Accessories Included

Remove the main unit and the accessories from the box and check that the following items are included.

- Quick Start Guide
- ViewSonic wizard CD
- Lens cap (affixed to the projector)
- Remote control (includes one button battery)
- Power cable (1.8 m / 5.9 ft)
- DVI / Mini D-sub 15-pin conversion cable (19 cm / 7.5 in )
- RGB signal cable (Mini D-sub 15-pin, 2 m / 6.6 ft )
- S-Video cable (3.5 mm diameter plug / Mini DIN 4-pin plug, 1.5 m / 4.9 ft )
- Video cable (3.5 mm diameter plug / RCA pin plug, 1.5 m / 4.9 ft )
- Audio cable (2.5 mm diameter plug / RCA pin plug, 1.5 m / 4.9 ft )
- Soft carry case
Projector Components

1. Lens
2. Lens cap
3. Focus ring
4. Remote control sensor
5. Speaker
6. Front Adjustment button
7. Front Adjustment Foot
8. Exhaust vents
9. Ventilation slots
10. POWER button
11. POWER indicator
12. STATUS indicator
13. MENU button
14. SOURCE button / Cursor ← button
15. AUTO button / Cursor → button
16. QUICK MENU button / Cursor ▼ button
17. PC connector
18. VIDEO jack
19. AUDIO jack
20. AC IN connector
21. Rear Adjustment Foot
Remote Control Components

Before use, pull out and remove the transportation insulation sheet which is inserted in the battery compartment.

1. Infrared transmitter
2. POWER ON and OFF buttons
3. FREEZE button
4. MUTE button
5. PIP button
6. Input selection Buttons
7. ASPECT button
8. QUICK button
9. AUTO button
10. MENU button
11. CANCEL button
12. Cursor Buttons
13. ENTER button
14. HKSTN button
15. VKSTN button
16. ZOOM button
17. VOL button
18. +/- Buttons

CAUTION
• Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type (CR2025) recommended by the manufacturer. Dispose of used batteries according to your local regulations.

Precautions
Handling of the Remote Control
• Do not expose the remote control to water or other liquids. Should the remote control become wet, wipe it dry immediately.
• Please keep button batteries out of the reach of children. If a battery is swallowed, promptly obtain the medical care of a doctor.
• Some operations are available only through the use of the remote control and attention should be given to its careful handling.
Connections with the Personal Computer

• The projector’s native resolution is 1024 X 768 pixels XGA, scalable to 1280 X 1024 pixels SXGA. Note that input of a resolution that exceeds the displayable resolution will cease to be projected and should this be the case, you will need to change the resolution to a displayable resolution on the computer.

• The setting method of the personal computer will differ depending on the personal computer that you are using. For more information, read the instruction manual for your personal computer, or contact the manufacturer of your personal computer.

![Diagram of connections with personal computer and projectors](image_url)
Connections with Video Equipment

Note:
- This projector's video cable and S-video cable are unique cables. To purchase extension cables, please contact your dealer.
- The AUDIO jack of the projector is a 2.5 mm diameter stereo mini jack. Connection is not possible using the common (3.5 mm diameter) stereo mini jack cable from the headphone jack of the personal computer or video equipment.
Operating the Projector

1. Set up the screen and the projector
   See the affixed "Projection Distance Table" for the desired distance between the screen and the projector.

2. Connect the personal computer or video equipment to the projector.

3. Connect the AC IN connector of the projector and the power outlet using the supplied power cable.
   The POWER indicator will light amber, the cooling fan will rotate at low speed, and the unit will enter the standby mode.

4. Switch the projector power on.
   **Main unit operation:** Press and hold the POWER button for several seconds.
   **Remote control operation:** Press the POWER ON button.

   The POWER indicator changes to a flashing green and lights steadily after about 60 seconds. The projection screen brightens after about 40 seconds.
   The projector is now capable of regular projection.

5. Switch the power of the connected equipment on.

6. Select the input
   **Main unit operation:** Press the SOURCE button.
   **Remote control operation:** Press the desired button from among the input selection buttons.
Turning the projector Off

1  Switch the power button off.
   Main unit operation: Press and hold the POWER button for several seconds.
   Remote control operation: Press the POWER OFF button.

   The "Power off" indication will appear.
   When the red bar extends fully (approximately 5 seconds), the projection screen will turn off and the unit will enter the power off operation.

