SAFETY INFORMATION

To reduce the risk of fire, electric shock, or other injury, follow all instructions and safety guidelines.

General Safety

- **Only** use the humidifier as described in this manual.
- Place the humidifier and cord so that it will not be knocked over. **Do not** place near large pieces of furniture or in high-traffic areas.
- When not in use, turn the humidifier off and disconnect from power by removing the plug from the outlet.
- **Do not** use the humidifier in wet environments.
- Keep the humidifier out of reach from children.
- **Do not** open the base or remove the water level sensor for self-servicing.
- **Always** unplug your humidifier from the power outlet before cleaning your humidifier or detaching the water tank from the humidifier base.
- **Always** make sure to place the humidifier on a flat, level surface before operation.
- **Only** fill the water tank with clean water. **Never** fill the water tank with any other liquids.
- **Do not** place the humidifier near sources of heat, such as stovetops, ovens, or radiators.
- **Do not** place the humidifier directly on floors, carpets, or rugs.
- **Do not** use other items as replacement parts for this product.
- **Do not** cover the nozzles while the humidifier is on. Doing so may damage the humidifier.
- Remove the water tank from the base before moving the humidifier.
- **Do not** immerse the humidifier base, power cord, or plug in water.
- If the humidifier is damaged or is not functioning properly, stop using it and contact Customer Support immediately (see page 15).
- Not for commercial use. Household use **only**.

Plug and Cord

- Ensure that the plug fits properly into a polarized socket.
- **Do not** handle the power cord or plug with wet hands. Keep the plug and power cord away from liquids.
- Your humidifier has a polarized plug (one prong is wider than the other), which fits into a polarized outlet only one way. This is a safety feature to reduce the risk of electric shock. If the plug does not fit, reverse the plug. If it still does not fit, **do not** use the plug in that outlet. **Do not** bypass this safety feature.
Caution: Risk of Leaks and Electric Shock

- **Do not** add essential oils, supplemental water treatment liquids, or water filters into the water tank or base. This will damage the humidifier and cause leaks. **Only** add essential oils to the aroma pad.

READ AND SAVE THESE INSTRUCTIONS
GETTING TO KNOW YOUR HUMIDIFIER

Water tank, upside down

Back
GETTING STARTED

1. Remove the nozzle cap from the water tank. Use the handle to lift the water tank from the base. [Figure 1.1]

2. Flip the water tank over and twist open the water tank cap. [Figure 1.2]

3. Fill the water tank with at least 2 cups / 475 mL of cold or room temperature water. The maximum capacity is 1.05 gal / 4 L.

   **Note:**
   - We recommend using purified or distilled water to fill the tank.
   - **Do not** fill the water tank with hot water.
   - **Only** add water through the water tank cap. **Do not** add water through the nozzles, mist tube, or into the inner chamber.
   - **Do not** lift the entire humidifier by the water tank handle.
   - **Do not** add essential oils to the water tank or base. **Only** add essential oils onto the aroma pad. [Figure 1.3]
   - **Do not** let water inside the air outlet.
   - If water gets inside the air outlet, unplug the humidifier and pour out all water. Let the humidifier rest in a well-ventilated area for 24 hours. **Do not** use again until completely dry.

4. Replace the water tank cap and carefully place the water tank back onto the base. Align the water tank cap with the inner chamber.

5. Place the nozzle cap back on top of the water tank.

   Figure 1.1

   Figure 1.2

   Figure 1.3
USING YOUR HUMIDIFIER

General Operation

1. Place the humidifier on a level, elevated, and water-resistant surface, such as a table or nightstand. Make sure the room is well-ventilated.

   **Note:**
   - Position the humidifier at least 12 in / 30 cm away from walls and appliances to prevent them from getting wet. [Figure 2.1]
   - Do not place the humidifier directly on floors, carpets, or rugs.
   - Direct the nozzles away from any furniture to prevent your furniture from getting wet.

2. Plug in the humidifier. 🌆 will light up red for 2 seconds then turn off.

3. Tap 🌆 to turn your humidifier on. Tap repeatedly to change the mist setting.

   **Control Button Color**

<table>
<thead>
<tr>
<th>Button Color</th>

</tr>
</thead>
<tbody>
<tr>
<td>Blue</td>
<td>Low mist setting is selected</td>
</tr>
<tr>
<td>Orange</td>
<td>Medium mist setting is selected</td>
</tr>
<tr>
<td>Purple</td>
<td>High mist setting is selected</td>
</tr>
<tr>
<td>Blinking Red</td>
<td>No water in tank or tank not on base</td>
</tr>
<tr>
<td>No Color</td>
<td>Humidifier is off</td>
</tr>
<tr>
<td></td>
<td>Humidifier has been misting for more than 30 seconds</td>
</tr>
</tbody>
</table>

   **Note:**
   - Low mist is the default setting when the humidifier is first turned on.
   - The power light will automatically turn off after 30 seconds while the humidifier is on. To check the current mist setting, tap 🌆 once. Tap again to change the mist setting.
   - Excessive humidity can cause health issues and mold growth. If the relative humidity in your room is over 60%, use the low mist setting or turn off the humidifier.
   - If there is no water in the tank or the tank is removed, the transducer will turn off, the fan will turn off after 5 seconds, and 🌆 will blink red before turning off.
USING YOUR HUMIDIFIER (CONT.)

Using the Aroma Box

Your humidifier can be used as an aroma diffuser.

1. Turn off the humidifier.
2. Push the aroma box at the back of the base and pull it out. [Figure 3.1]
3. Put 2–3 drops of essential oil on the aroma pad.
4. Replace the aroma box into the humidifier. Fill the water tank with water and place it back on the base (see Getting Started, page 7).
5. Plug in and turn on the humidifier.

