

Engraved Signs

Product Data Bulletin

Description:

A solid color acrylic core is manufactured with a color surface layer. Rotary engraving selectively removes portions of the color layer to expose the solid color core. Signs can be supplied as shown with adhesive mounting strips for mounting, or with an optional mounting bracket.

Specifications:

SIGN CONSTRUCTION:

Overall thickness of all layers is 0.063"
Rotary engraving removes the surface color to reveal the solid color core

MOUNTING:

Adhesive Mounting Strips

OPTIONS:

Brackets for screw mounting and easy plate change are available for extra charge. Silver or gold-finish aluminum wall brackets that mount with screws are available
