

Free broadcast TV with more reach

The simple way to extend live streaming of HD TV to phones, tablets and media devices, wirelessly.

HDTC-2US

- Watch live streaming HD TV on your phone or tablet wherever you are in your home
- Cut the cable and cut the subscription costs
- Watch live HD TV on upto 2 devices simultaneously on your wifi or wired network
- Watch many great primetime broadcast channels from your favorite networks
- One click of our App to view live TV on Android or iOS

TV antenna required

Forget about cable TV. Cut the cord and make 'HDHomeRun Extend' part of your home network.

Receive Free to air TV via an antenna allowing you to send glorious HD 1080i definition content to anywhere in your home and to multiple devices. You can now easily watch another program in a different room or enjoy football in the yard – whether on a tablet or smart phone via our app, or computer or TV via DLNA. No more expensive subscriptions or cable boxes.

You can also record, pause, rewind and schedule your favorite shows using popular compatible DVR software like Windows Media Center, Elgato EyeTV and Myth TV.
