SAFETY INFORMATION

To reduce the risk of fire, electric shock, or other injury, follow all instructions and safety guidelines.

General Safety

- **Only** use your air purifier as described in this manual.
- **Do not** use without removing the plastic wrap from the filter. The purifier will not filter air, and may overheat, causing a fire hazard.
- **Do not** use your air purifier outdoors.
- Keep your air purifier away from water, and wet or damp areas. **Never** place in water or liquid.
- **Do not** use in excessively humid areas.
- Keep your air purifier away from heat sources.
- **Do not** use where combustible gases, vapors, metallic dust, aerosol (spray) products, or fumes from industrial oil are present.
- Keep the inside of the air purifier dry. To prevent moisture buildup, avoid placing in rooms with major temperature changes or underneath air conditioners.
- **Always** unplug your air purifier before servicing (such as changing the air filter).
- **Do not** use your air purifier if it is damaged or not working correctly, or if the cord or plug is damaged. **Do not** try to repair it yourself. Contact **Customer Support** (see page 14).
- Not for commercial use. Household use only.

AC Adapter and Cord

- Keep air purifier near the outlet it is plugged into.
- **Never** place the cord near any heat source.
- **Do not** cover the cord with a rug, carpet, or other covering. **Do not** place the cord under furniture or appliances.
- Keep the cord out of areas where people walk often. Place the cord where it will not be tripped over.

Back

Front, upside down
CONTROLS

On/Off Button
- Turns the air purifier on/off.

Fan Speed Button
- Cycles through fan speeds: I (low), II (medium), and III (high).

Sleep Mode Button
- Turns Sleep Mode on/off (see page 8).

Timer Button
- Cycles through timer options (see page 8).

Night Light Button
- Turns the night light on/off (see page 8).

Check Filter Indicator
- Lights up when the air filter should be checked (see Check Filter Indicator, page 10).

Display Off Button
- Turns the display off.
- Tap any button (except \[x\]) to turn the display back on.

GETTING STARTED

1. Flip over the air purifier. Twist the filter cover cap counterclockwise to remove it and set it aside. [Figure 1.1]

2. Lift the filter cover off the purifier. [Figure 1.2]

3. Remove the filter from its plastic packaging and place the filter back into the purifier. [Figure 1.3]

Note: The filter does not have a top or bottom and can be installed either way.
USING YOUR PURIFIER

1. Connect the AC power adapter to the air purifier. Plug into an outlet. [Figure 2.1]
2. Tap ( ) to turn on the purifier. The fan will start on level I.
3. Optionally, tap ( ) to change fan speed between I, II, and III.

Note:
- The indicators are not buttons and cannot be used to change the fan speed.
- The fan speed indicators will light up when activated.
- Fan speed III is the loudest, but cleans air the quickest.
- For best results, or to address a specific air quality issue such as smoke, run the air purifier at maximum speed (level III) for 15–20 minutes before using a lower speed.
- To effectively clean air, keep windows and doors closed while the air purifier is on.

4. Tap ( ) to turn off the air purifier.

Memory Function
When the air purifier is plugged in, it will remember its previous fan speed setting.
**USING YOUR PURIFIER (CONT.)**

**Sleep Mode**
Sleep Mode operates quietly by using the lowest possible fan speed.
Tap ⏰ to turn Sleep Mode on/off.

**Note:**
- All indicators lower their brightness by ⅓ when Sleep Mode is on.
- Tapping ⏰ will exit Sleep Mode.

**Timer**
You can set a timer for 2, 4, or 8 hours.

1. Tap ⏰ repeatedly to select a time.

**Note:**
- The indicators are not buttons and cannot be used to select a time.
- The timer indicators will light up blue when activated.

2. The air purifier will automatically power off once the timer is finished.

3. To cancel a timer, tap ⏰ until all timer indicators are off.

**Note:**
- You can change the fan speed at any time while the timer is on.
- The timer will restart if it is changed.

**Night Light**
Use 1 of 2 brightness levels.

1. Tap once to turn on the light.
2. Tap a second time to dim the brightness to half.
3. Tap a third time to turn off the light.

**Note:**
- The night light can be used any time the air purifier is plugged in, even if it is not on.
- The night light will remain on, even if you turn the display off.

**ABOUT THE FILTER**

The air purifier uses a 3-stage filtration system to purify air.

A. **Nylon Pre-Filter**
- Captures large particles such as dust, lint, fibers, hair, and pet fur.
- Maximizes the filter’s life.

B. **True HEPA Filter**
- Removes at least 99.97% of airborne particles 0.3 micrometers (µm) in diameter.
- Filters small particles such as smoke, tiny dust particles, mold spores, bacteria, viruses, and allergens such as pollen, dander, and mites.

C. **High-Efficiency Activated Carbon Filter**
- Physically absorbs unwanted odors and fumes.
- Filters compounds such as formaldehyde, benzene, ammonia, hydrogen sulfide, and volatile organic compounds (VOCs).
ABOUT THE FILTER (CONT.)

Humidity

Moisture may damage the air filters. This air purifier should be used in an area with a humidity level below 85% RH. If you use the air purifier in excessively humid areas, the surface of the filter will become moldy.