   Note
   • The operation can be cancelled by pressing a button other than the POWER button.
   • One more press of the POWER (POWER Off) button will switch off the power.

   When the unit enters the standby mode the POWER indicator changes from a flashing amber and lights a steady amber after about 90 seconds.

2  Unplug the power cable.
   Check that the POWER indicator is lit amber and then unplug the power cable.
   The POWER indicator will go off when the power cable is unplugged.

   WARNING:
   Do not unplug the power cable while the POWER indicator is flashing amber. Doing so may shorten the life of the lamp or damage the projector.
Using the Quick Menu

Note that the Quick Menu will not be displayed unless the signal of the connected equipment is detected. Please select the input that you wish to adjust.

Main unit operation
(1) Press the QUICK MENU button to access the Quick Menu. Press again to select the desired adjustment display.
(2) Press the ◀ or ▶ button to adjust.
(3) To close the display immediately, press the MENU button. In the absence of operations for a period of about 10 seconds, the display will close automatically.

Remote control operation
(1) Press the QUICK MENU button to access the Quick Menu. Further presses cause the adjustment display to change in sequence. The adjustment display can be selected with use of either the cursor ▲ or ▼ button.
(2) Press the cursor ◀ or ▶ button to make the adjustment.
(3) To close the display immediately, press the CANCEL button. In the absence of operations, the display will close automatically in a period of about 10 seconds.

# Menu Operation

## Remote Control

![Remote Control Diagram]

- **MENU button**
  - Used for menu display and menu closure.

- **CURSOR(▲▼◇) button**
  - Selects menu names and item names as well as in setting and adjusting the item contents.

- **CANCEL button**
  - Returns to menu name selection as well as to close the menu (and the sub menu display).

- **ENTER button**
  - Sets the verification display.

## Projector

![Projector Diagram]

- **MENU button**
  - Displays menu, to return to menu name selections, and to close menus (i.e. closing sub menu displays).

- **▷(AUTO) button**
  - Advances the selection of menu names. Advances the setting/adjustment values of the item contents. Also serves the function of the remote control ENTER button.

- **▼(QUICK MENU) button**
  - Selects of item names.

- **◁(SOURCE) button**
  - Returns to the selection of menu names. Advances the setting/adjustment values of the item contents.
On Screen Display

- The remote control should be pointed toward the remote control sensor of the projector and operated.
- When no signal is detected, only "Color", "Setup", and "Info." can be selected. ("Color" can be selected for Video and S-Video source only.)
- The menu will close automatically if no buttons are pushed within 30 seconds.

Menu Display
1. Press the MENU button to display the menu

**Note**: Pressing the main unit MENU button will change the function of the SOURCE button, AUTO button, and QUICK MENU button to that of cursor buttons.
Menu Selection

2 Press the cursor (◀▶) button to select the menu item you wish to adjust.
   Each press of the cursor (▶) button advances the selection one step in the sequence of "Color" →"View" →"Setup" →"Info." →"Image".
   Each press of the cursor (◀) button causes a return of one step.
   The selected menu name will appear in red.

Note: To cancel the display of the cursor, press the CANCEL button on the remote control or the MENU button on the projector.

Displaying the Cursor

3 Press the cursor (▼) button to display the cursor.

Selection of the Item Name

4 Press the cursor (▲▼) button to align the cursor with the item name.
   Main unit operation: Press the (QUICK MENU) button. When the cursor has moved to the very bottom of the items, another press will move it to the very top of the items.
   When the ▶ icon is displayed and depending on the item contents, a press of the cursor (▶) button will result in the sub menu, the setting display, a resetting of the adjustment value, or a resetting verification display.

Making Adjustments/Settings

5 Press the cursor (◄►) button and make the adjustment (or setting) while viewing the image.
   When a button is pressed, the image will also change.

