

humangear®

Burton McCall

humangear directory

humangear was founded in 2007 in San Francisco, California with the aim of creating innovative products for the outdoors, travel and personal care.

Comprising of the worldwide patented Go Tubb™ - the ingenious one handed hard container; the Go Toob® - an innovative, squeezable liquid transport tube made from food grade silicone; the Go Cup™ - a collapsing and hygienic travel cup, and the capCAP for use with widemouth bottles, which offers both spill-free drinking and easy filling and cleaning.

GoToob®

The squeezable liquid transport tube for outdoors, travel, personal care and much more

Say hello to the award-winning and patented Go Toob® - a soft, squeezable food grade silicone tube which enables fast and easy dispensing of shampoos, lotions, hand sanitiser, sunscreen, oils and many more.

The medium 60ml size features a handy suction cup that can briefly attach to walls for when you need your hands free.

The silicone valve in the flip-cap stops drips and keeps the cap spout clean, whilst the integrated rubber seal stops any leaks.

The collar is made of two rings that simply snap and unsnap from one another. The outer ring has an ID window, and the inner ring lists content indicators. A blank setting lets you write in your own content indicator.

All container sizes are FDA-food safe, PC-free, BPA-free and are approved for airplane carry on.

• HG0101	GoToob Single	Small	Clear	37ml
• HG0111	GoToob Single	Small	Lime Green	37ml
• HG0121	GoToob Single	Small	Sky Blue	37ml

• HG0185	GoToob 3 Pack	Medium	Clear/Orange/Red	60ml
• HG0187	GoToob 3 Pack	Large	Clear/Green/Blue	89ml
• HG0188	GoToob 3 Pack	Large	Clear/Orange/Red	89ml

Suction cup for brief hands-free dispensing (60ml size)

ID window displays content. Set to "Soap" "Lotion" etc

Wide opening for fast and easy filling and cleaning

Compact 37ml size packs easily in toiletry kits, bags, etc

Guarantee - All products also come with a lifetime guarantee. One example includes stringent testing on the hinges of the Go Toob caps, via thousands of cycles. It shows one way that humangear prides itself on customer satisfaction.

Awards - humangear has been awarded the "Buzz Award" at the TGA Travel Goods Show – the leading travel products trade show in America. The award is given to the most talked about products presented at the show, based on votes from both attending retailers and the media.

GoTubb™

For everything that you can't squeeze out of a Go Toob®, there's Go Tubb!

Patented worldwide, the Go Tubb® features an ingenious design that allows you to open and close with one hand only. Just squeeze the sides and the lid is released. To close, simply press back on.

The Go Tubb® works great with a number of dry contents including pills, snacks, vitamins, change, bits and pieces, you name it. A recessed textured labelling area resists being rubbed off. The transparent tops let you see what is inside without opening them.

The small 14cc size measures 30mm in diameter is perfect for a few pills, some change or two sets of ear plugs, for example. The larger 86cc size measures 36mm in diameter and is great for holding a bit more of almost anything.

Both Go Tubb® sizes come in convenient three packs in clear, blue and green colours.

The Go Tubb® is FDA-food safe, completely recyclable and 100% BPA free and PC-free.

- HG0210 Go Tubb 3-Pack Small Clear, Green, Blue
- HG0220 Go Tubb 3-Pack Medium Clear, Green, Blue

All humangear products are approved for airline carry on, are FDA food safe, 100% BPA-free and PC-free.

GoCup™

The modern collapsing cup: leakproof, hygienic, easy-to-clean and ultra-compact

Go Cup™ is made with FDA food grade silicone to create a collapsible cup that is 100% leak proof. Go Cup™ expands with a quick pull and collapses into an ultra-compact puck with a simple press.

Lids on both sizes feature handy pill holders and the 237ml size also features a 'double decker' tray that gives you the option of two smaller chambers (to organise pills, for example) or one large chamber. The double-decker also creates a handy portable pill box you can take on-the-go by itself.

Both sizes of the Go Cup™ include measurements in cups and mls. The 118ml size goes up to ½ cup and the 100ml and 237ml size goes up to 1 cup and 200ml.

Go Cup™ is PC-free, phthalate-free and BPA-free. They're perfect in any toiletry bag, backpack, briefcase, purse... almost anywhere!

- HG0310 GoCup 118ml Clear
- HG0311 GoCup 118ml Green
- HG0312 GoCup 118ml Blue
- HG0320 GoCup 237ml Clear
- HG0321 GoCup 237ml Green
- HG0322 GoCup 237ml Blue

Ultra-compact puck shape packs easily anywhere

"DoubleDecker" tray creates two storage zones and becomes a portable pill box

Larger 237ml size

Smaller 118ml size

capCAP™

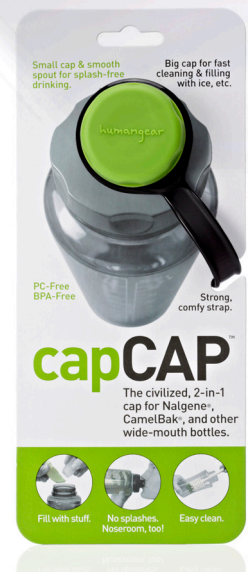

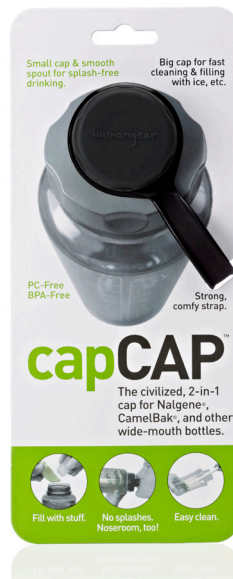

2-in-1 cap for Nalgene, CamelBak and other wide-mouth bottles

Most wide-mouth bottles are easy to fill and clean, but the standard opening is too big to drink from easily without spilling. Narrowmouth bottles are great to drink from but you can forget about putting fruit or ice cubes in them, let alone cleaning them.

The 63mm diameter capCAP offers the best of both worlds – drink spill-free through the small spout and then clean and fill easily with the large cap. The rubberised small cap is available in green, blue or black and is easy to grip, even with gloves on. The wide, rounded strap is more comfortable to hold too.

capCAP is 100% Polycarbonate-free and 100% BPA-free. Both caps are made with FDA-approved, food-safe polypropylene plastic.

- HG0010 capCAP Green
- HG0014 capCAP Black

Splash-free spout for easy drinking

Wide opening for cleaning or adding fruit/ice

Comfortable rounded strap

Available in green and black
