## Step 1

Lay the YardStash flat and logo side-up on the ground near desired location (the recommended location for your YardStash is on a flat area and against a wall or fence).

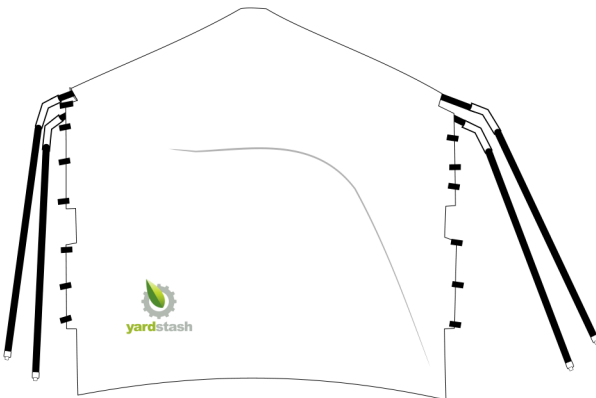

## Step 2

Slide the two Roof "V" Poles through the two diagonal sleeves on the top of the YardStash (one roof pole per sleeve).

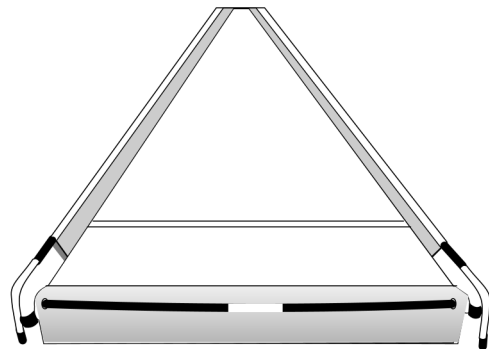

## Step 3

Connect the four Side Elbow Poles to the ends of the Roof "V" Poles (do not clip the the Side Elbow Poles to the YardStash until Step #6).

## Step 4

Insert the tips of the two short Cross Poles into the front and back metal grommet holes located at each roof corner (make sure to insert the back tips into the back grommet that is closest to the YardStash).

## Step 5

Insert the bottom tip of each Elbow Pole into the metal grommet hole located on each bottom corner (make sure to insert the tips into the grommets that are closest to the YardStash).

## Step 6

Clip each of Side Elbow Poles to the YardStash (start from the bottom clip and finish at top clip). Lift the YardStash up and place in desired location.

**Optional:** Use stakes, concrete screws or wood screws to secure the YardStash to the ground and/or insert screws through remaining four back grommet holes to fasten the YardStash to a wall or fence.

### Other Features:

- Front Air Vent with storm flap to minimize heat build up and condensation.
- Back Lock Flap to insert lock inside the YardStash.
- Interior Hooks for hanging helmets and other small items.
- Door Hook & Loop to keep door fully open while stowing or removing gear.
