

VEGGIE BULLET.

GET READY TO SPIRALIZE

SPIRALIZE

Replace your spaghetti with long strands of zucchini, or twirl thin cords of apples for a fruit tart. Follow the steps below to discover the spiralizing possibilities of your Veggie Bullet.

Get started!

1

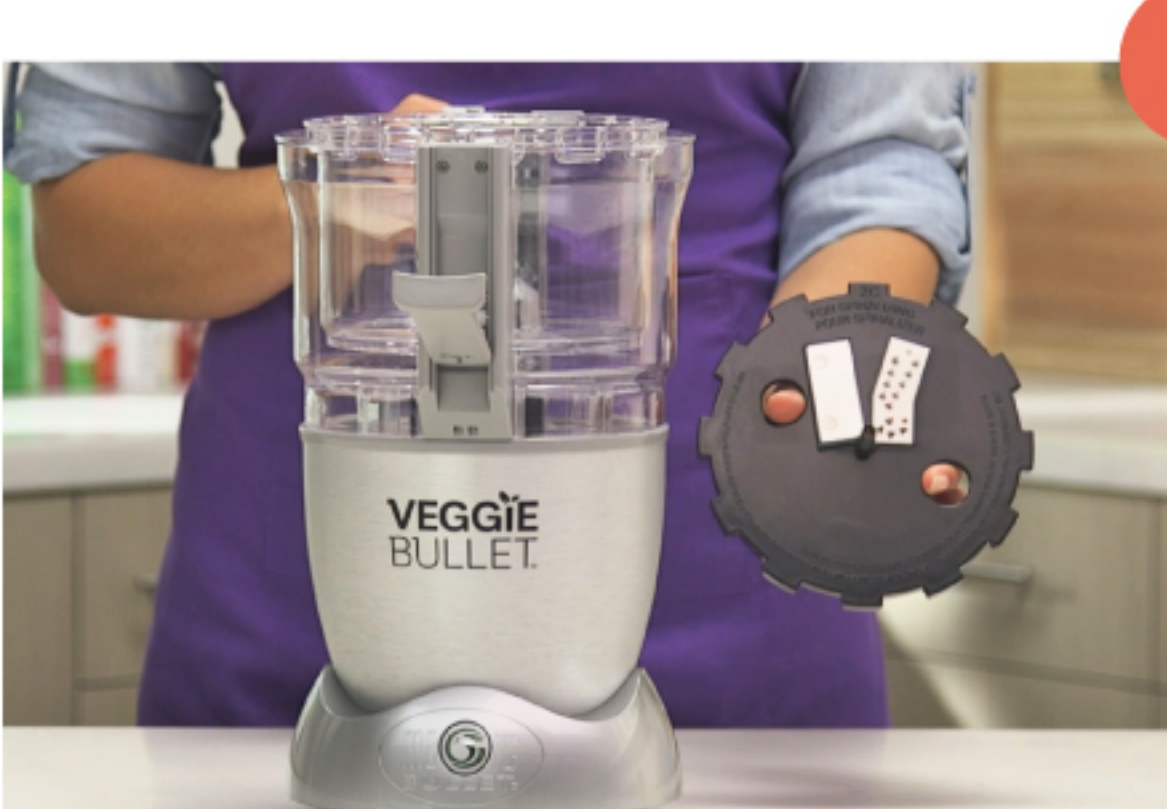

Place the spiralizer base on the power base, line up the arrow on the spiralizer to the unlock icon on the power base, and turn clockwise to lock.

2

Insert the spiralizer basket. Make sure it is aligned with the center spindle.

3

With the spiralizing label facing upward, use the finger grips to align the spiralizing blade with the notches on the basket.

4

Take the spiralizer lid. Squeeze the hinge pin and attach the lid at a 90-degree angle. Release to lock in place.

5

Secure the spiralizer lid by hooking the front safety clasp over the lid and press to lock.

6

Assemble the pusher and place into the spiralizer lid.

7

Now you're ready to start *spiralizing!*
