Keyboard Case for the first time.

Setting up the Belkin QODE Ultimate Keyboard Case

Step 1:

Charge the Belkin QODE Ultimate Keyboard Case for approximately **2.5 hours** before first use. For instructions, click [here](#).

Step 2:

Insert the iPad and snap the clasps.

You have now successfully set up the Belkin QODE Ultimate Keyboard Case.

Connecting the Belkin QODE Ultimate Keyboard Case

Step 1:

Adjust the iPad to your preferred viewing angle.

IMPORTANT: Make sure that the magnet at the bottom of the screen connects to the magnet on the base.

Step 2:

On the keyboard, hold down the **fn** and **<...> pair** buttons to connect to your iPad, or from the **Home** screen, tap the **Settings** icon.

Step 3:

On the **Settings** menu, tap **Bluetooth**.

NOTE: On some iPad versions, from the **Settings** menu, tap **General > Bluetooth**.

Step 4:

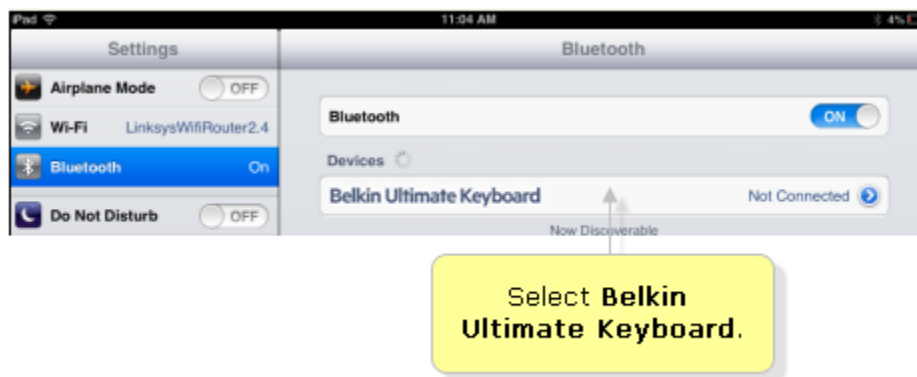

Tap the toggle switch to turn **ON** Bluetooth.

Step 5:

The keyboard will show up under **Devices** on the tablet. Select **Belkin Ultimate Keyboard** to connect.

NOTE: This process may take some time.

Now that you've successfully connected to your iPad, the keyboard will automatically turn **ON** when the case is set to the viewing position.

NOTE: If your iPad's *Bluetooth* is turned **ON**, the Belkin QODE Ultimate Keyboard Case will automatically turn **ON**. If you will use another iPad, you will have to connect to the Keyboard Case again.