Closing the Menu

6 Press the MENU button and close the menu display.
   Main unit operation: Press the MENU button and delete the cursor. The operation will differ depending on the display contents when a sub menu is displayed. Should a sub menu be displayed, press the MENU button until the MENU display closes.
### STATUS Indicator Light

<table>
<thead>
<tr>
<th>STATUS Indicator</th>
<th>POWER Indicator</th>
<th>Problem</th>

</tr>
<tr>
<td>Flashes red (1 s lit / 1 s off)</td>
<td>Lit red</td>
<td><strong>The lamp cover is open.</strong> The lamp cover is not attached properly. Attach it properly.</td>
</tr>
<tr>
<td>Lit red</td>
<td>Lit amber after 90 seconds of flashing in amber</td>
<td><strong>The lamp will not turn on.</strong> The lamp has reached end of life. Contact your reseller or ViewSonic for a replacement lamp.</td>
</tr>
</tbody>
</table>

**Note:**
Should the projector not project properly, see the Troubleshooting section of the User Guide.
Replacing the Lamp Cartridge

⚠️ WARNING
- The Lamp Cartridge should only be replaced after the unit has been turned off, cooled down for 60 minutes and the power cord has been unplugged. Replacement of the lamp cartridge during operation or immediately after operation stops may cause burns due to high temperature.
- Do not remove any screws other than those specified.
- Do not touch the lamp with bare hands. Doing so could shorten the life of the lamp.
- If the lamp has reached the end of its usable life, the lamp bulb may shatter. If the lamp shatters, contact ViewSonic Customer Support center immediately.

PREPARATION
To prevent scratches place the lamp on a soft cloth.

1. Disconnect the power cable.
2. Turn the projector upside down.
3. Remove the lamp cover.
   (1) Turn the screw that fastens the lamp cover counterclockwise until it turns freely. (The screw will not come out.)

   (2) Lift the lamp cover a little and pull it off in the direction of the arrow.
4 Remove the lamp cartridge.
(1) Turn the 2 screws that fasten the lamp cartridge counterclockwise until they turn freely. (The screws will not come out.)
(2) Grasp the handle of the lamp cartridge, pull it upward and remove the lamp cartridge.

5 Install the new lamp cartridge.
(1) Slowly push in the lamp cartridge with the socket facing forward. (Align the lamp cartridge screw with the screw hole of the projector.)
(2) Turn the 2 screws of the lamp cartridge clock-wise to tighten.

6 Install the lamp cover.
(1) First insert the front edge of the lamp cover into the groove, then close the lamp cover.
(2) Turn the screw of the lamp cover clockwise to tighten.

7 Reset the lamp timer to zero.
Plug in the power cable and switch on the power before resetting.
Select [Info.] →[Lamp Timer Reset] and then reset the hours indication.
Specifications

Optical
DMD Single Chip Digital Micro Device (DMD)
1024 x 768 dots, scaling to 1280 x 1024
Lamp 120 W high-pressure mercury lamp
Image size 36 inch to 200 inch

Electrical
Inputs Video (NTSC3.58/NTSC4.43/PAL/PAL_N/PAL_M/PAL60/SECAM)
RGB (Horizontal :15 to 85 kHz, Vertical 50 to 120 Hz)
Color Reproduction Full color (16,770,000 colors)
Resolution SXGA (Compression), XGA(True), SVGA/VGA (Expansion/True)
Input Current 1.8 A
Power Requirement 100-240 V AC, 50/60 Hz
Power Consumption 180 watts

Mechanical
Dimensions Excluding Stand 18.0 cm (W) x 4.5 cm (H) x 14.1 cm (D)
7.1 in.(W) x 1.8 in.(H) x 5.6 in.(D)
Weight Approximately 1.0 kg / 2.20 lbs
Operational Temperatures Data projector: 5° to 35°C (41° to 95°F), 30 to 85% humidity
Regulations UL Approved (UL 1950, CSA 950)
Meets FCC Class A requirements
Meets EMC Directive (EN55022, EN55024)
Meets Low Voltage Directive (EN60950)

WARRANTY
VIEWSONIC PROJECTOR

What the warranty covers:
ViewSonic® warrants its products to be free from defects in material and workmanship during the warranty period. If a product proves to be defective in material or workmanship during the warranty period, ViewSonic will at its sole option repair or replace the product with a like product. Replacement product or parts may include remanufactured or refurbished parts or components.

How long the warranty is effective:
ViewSonic projectors are warranted for three (3) years for all parts excluding the lamp and three (3) years for all labor from the date of the first consumer purchase. Projector lamps are warranted separately.

Who the warranty protects:
This warranty is valid only for the first consumer purchaser.

