

HIGH POWER 700mW
DUAL BAND AC WI-FI ROUTER

RTA15

The Amped Wireless High Power 700mW Dual Band AC Wi-Fi Router provides industry-leading Wi-Fi coverage coupled with ultra-fast 802.11ac Wi-Fi speeds. The RTA15 is equipped with a total of ten amplifiers and three high gain antennas to provide extreme range, gigabit Wi-Fi coverage. The RTA15 is the first device to feature double amplification with advanced 2-stage 5GHz amplifiers that ensure the longest range and the most coverage. It features five gigabit networking ports for blazing fast wired connections. Powered by 802.11ac Wi-Fi technology the RTA15 provides gigabit Wi-Fi speeds (AC1200: three times faster than 802.11n) with enough bandwidth to deliver multiple HD streams simultaneously to all of your Wi-Fi devices as well as next generation Wi-Fi access throughout your entire home, backyard or office.

HOW IT WORKS

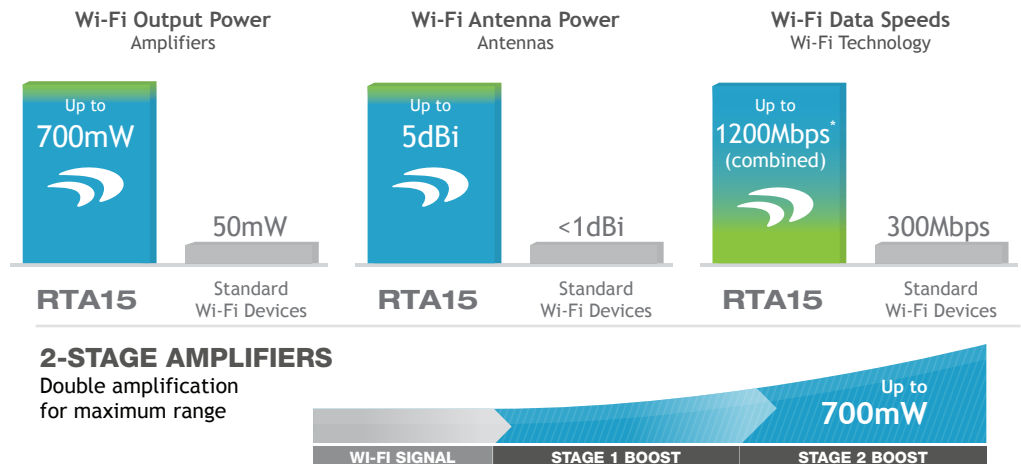

The High Power Dual Band AC Wi-Fi Router shares a broadband Internet connection and provides extreme Wi-Fi coverage with long range 2.4GHz and ultra-fast 5.0GHz access.

AMPED TECHNOLOGY

2-Stage Amplifiers boost a single Wi-Fi signal twice using two amplifiers for maximum performance.

mW = Milliwatt (Output Power Measurement) dBi = Decibel (Antenna Gain Measurement)
