

VACMASTER® PRO260

The **VACMASTER® PRO260** blends commercial quality with versatility, making it perfect for everyday kitchen use! The PRO260 offers a duality not found in other vacuum packaging machines. This machine allows the user to control their own settings, offering a more customized vacuum packaging experience, with a “Pulse” option for vacuuming delicate items and a “Seal Now” option for additional control.

The PRO260 also offers automated settings for one-button, hands-free operation in both vacuum packaging and marinating. In addition, the PRO260 features a roll holding/dispensing system that holds both an 8” and 11½” roll with a two-way, built-in cutter. This machine takes convenience to a new level and makes vacuum packaging enjoyable! The PRO260 accepts bags and rolls up to 12” wide.

FEATURES

- One button, hands-free operation
- Full and wide 12” seal bar
- Digital technology
- LED panel display
- “Seal Now” option
- Built-in accessory hose for storage canisters
