1 Unpack

Unpack the ink bottle that matches the open ink tank. Hold the ink bottle upright and slowly turn the bottle cap to remove it.

Caution: Do not shake or squeeze the ink bottle. Do not touch the top of the ink bottle after its cap is removed; otherwise, ink may leak.

3 Position the top of the ink bottle along the slot in front of the filling port, then slowly stand the bottle up to insert it.

Caution: Do not touch the flat white cable or the ink tubes and their translucent cover.

8 Connect the power cord to the back of the product and to an electrical outlet.

Caution: Do not connect to your computer yet.

4 Wait for the ink to fill the tank. Do not squeeze the bottle. Ink flows into the tank and stops automatically when the ink is filled to the upper line.

Caution: Do not touch the ink bottles until you are ready to fill the ink tanks.

7 Close the ink tank cover and then the scanner unit.

5 When the ink tank is full, remove the ink bottle and securely close the ink tank cap. Place the remaining ink aside; you will need it later.

Notes: This product requires careful handling of ink. If ink spills, wipe it off immediately with a damp towel to avoid permanent stains. If ink gets on your clothes or belongings, it may not come off.

Warning: Keep the ink bottles out of the reach of children and do not drink the ink.

Remote sheet appears on the LCD screen, press the OK button on the next screen, press and hold the OK button for 3 seconds.

Note: If an error message appears, turn off the product and check that no protective material has been left inside the product.

11 When the message to see the Start Here sheet appears on the LCD screen, press the OK button. On the next screen, press and hold the OK button for 3 seconds.

Note: Replace the bottle cap and tighten it.

6 Repeat the previous steps for the other colors.

9 Raise the control panel, then press the OK button to turn on the product.

Caution: Do not connect to your computer yet.

10 Press the OK button to proceed. Follow the on-screen instructions to reset the ink levels.

Load paper

See the online User’s Guide for information about available paper types and sizes, loading capacity, rear feed loading, and loading CD/DVD/Blu-ray™ discs.

You can load the following paper sizes:
• Cassette 1: 3.5 × 5-, 4 × 6-, or 5 × 7-inch photo paper
• Cassette 2: Letter-, A4-, legal-size, or 8 × 10-inch paper

See the instructions below for loading paper.

1 Raise the control panel and lower the front cover.

12 When the message to start initialization appears on the LCD screen, press the OK start button to start charging the ink. Ink charging takes approximately 7 minutes. A message appears when ink charging is complete. Press the OK button to continue.

Note: After some ink is used for charging, the rest is available for printing.

Caution: Do not turn off the product, raise the scanner unit, or load paper while the product is charging or you’ll waste ink.

Follow steps 11 and 12 to continue ink charging.

Press the OK button for 3 seconds.
Read these instructions before using your product.

**Note for Spanish speakers/Nota para hispanohablantes:** Para obtener instrucciones de configuración en español, consulte la Guía de instalación en www.epson.com/support/et7700sp (requiere una conexión a Internet).

1. **Unpack**
   - Your product includes an extra maintenance box. Use it to replace the installed maintenance box when you are prompted to do so. See the online User’s Guide.
   - Do not open the ink bottles until you are ready to fill the ink tanks. The ink bottles are vacuum packed to maintain reliability.
   - The CD/DVD tray is taped to the bottom of cassette 2.
   - Your product includes an extra maintenance box. Use it to replace the installed maintenance box when you are prompted to do so. For instructions on how to replace the maintenance box, see the online User's Guide.

2. **Fill ink tanks**
   - Hold the ink bottle upright and slowly turn the bottle cap to remove it.
   - Position the top of the ink bottle along the slot in front of the filling port, then slowly stand the bottle up to insert it.
   - Refer to the color-coded sticker on the ink tank to identify the color of each tank. Do not force the bottles into position; they may leak.
   - Do not shake or squeeze the ink bottle. Do not touch the flat white cable or the ink tubes and their translucent cover.

3. **Load paper**
   - You can load the following paper sizes:
     - Cassette 1: 3.5 × 5-, 4 × 6-, or 5 × 7-inch photo paper
     - Cassette 2: Letter-, A4-, legal-size, or 8 × 10-inch paper

4. **Load CD/DVD/Blu-ray™ discs**
   - You can load CD/DVD/Blu-ray™ discs in an electrical outlet.
   - The input tray supports various paper types and sizes, loading capacity, rear feed loading, and loading CD/DVD/Blu-ray™ discs.

5. **Start Here**
   - When the ink tank is full, remove the ink bottle and securely close the ink tank cap. Place the remaining ink aside; you will need it later.