What the warranty does not cover:
1. Any product on which the serial number has been defaced, modified or removed.
2. Damage, deterioration or malfunction resulting from:
   a. Accident, misuse, neglect, fire, water, lightning, or other acts of nature, unauthorized product modification, or failure to follow instructions supplied with the product.
   b. Repair or attempted repair by anyone not authorized by ViewSonic.
   c. Any damage of the product due to shipment.
   d. Removal or installation of the product.
   e. Causes external to the product, such as electric power fluctuations or failure.
   f. Use of supplies or parts not meeting ViewSonic’s specifications.
   g. Normal wear and tear.
   h. Any other cause which does not relate to a product defect.
3. Removal, installation, and set-up service charges.

How to get service:
1. For information about receiving service under warranty, contact ViewSonic Customer Support. You will need to provide your product’s serial number.
2. To obtain warranted service, you will be required to provide (a) the original dated sales slip, (b) your name, (c) your address, (d) a description of the problem, and (e) the serial number of the product.
3. Take or ship the product freight prepaid in the original container to an authorized ViewSonic service center or ViewSonic.
4. For additional information or the name of the nearest ViewSonic service center, contact ViewSonic.

Limitation of implied warranties:
THERE ARE NO WARRANTIES, EXPRESS OR IMPLIED, WHICH EXTEND BEYOND THE DESCRIPTION CONTAINED HEREIN INCLUDING THE IMPLIED WARRANTY OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Exclusion of damages:
VIEWSONIC LIABILITY IS LIMITED TO THE COST OF REPAIR OR REPLACEMENT OF THE PRODUCT. VIEWSONIC SHALL NOT BE LIABLE FOR:
1. DAMAGE TO OTHER PROPERTY CAUSED BY ANY DEFECTS IN THE PRODUCT, DAMAGES BASED UPON INCONVENIENCE, LOSS OF USE OF THE PRODUCT, LOSS OF TIME, LOSS OF PROFITS, LOSS OF BUSINESS OPPORTUNITY, LOSS OF GOODWILL, INTERFERENCE WITH BUSINESS RELATIONSHIPS, OR OTHER COMMERCIAL LOSS, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
2. ANY OTHER DAMAGES, WHETHER INCIDENTAL, CONSEQUENTIAL OR OTHERWISE.
3. ANY CLAIM AGAINST THE CUSTOMER BY ANY OTHER PARTY.

Effect of state law:
This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. Some states do not allow limitations on implied warranties and/or do not allow the exclusion of incidental or consequential damages, so the above limitations and exclusions may not apply to you.

Sales outside the U.S.A. and Canada:
For warranty information and service on ViewSonic products sold outside of the U.S.A. and Canada, contact ViewSonic or your local ViewSonic dealer.
Appendix

Power Cord Safety Guidelines

Caution: Use a power cable that is properly grounded. Always use an AC power cord that meets your country’s safety standard.

USA.................................UL
Canada.............................CSA
Germany.............................VDE
Switzerland.........................SEV
Britain...............................BASE/BS

AC PLUG CORD PRECAUTIONS FOR THE UNITED KINGDOM

FOR YOUR SAFETY PLEASE READ THE FOLLOWING TEXT CAREFULLY.

IF THE FITTED MOULDED PLUG IS UNSUITABLE FOR THE SOCKET OUTLET THEN THE PLUG SHOULD BE CUT OFF AND DISPOSED OF SAFELY.

THERE IS A DANGER OF SEVERE ELECTRICAL SHOCK IF THE CUT OFF PLUG IS INSERTED INTO AN APPROPRIATE SOCKET.

If a new plug is to be fitted, please observe the wiring code as shown below.

If in any doubt, please consult a qualified electrician.

WARNING: THIS APPLIANCE MUST BE EARTHED.

IMPORTANT: The wires in this mains lead are coloured in accordance with the following code:

Green-and-Yellow: Earth
Blue: Neutral
Brown: Live

If the coloured wires of the mains lead of this appliance do not correspond with the coloured markings identifying the terminals in your plug, proceed as follows:

The wire which is coloured GREEN-AND-YELLOW must be connected to the terminal in the plug which is marked by the letter E or by the Earth symbol or coloured GREEN or GREEN-AND-YELLOW.

The wire which is coloured BLUE must be connected to the terminal in the plug which is marked with the letter N or coloured BLACK. The wire which is coloured BROWN must be connected to the terminal in the plug which is marked with the letter L or coloured RED.

IMPORTANT NOTICE CONCERNING POWER CORD SELECTION

The power cord set for this unit has been enclosed and has been selected according to the country of destination and must be used to prevent electric shock. Use the following guidelines if it is necessary to replace the original cord set, or if the cord set is not enclosed.

The female receptacle of the cord set must meet CEE-22 requirements and may look like (Figure A1 below):

Figure 1

For the United States and Canada

In the United States and Canada the male plug is a NEMA5-15 style (Figure A2), UL Listed, and CSA Labeled. For units which are mounted on a desk or table, type SVT cord sets may be used. The cord set must be selected according to the current rating for your unit. Please consult the table below for the selection criteria for power cords used in the United States and Canada.

Figure 2

<table>
<thead>
<tr>
<th>Cord Type</th>
<th>Size of Conductors in Cord</th>
<th>Maximum Current Rating of Unit</th>
</tr>
</thead>
<tbody>
<tr>
<td>SVT</td>
<td>18 AWG</td>
<td>10 Amps</td>
</tr>
</tbody>
</table>

For European Countries

In Europe you must use a cord set which is appropriate for the receptacles in your country. The cord set is HAR-Certified, and a special mark that will appear on the outer sheath, or on the insulation of one of the inner conductors.

If you have any questions concerning which proper power cord to use, please consult with the dealer from whom you have purchased the product.
IMPORTANT SAFETY INFORMATION

Important Safeguards

These safety instructions are to maximize the long life of the unit and prevent fire and shock. Please read carefully.

Installation
• Place the unit on a flat, level surface in a dry area away from dust and moisture.
• Do not place the unit in direct sunlight, near heaters or heat radiating appliances.
• Exposure to direct sunlight, smoke or steam can harm internal components.
• Handle the unit carefully. Dropping or jarring can damage internal components.
• Do not place heavy objects on top of the unit.

Power Supply
• The unit is designed to operate on a power supply of 100-240 V 50/60 Hz AC. Ensure that your power supply fits these requirements before attempting to use the unit.
• Handle the power cable carefully and avoid excessive bending. A damaged cord can cause electric shock or fire.
• Disconnect the power cable from the power outlet after using the unit. Before disconnecting the power cable, make sure that the POWER indicator lights in amber (not blinking or in green).

Cleaning
• Disconnect the power cable from the unit.
• Clean the cabinet of the unit periodically with a damp cloth. If heavily soiled, use a mild detergent. Never use strong detergents or solvents such as alcohol or thinner.
• Use a blower or lens paper to clean the lens, and be careful not to scratch or mar the lens.
• Clean the ventilation slots and speaker grills on the unit periodically using a vacuum cleaner. If accumulated dust blocks the ventilation slots, the unit will overheat, which may cause the unit to malfunction. Use a soft brush attachment when using the vacuum cleaner. Do not use a hard attachment, such as a crevice tool, to prevent the damage to the unit.

Lamp Replacement
• Replace the lamp when the Status indicator comes on.
• Lamp may shatter at end of useful life. If lamp shatters contact ViewSonic immediately.

Fire and Shock Precautions
• Ensure that there is sufficient ventilation and that vents are unobstructed to prevent the buildup of heat inside the unit. Allow at least 10 cm (3 inches) of space between the unit and walls.
• Prevent foreign objects, such as paper clips and bits of paper, from falling into the unit. Do not attempt to retrieve any objects that fell into the unit. Do not insert any metal objects such as a wire or screwdriver into the unit. If something should fall into the unit, immediately disconnect the power cable from the unit and have the object removed by a qualified service technician.
• Do not place any liquids on top of the unit.
• Do not look into the lens while the unit is on, or serious damage to your eyes may result.

Portability
• When carrying the unit around, please use the carrying case included and, to protect the lens from scratches, always use the lens cap. Also, do not subject the unit to strong mechanical shock.
Compliance Information for U.S.A.

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference.

WARNING
This is a class A product. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures.

RF Interference WARNING
The Federal Communications Commission does not allow any modifications or changes to the unit EXCEPT those specified by ViewSonic in this manual. Failure to comply with this government regulation could void your right to operate this equipment. This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

FCC Warning
To assure continued FCC compliance, the user must use grounded power supply cord and the provided shielded video interface cable with bonded ferrite cores. If a BNC cable is going to be used, use only a shielded BNC(5) cable. Also, any unauthorized changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this device.

Instructions to Users
This equipment complies with the requirements of FCC (Federal Communication Commission) equipment provided that the following condition is met. Use the cables which are included with the projector or specified.