**Note:** Water or moisture will allow mold to grow. Air purifiers cannot solve an existing mold problem, only remove mold spores and reduce odors.

Essential Oils

**Do not** add essential oils to the air purifier or air filter. The filter will become damaged by the oil and will eventually release an unpleasant smell. **Do not** use oil diffusers near the purifier.

KEEPING THINGS CLEAN

Cleaning the Air Purifier

- Unplug before cleaning.
- Wipe the outside of the air purifier with a soft, dry cloth. If necessary, wipe the housing with a damp cloth, then immediately dry.
- Vacuum the inside of the air purifier.
- **Do not** clean with abrasive chemicals or flammable cleaning agents.

When Should I Replace the Air Filter?

The filter should be replaced every 5–7 months. You may need to replace your filter sooner or later depending on how often you use your air purifier. Using your air purifier in an environment with relatively high pollution may mean you will need to replace the filter more often, even if it is off.

You may need to replace your filter if you notice:

- Increased noise when the air purifier is on
- Decreased airflow
- Unusual odors
- A visibly clogged filter

**Note:** To avoid shortening the life of your air purifier, **only** use a genuine Levoit Vista 200 True HEPA Replacement Filter. Visit [levoit.com](http://levoit.com) to purchase more filters for your air purifier.

- If your home has high air pollution, you may need to change your filter before lights up.
- Remember to reset after changing the filter.
Check Filter Indicator

The Check Filter Indicator ( ) will light up as a reminder to check the air filter. Depending on how much you use the air purifier, the indicator should turn on within 5–7 months. You may not need to replace your filter yet, but you should check it when it turns on.

Cleaning the Air Filter

The True HEPA Filter should be cleaned once a month to increase the efficiency and extend the life of your filter. Clean the inside and outside of the filter using a soft brush or vacuum hose to remove hair, dust, and large particles. Do not clean the filter with water or other liquids.

Resetting the Check Filter Indicator

Reset the Check Filter Indicator when:

- ( ) lights up.
  1. Replace the air filter.
  2. Turn on the air purifier.
  3. Press and hold ( ) for 3 seconds.
  4. ( ) will turn off when successfully reset.
- The air filter was changed before ( ) lit up.
  1. Press and hold ( ) for 3 seconds. This will turn on ( ).
  2. Press and hold ( ) again for 3 seconds.
  3. ( ) will turn off when successfully reset.

Replacing the Air Filter

1. Unplug the air purifier. Flip the air purifier over and remove the filter cover cap and filter cover (see Getting Started, page 6).
2. Remove the old air filter.
3. Clean any remaining dust or hair inside the purifier using a vacuum hose. Do not use water or liquids to clean the purifier. (Figure 3.1)
4. Unwrap the new air filter and place it into the housing (see Getting Started, page 6).
5. Replace the cover and cap. Plug in the air purifier.
6. Reset the Check Filter Indicator.

Storage

If not using the air purifier for an extended period of time, wrap both the purifier and the filter in plastic packaging and store in a dry place to avoid moisture damage.

Terms & Policy

Levoit warrants all products to be of the highest quality in material, craftsmanship, and service, effective from the date of purchase to the end of the warranty period.

Levoit will replace any product found to be defective due to manufacturer flaws based on eligibility. Refunds are available within the first 30 days of purchase. Refunds are only available to the original purchaser of the product. This warranty extends only to personal use and does not extend to any product that has been used for commercial, rental, or any other use in which the product is not intended for. There are no warranties other than the warranties expressly set forth with each product.

This warranty is non-transferrable. Levoit is not responsible in any way for any damages, losses, or inconveniences caused by equipment failure by user negligence, abuse, or use noncompliant with the user manual or any additional safety, use, or warnings included in the product packaging and manual.

This warranty does not apply to the following:

- Damage due to abuse, accident, alteration, misuse, tampering, or vandalism.
- Improper or inadequate maintenance.
- Damage in return transit.
- Unsupervised use by children under 18 years of age.

Levoit and its subsidiaries assume no liability for damage caused by the use of the product other than for its intended use or as instructed in the user manual. Some states do not allow this exclusion or limitation of incidental or consequential losses so the foregoing disclaimer may not apply to you. This warranty gives you specific legal rights and you may also have other rights which may vary from state to state.

ALL EXPRESSED AND IMPLIED WARRANTIES, INCLUDING THE WARRANTY OF MERCHANTABILITY, ARE LIMITED TO THE PERIOD OF THE LIMITED WARRANTY.

Additional 1-Year Warranty

You can extend your 1-year warranty by an additional year. Log onto www.levoit.com/warranty and enter your order number (for example, from Amazon or Houzz) to register your new product for the extended warranty.

If you are unable to provide the order number for your product, please type a short note in the order number field along with the date you received your product.

Defective Products & Returns

If your product proves defective within the specified warranty period, please contact Customer Support via support@levoit.com with your order number. Do not dispose of your product before contacting us. Once Customer Support has approved your request, please return the unit with a copy of the invoice or your order number.
CUSTOMER SUPPORT

If you encounter any issues or have any questions regarding your new product, feel free to contact our helpful Customer Support Team. Your satisfaction is our goal!
