**Important Safety Notes**

1. Make sure the correct power (120V/60 Hz) is supplied.
2. To avoid electric shock or personal injury, do not operate any appliance with a damaged cord or plug or after the appliance malfunctions or has been damaged in any manner. Return the unit to Sunpentown (see warranty) for examination, repair or adjustment.
3. Unplug the appliance when not in use and before maintenance or servicing.
4. The applicable temperature to run this unit is between 32°F-104°F. Do not operate when the temperature is above or below this range. Do not let unit sit under direct sunlight.
5. When the tank is full, move unit from the side slowly to prevent water from spilling.
6. Do not place heavy objects on the machine.
7. Close supervision is necessary when any appliance is used by or near children.
8. When unplugging, pull from the plug and not on the cord.
9. Turn off the unit when adding water.
10. Turn off and unplug unit before cleaning.
11. To avoid excessive dampness, do not use the Humidifying function for an extended period of time in an area with poor circulation.
12. When not planning to use the unit for a long period of time, please unplug the power cord, drain water, and store in a cool, dry place.
13. Please change water often to keep the water tank clean. It is recommended to change the water once every 1 ~ 2 days.

**Operation**

Please fill the water tank as instructed below before turning on the unit. Operating instructions:

1. **ON/OFF button**
   - Press once to turn ON unit, the power indicator will be on. Press again to turn OFF unit.

2. **FAN SPEED button**
   - When turned ON, the unit starts on High (the H indicator light is on), to adjust:
     - Press once for Medium speed (the M indicator light is on)
     - Press again for Low speed (the L indicator light is on)
     - Press again for High speed with Sleep mode (the H and Sleep indicator lights are on). Air speed will be on High for 30 minutes, then auto switch to Low and remains at this speed
     - Press again for Medium speed with Sleep mode (the M and Sleep indicator lights are on). Air speed will be on Medium for 30 minutes, then auto switch to Low and remains at this speed
     - Press again for Low speed with Sleep mode (the L and Sleep indicator lights are on). Air speed will be on Low and remains at this speed
     - There are total of six different settings to choose from.
     - To avoid catching a cold while sleeping, the Sleep mode will automatically decrease the fan speed slowly. Timer can also be used in Sleep mode, which will automatically operate for two minutes and shut off for one minute.

3. **SWING button**
   - Press the swing button to select the swinging function:
     - Press once to turn on the swinging function (indicator is on), which can cover 60° horizontally
     - Press again for fixed direction (indicator is off)

4. **TIMER button**
   - Each press of the timer button will add 0.5 hour to the timer until it reached the maximum of 7.5 hours. Adding the numbers indicated equals the total time for the timer. For example: when the 0.5 and 1 indicators are on at the same time, it means the timer has been set for 1.5 hours; when the 0.5, 1, 2 and 4 indicators are on at the same time, the timer has been set for 7.5 hours. If none of the timer indicators are on, the unit will run continuously.

5. **COOL AIR (HUMIDIFYING) button**
   - Press once to turn on the water pump, press again to turn off the water pump
   - If the water level is above “Empty”, the red indicator light will turn on and the pump will start working. After 3 ~ 5 minutes, the unit will send out moist and comfortable cool air.
   - If the water level is below “Empty” or if the water tank is empty, please do not turn on this function. The unit will beep 5 times and the red indicator light will be flashing to warn that the water tank is low/empty and the pump will NOT work.
o While operating in Cool Air / Humidifying mode, when the water tank reaches half point, the unit will beep to warn you that the water tank is half empty. The red indicator light remains on and the unit continuous running.

o To prevent damage to the water pump, when operating the unit without water, please keep the Cool Air / Humidifying function OFF. The unit will operate as a normal electric fan.

6. WATER FILLING INSTRUCTIONS
- Please be sure the power is OFF before filling water.
- Fill the water tank by pouring water and adding ice into the Ice & Water Inlet.
- Amount of water added can be seen from the water indicator located at the bottom front.
- Make sure the water indicator indicates the water level is above “EMPTY”.
- Pour in 2/3 of water (6 Liters) and 1/3 of ice (3 Liters) for best cooling effect.
- You can also put some ice or ice packs in the “Ice Box” located on the top of the unit for extra cooling (optional).
- DO NOT add more than 10 Liters of water into the water tank. The water indicator should never rise above “Maximum” or the water tank will overflow.

NOTE: When operating the unit for the first time, please add water to the Maximum level.

Maintenance
Cleaning the filter net and water tank

To ensure best humidifying and purifying effect, please clean the filtration system once a week.
1. Cleaning the filter, pull filter upwards for opening slot.
2. Remove the photo-catalysis filter (small black filter).
3. Rinse with clean water.
4. Replace the photo-catalysis filter and insert filter back in place.
   o Do not take off the rear panel
   o Do not wet the photo-catalysis filter (fig.3), insolate it in the sun (fig.4).

**Your Guarantee**

If this product is found to be faulty as a result of faulty materials or workmanship within one year from date of purchase, it will be repaired or replaced free of charge.

This guarantee is subject to the following terms:
1. Sunpentown must be notified of the fault.
2. Proof of purchase must be presented to Sunpentown’s nominated representative.
3. The warranty will be void if the product if modified, misused or repaired by an unauthorized person.
4. The guarantee after repair or replacement will not be extended beyond the original one-year period.
5. All replacement parts or units will be new or reconditioned.
6. Parts or units, which are replaced, become the property of Sunpentown.
7. The warranty applies for the use of the product in the USA.
8. Warranty does not include freight charges.

This GUARANTEE is in addition to your Statutory Rights.
