Tools/Extra Parts Required:
- Level
- Phillips screwdriver
- 2 screws
- Electric drill

Structure

Warnings!
- The screen can not be folded.
- Do not use fingers or hard objects to touch the screen surface.
- Do not splash liquids or chemicals on the screen surface.
- Keep screen away from hot objects or fire.
Installation Steps

Step 1: Choose a suitable location to mount
The screen must be installed over 2.5 m off the ground to allow for full extension.

Step 2: Insert mounting screws (not included)
Measure distance between two rings on the housing. Mark locations on wall to place screws and ensure locations are level and equal in height. Insert screws into wall.

Step 3: Mount the screen
Carefully hang housing onto screws, using attached rings.

Screen Adjustment

Pull down:
To extend the screen, use steady pressure to pull down. The screen will lock automatically when you stop pulling.

Release back up:
To release screen, give a gentle tug which will release automatic lock. Hold pulling ring to prevent screen from moving too quickly.

Cleaning
If the screen becomes dirty, wipe gently with a soft cloth. Do not use solvents to clean the screen surface.

Safety Warning
If you do not understand these directions, or if you have any doubts about the safety of the installation, please call a qualified technician. Check carefully to make sure there are no missing or defective parts. Improper installation may cause damage or serious injury. Do not use this product for any purpose that is not explicitly specified in this manual. We cannot be liable for damage or injury caused by improper mounting, incorrect assembly, or inappropriate use.
