Usually, all you need to do in order to start using your PowerDeWise lapel microphone is plugging it into your device. It is absolutely compatible with iPhone, iPod, even MacBook Air and Windows smartphones. Moreover, in most cases it works perfectly with Android devices. However, there were cases when smartphone's built-in video editor did not recognize an external microphone and only saw its built-in one. Please try plugging in the mic into your device and in a situation where default video recorder app DOES NOT DETECT IT, PLEASE FOLLOW THE EASY STEPS below, starting on Google Play (or Play store)

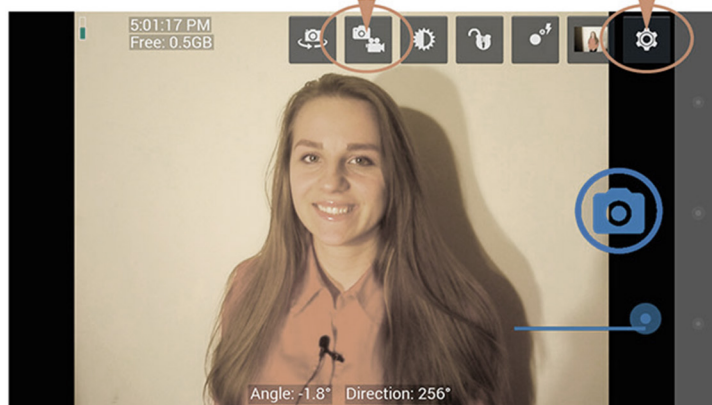

Step 1
Go to Google Play and search for an «open camera»

Step 2
Install an «open camera»

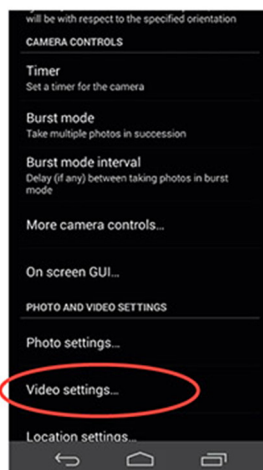

Step 3
Start the application and then switch modes from «photo» to «video».

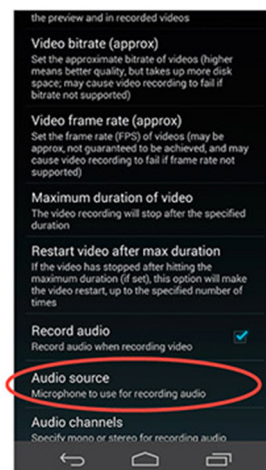

Then press «options»

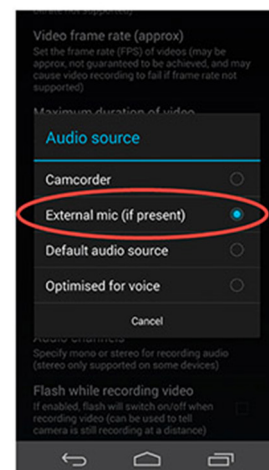

Step 4
Choose «video settings»

Step 5
Go to «audio source»

Step 6
Click on an «External mic»

If you have any questions or concerns regarding your PowerDeWise Microphone, please contact us for quick assistance. We answer ASAP. CUSTOMER SATISFACTION is our TOP PRIORITY.
