CHARGING PORT

CHARGING YOUR WONDER BIBLE® AUDIO PLAYER

Connect the charging cable to the Micro USB charging port and connect the plug to a USB Power Supply. Such as a USB Wall Adapter, a computer/laptop USB port, or a USB car adapter. The player takes several hours to recharge fully. We recommend to charge the Wonder Bible® Audio Player before using it for the first time.

The Battery level is shown on the upper-right corner of your display when the player is on. Use this battery indicator to determine when to charge your player.

When the Wonder Bible® Audio Player is charging, the battery indicator will flash, and a zero will move across the screen. Once the Wonder Bible® Audio Player is fully charged, the Full Battery indicator will stay on, and the screen will fill with four zeros.

REPLACING THE WONDER BIBLE® AUDIO PLAYER BATTERY

The Wonder Bible® Audio Player uses a 18650 lithium-ion rechargeable battery. In the event that the battery dies, you may replace it by opening the battery compartment, removing the old battery and following the polarization markings (plus and minus signs) marked on the inside of the player. Do NOT replace the battery with an alkaline battery or any other battery that is not an 18650 lithium-ion rechargeable battery. Recycle or otherwise properly discard the old battery.

TROUBLESHOOTING:

If your Wonder Bible® audio player screen is displaying the word “Idle”, that means the Memory Card is not connected properly.

Make sure the Memory Card is fully inserted into the Wonder Bible® Audio Player. You may need a pen cap or paper clip to help push the Memory Card in all the way. Make sure the Memory Card is inserted the correct way, like in the below image.
