

# SIMWAY D400-1

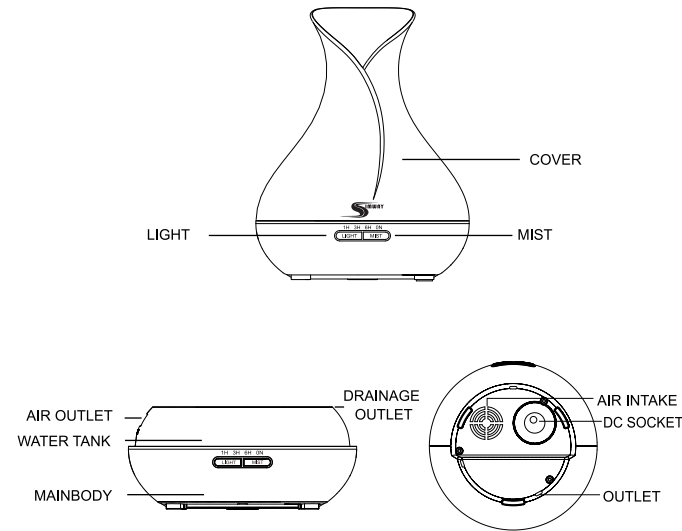

**Aroma Diffuser**

Aroma Diffuser

User Manual

Thank you for purchasing SIMWAY aroma diffuser. Enjoy aromatherapy with soothing LED changing light with one click of your finger tip.

Aroma Diffuser

User Manual

## OPERATION

- Keep the product on a flat surface. Remove the cover in vertical direction. (Refer to **Figure 1**)
- Connect the AC adaptor to the base of DC socket. (Refer to **Figure 2**)
- Fill the water tank with clean tap water by using the measuring cup. Ensure the water does not exceed the maximum waterline (400mL). DO NOT spill any water outside the tank. DO NOT add water when diffuser is operating. Add 2-3 drops essential oil is recommended for maximum amount of water. (Refer to **Figure 3**)
- Put the cover back in position. DO NOT slide or lean the product because it may cause short circuit if water accidentally drips to the circuit board. (Refer to **Figure 4**)
- Connect the product to the power supply.
- Press the "MIST" button to choose the timer for 1 hour, 3 hours, 6 hours, or ON for continuous mist until the water runs out. Another press on "MIST" after ON mode will switch OFF the mist. Hold the "MIST" button to select 6 hours High Mist Mode (1 beep) and 12 hours Low Mist Mode (2 beeps). The diffuser will automatically turn off when there is no sufficient water in the water tank. (Refer to **Figure 5**)
- Press the "LIGHT" button to illuminate the LED color. The LED light changes the color in order of red, orange, yellow, green, cyan, blue, and magenta. Another few presses of the "LIGHT" button will set the color, and enable to adjust the light intensity. (Refer to **Figure 6**)

## MAINTENANCE

After using 5-6 times, or 3-5 days, please clean the product as follow:

- Disconnect the AC adaptor from the power supply, take off the cover while keeping the unit stable on a line.
- If there's water left in the tank, pour it from the drain side. DO NOT pour from the air inlet side or else water may flow in the unit.
- Disconnect the DC plug from the unit.
- Use a gentle diluted kitchen detergent on a damp cloth to remove any fragrance oil residue, ensuring no detergent remains.  
**IMPORTANT:** DO NOT press heavily or scratch the ultrasonic mechanism in the water tank during cleaning.
- Add water into the tank with the water cup, activate the unit to operate for 30 minutes. Clean it after pouring out the remaining water.
- Please keep the unit in a dry and cool place if it is not going to be used for a period of time. Clean it with neutral detergent before reusing.

## PRECAUTIONS

Please check below to avoid malfunction of the unit:

- Do not fill over 400mL of water at any time.
- Do not turn on the unit when the water tank is empty.
- Do not turn touch the ultrasonic vibration plate.
- Clean regularly as per Maintenance instructions to avoid malfunction.
- Always unplug from power supply before maintenance.
- For hygiene reasons, pour away remaining water from the "DRAIN SIDE" of the tank after use, and wipe with a clean dry cloth.
- Essential oil may stain. In the event of spillage, please wipe away with a soft cloth.
- Please only use the measuring cup to add water into the water tank.
- Do not let mist vent directly to furniture, clothing, wall etc.
- Keep away the unit from direct sunshine, heat sources, and air conditioners.
- Always keep the unit on a stable and flat surface. Do not place the unit on carpet, duvet or unstable area.
- Keep away the unit from other electronic devices.
- Do not tip the unit, which may cause water flows to the circuit board and cause malfunction.
- Use tap water only. Do not use mineral water or sparkling water etc.
- Do not move the unit when operating.
- Do not use the product with wet hands.
- Keep away from children and pets.
- Keep cord pathways clear, and do not pull forcefully at any point.
- Unplug the unit from power supply immediately if smoke or burning smell is detected.