Figure 3.1

Preventing Water Leaks

The water tank on your humidifier may leak if not placed properly.

- Make sure the silicone sealing ring around the water tank cap is secured at all times.
- Twist and secure the cap tightly onto the water tank.

Note: A small gap between the cap and the tank is normal.

- Wipe off any excess water on the top and bottom of the base.
- Do not shake the humidifier.
- Make sure to place the humidifier on a flat, level surface.
KEEPING THINGS CLEAN

Caution:

- **Always** make sure the humidifier is unplugged before cleaning.
- The water in the inner chamber near the transducer may still be warm after turning off the humidifier. Use caution when pouring out the water.
- **Do not** use liquid detergents.
- We recommend using purified or distilled water instead of tap water to prevent hard water buildup.
- **Do not** submerge the base in water.

General Cleaning

You should clean your humidifier every 3 days. Change the water every day or every other day to avoid bacteria growth.

1. Unplug the humidifier.
2. Remove the nozzle cap from the water tank and rinse under clean, running water. Set it aside to air dry.
3. Remove the water tank from the base and pour out any water from the inner chamber. Fill the tank with 3 cups / 710 mL of distilled white vinegar. Replace the cap and gently shake to coat all sides of the water tank. Allow it to sit for at least 1 hour.

   **Note:** **Do not** allow water inside or around the air outlet to prevent damage to the humidifier. [Figure 4.1]

4. Add 1 cup / 238 mL of distilled white vinegar to the inner chamber and soak for 1 hour.
5. Use the included cleaning brush to remove any scale buildup inside the water tank or inner chamber. [Figure 4.1]

6. Pour out the vinegar from the water tank and the inner chamber and thoroughly rinse with warm water.

   **Note:** **Do not** submerge the base in water.

7. Dry all parts with a clean, dry cloth. Make sure all parts of the humidifier are completely dry before reassembling or storing.

8. **Do not** use the humidifier immediately after disinfecting. This may be a health hazard.

   **Note:** A 3% hydrogen peroxide solution may also be used instead of vinegar to disinfect the humidifier. **Do not** mix hydrogen peroxide and vinegar.

[Figure 4.1]
KEEPING THINGS CLEAN (CONT.)

Cleaning the Aroma Pad

1. Press the aroma box to release it from the base, and pull it out.
2. Remove the aroma pad and rinse under warm, running water.
3. Dry with a clean cloth and place it back into the aroma box.

*Note: Do not* pour liquid cleaners or detergents into the aroma pad or box.

Cleaning the Noise Silencer

1. Press the release tab and gently pull away from the humidifier. [Figure 5.1]
2. Rinse under clean, running water.
3. Dry with a clean, dry cloth before replacing it.

Deep Cleaning the Humidifier

Deep clean the water tank every 2 weeks and before and after storing the humidifier for a long period of time. You should also disinfect if there is any mold buildup inside the water tank or inner chamber.

*Note: Only* use vinegar and water to deep clean your humidifier.

1. Fill the water tank with 1 cup / 238 mL of vinegar along with 1 gal / 3.8 L of water.
2. Place the humidifier outdoors and allow it to run for 1 hour.
3. Pour out the mixture and refill with water. Then, run the humidifier for another hour outdoors.
4. Rinse the water tank and inner chamber thoroughly under clean, running water.

*Note: Do not* submerge the base in water.

5. If storing, allow the water tank and base to completely air dry before reassembling.

Terms & Policy

Arovast Corporation warrants all products to be of the highest quality in material, craftsmanship, and service, effective from the date of purchase to the end of the warranty period.

Arovast Corporation will replace any product found to be defective due to manufacturer flaws based on eligibility. Refunds are available within the first 30 days of purchase. Refunds are only available to the original purchaser of the product. This warranty extends only to personal use and does not extend to any product that has been used for commercial, rental, or any other use in which the product is not intended for. There are no warranties other than the warranties expressly set forth with each product.

This warranty is non-transferrable. Arovast Corporation is not responsible in any way for any damages, losses, or inconveniences caused by equipment failure by user negligence, abuse, or use noncompliant with the user manual or any additional safety, use, or warnings included in the product packaging and manual.

This warranty does not apply to the following:
- Damage due to abuse, accident, alteration, misuse, tampering, or vandalism.
- Improper or inadequate maintenance.
- Damage in return transit.
- Unsupervised use by children under 18 years of age.

Arovast Corporation and its subsidiaries assume no liability for damage caused by the use of the product other than for its intended use or as instructed in the user manual. Some states do not allow this exclusion or limitation of incidental or consequential losses so the foregoing disclaimer may not apply to you. This warranty gives you specific legal rights and you may also have other rights which may vary from state to state.

ALL EXPRESSED AND IMPLIED WARRANTIES, INCLUDING THE WARRANTY OF MERCHANTABILITY, ARE LIMITED TO THE PERIOD OF THE LIMITED WARRANTY.

Additional 1-Year Warranty

You can extend your 1-year warranty by an additional year. Log onto www.levoit.com/warranty to register your new product for the extended warranty.

Please fill out all required fields and include your order ID, place of purchase, and purchase date, if applicable.

Defective Products & Returns

If your product proves defective within the specified warranty period, please contact Customer Support via support@levoit.com with your order ID. Do not dispose of your product before contacting us. Once Customer Support has approved your request, please return the unit with a copy of the invoice or your order ID.
CUSTOMER SUPPORT

If you encounter any issues or have any questions regarding your new product, feel free to contact our helpful Customer Support Team.
