NVIDIA® G-SYNC™

Agon Series 2
23", 3440 @ 1440 @ 100Hz

AG352UCG

AOC GAMING

35-inch Curved NVIDIA® G-SYNC™ Gaming Monitor

Gain a serious competitive edge with AOC's new Agon Series NVIDIA G-SYNC™ monitor that eliminates screen-tearing and minimizes display stutter and input lag. Be immersed in the clearest on-screen action while maintaining that competitive edge over other players, with agile 100Hz refresh rate and 4ms response time for high frame rate and no lag. No more screen tear, display stutter, and input lag as you dominate your competitors with the ultimate gaming monitor powered by NVIDIA® G-SYNC™ technology for the smoothest and fastest gaming experience yet.

Key Features

- 35" with 3440x1440 4K Resolution
- Curved MVA panel for wide-viewing angles and total immersion
- Rapid 4ms Response Time and 100Hz Refresh Rate (via Display Port)
- Display Port 1.2 and HDMI 1.4 connections
- 2 x USB 3.0 (1 x fast-charging port)
- Two 2-watt speakers
- No stuttering or tearing with NVIDIA® G-SYNC™ Technology
- Sleek, curved design with height, swivel, tilt adjustability

AOC

Curved MVA Panel

The AG352UCG features a curved MVA panel with vibrant colors for a more exciting and immersive visual experience to be enjoyed while gaming. Our eyes are curved, and have a limited field of view. The AG352UCG's curvatures of 1800-2000R conforms to the way we see and helps reduce eye fatigue.

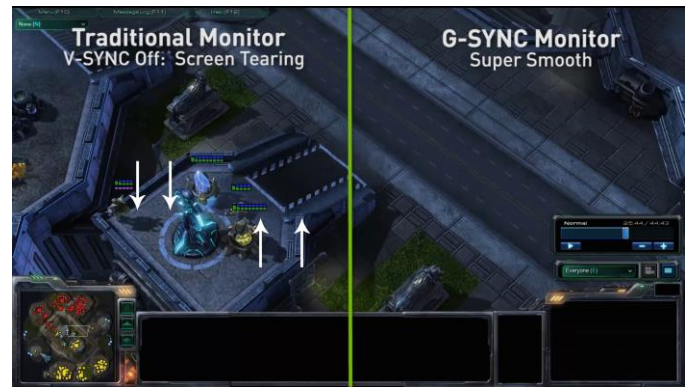

Ultra Wide Quad High Definition on a Widescreen

With AOC's AG352UCG, you can enjoy Wide Quad HD at an astounding 3440 x 1440 resolution. With Wide Quad HD, you get over four times the resolution of HD; essentially you can fit four HD videos on the screen at the same time. An Ultra Wide Quad HD on a 35-inch widescreen allows you to view greater detail with more spacing, in crisp and vivid visuals. Whether gaming, editing photos, videos, or watching movies, AG352UCG gives you clarity with quality on a widescreen.

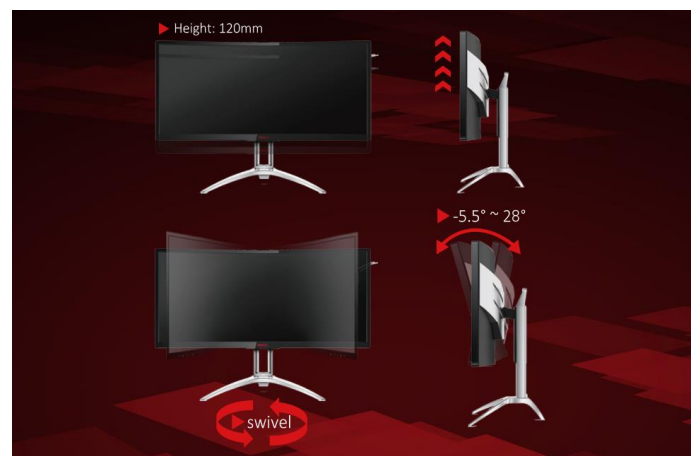

AOC Shadow Control

For gamers, it is important to have the best visibility especially for the dark areas on screen. With AOC's Shadow Control, gamers can dial-in shadow levels in the On-Screen Display menu to increase contrast for better dark areas without affecting the rest of the screen. AG352UCG offers 3 levels to adjust the dark portions.

NVIDIA® G-SYNC™ Technology

NVIDIA® G-SYNC™ is the revolutionary solution that synchronizes the display's refresh rates to the GPU in your GeForce GTX-powered PC to eliminate screen tearing and minimizes display stutter and input lag, in order to provide the smoothest, fastest, and visually stunning gaming experience to date. What you get is fluid and responsive gameplay, with objects looking sharper, scenes appearing instantly and more vibrant in visual quality than on any other monitors, so you can enjoy the latest games to the fullest. NVIDIA® G-SYNC™ delivers the smoothest and fastest gaming experience with a serious competitive edge.

Fully Adjustable Stand

The AG352UCG's fully adjustable stand allows convenient adjustment of the screen's height and angle. Match the screen's position to your chair position, height, and line of sight for a comfortable playing experience.
