What Our Customers Say About Us

★★★★★ Beautiful!

I am very impressed with how pretty these flameless candle wraps are. They are simple and easy to use. I love them! I purchased them for a special milestone birthday event. I was a bit skeptical when I purchased, so I purchased glass candle holders also. The wraps looked MUCH nicer and are far more decorative and elegant looking than the glass holders that I purchased. Try these first - you will be extremely pleased with your purchase!

★★★★★ Great for my wedding

Me and my fiance purchased these for our wedding and really enjoy the flair that these give our tea lights. We will be placing tea lights on the table for our centerpieces with electronic lights. This gives a nice lace illusion to the lights. We didn't like how putting the lights in little candle holders looked.

I am not sure how these work with open flame lights as we are using them with electronic ones.

The wraps are extremely easy to put together and fit perfectly in our glass tea light holders. The Ivory is a perfect match too our wedding decor as well. I never saw anything like this before and was skeptical at first. Very happy we purchased these.

★★★★★ Perfect alternative to real candles and candle holders

These worked out great for our daughter's wedding! Fitted them with flameless flickering battery tea candles and they emit a beautiful glow when the sun went down. This was a perfect alternative to the traditional real candles for us since we threw it and the tea candles in our check in luggage. When the wedding was done, we didn't feel guilty about spending an exorbitant amount of money for shipping and the waste of candle holders to a destination wedding. They come in many colors. We ordered the gold and the white (just in case). We ended up using the gold which was beautiful. Be sure to assemble them so the tab is inside; otherwise they end up in an "almond" shape instead of round.

★★★★★ Very Romantic, perfect for my wedding

Fast shipping, no issues with the packaging. I really like these votive wraps so far. I also purchased the flickering tealights as well and these wraps fit perfect over them. I'll be using these for my bridal shower and wedding this Fall 2018. I'll give another update afterward.
