VSPF2700
(Sold Separately)

The ViewSonic® XG2703-GS is the ideal display for hardcore gamers who always crank their graphics settings to Ultra, rendering every frame your GPU can output in breathtaking detail. Featuring an incredible 165Hz refresh rate, as well as NVIDIA's G-Sync Technology*, this monitor's variable refresh rate capabilities virtually eliminate screen tearing and stuttering for unbelievably fluid gameplay during fast-paced action sequences. A juggernaut of cutting-edge display technology, this monitor features a 2560x1440 WQHD SuperClear® IPS-type panel for enhanced color accuracy and greater viewing angles. A quick response time lets you seize control of the action, while a low input lag provides smooth screen performance even in the most graphic-intense sequences. For a game-winning competitive edge, a Game Mode feature optimizes visuals for FPS, RTS and MOBA. On top of that, a dark color enhancement function helps you target enemies lurking in the dark, while the monitor maintains brilliantly rich colors and contrast. With a gamer-inspired ergonomic stand that features an integrated headphone hook and cable management functionality, the XG2703-GS has all you need to conquer your gaming quests.

Key Features:

WQHD Resolution

165Hz refresh rate*

SuperClear® IPS-type panel technology

NVIDIA G-SYNC technology