6. **Close the ink tank cover and then the scanner unit.**

7. **Connect the power cord to the back of the product and to an electrical outlet.**

8. **Raise the control panel and lower the front cover.**

9. **Press the OK button to continue.**

10. **Load paper while the product is charging or you'll waste ink.**

11. **When the message to see the Start Here sheet appears on the LCD screen, press the OK button.**

12. **When the message to start initialization appears on the LCD screen, press the OK button to start charging the ink. Ink charging takes approximately 7 minutes. A message appears when ink charging is complete.**

   - After some ink is used for charging, the rest is available for printing.
   - Do not turn off the product, raise the scanner unit, or load paper while the product is charging or you'll waste ink.
   - You can change these settings later using the product's control panel. For more information, see the online User's Guide.

13. **Follow the on-screen instructions to adjust the print quality.**

14. **To complete filling the ink tanks, repeat steps 1 through 6 using the remaining ink in the bottles.**

15. **Press the OK button to proceed.**

16. **Close the ink tank cover and scanner unit.**

---

**Caution:**
- Do not open the ink bottles until you are ready to fill the ink tanks.
- The CD/DVD tray is taped to the bottom of cassette 2.
- Your product includes an extra maintenance box. Use it to replace the installed maintenance box when you are prompted to do so. For instructions on how to replace the maintenance box, see the online User's Guide.

**Note:**
- Do not open the ink bottles until you are ready to fill the ink tanks. The ink bottles are vacuum packed to maintain reliability.
- The CD/DVD tray is taped to the bottom of cassette 2.
Select the paper settings on the product’s control panel. 

1 Pull out a paper cassette. 
2 Pull out the output tray until it stops and lower the control panel. 

3 Slide the side edge guides outward and set the front edge guide to the paper size you are using. 

4 Insert paper with the glossy or printable side down. 

5 Slide the side edge guides against the paper, but not too tightly. Make sure the paper is under the tabs on the side edge guides. 

6 Keep the cassette flat as you insert it all the way. 

7 Pull out the output tray until it stops and lower the control panel. 

8 Select the paper settings on the product’s control panel. 

Mobile printing 
Connect wirelessly from your smartphone, tablet, or computer. Print documents and photos from across the room or around the world: 

- Print directly from your iOS device. Simply connect your printer and device to the same network and tap the action icon to select the print option. 
- Use Epson Print Enabler (free from Google Play™) with Android™ devices (v4.4 or later). Then connect your printer and device to the same network and tap the action icon to select the print option. 
- Print remotely with Epson Connect™ and Google Cloud Print™. See your online User’s Guide for instructions or learn more at www.epson.com/connect (U.S.) or www.epson.ca/connect (Canada). 

Install software 

Notes: If your computer does not have a CD/DVD drive or you are using a Mac, an internet connection is required to obtain the product software.

To print from a Chromebook™, go to www.epson.com/support/ccp (U.S.) or www.epson.ca/support/ccp (Canada) for instructions. 

1 Make sure the product is NOT CONNECTED to your computer.

Windows®: If you see a “Found New Hardware screen, click Cancel and disconnect the USB cable. 

2 Insert the product CD or download and run your product’s software package: 
www.epson.com/support/et7700 (U.S.) or www.epson.ca/support/et7700 (Canada) 

3 Follow the instructions on the screen to run the setup program. 

4 When you see the Select Your Connection screen, select one of the following: 
   - Wireless connection 
      In most cases, the software installer automatically attempts to set up your wireless connection. If setup is unsuccessful, you may need to enter your network name (SSID) and password. 
   - Direct USB connection 
      Make sure you have a USB cable (not included). 
   - Wired network connection 
      Make sure you have an Ethernet cable (not included). 

Any problems? 

Network setup was unsuccessful.
   - Make sure you select the right network name (SSID).
   - Restart your router (turn it off and then on), then try to connect to it again.
   - The printer can only connect to a network that supports 2.4 GHz connections. If your router offers both 2.4 GHz and 5 GHz connections, make sure 2.4 GHz is enabled.
   - If you see a secure alert message, click Unblock or Allow to let setup continue.
   - If your network has security enabled, make sure you enter your network password (WEP key or WPA passphrase) correctly. Be sure to enter your password in the correct case.

There are lines or incorrect colors in my printouts.
Run a nozzle check to see if any of the print head nozzles are clogged. Then clean the print head, if necessary. See the online User’s Guide for more information.

The product’s screen is dark.
Make sure your product is turned on, and press any button to wake it from sleep mode.

Setup is unable to find my product after connecting it with a USB cable.
Make sure your product is on and securely connected as shown:
