For use in a vehicle, safely place hands-free device using the handbrake. Ensure all passengers are seated and no one is obstructing the rear view mirror.

1. Use the hands-free device in a quiet environment to ensure clear communication.
2. Avoid using the hands-free device while driving, as it may distract you from the road.
3. Follow any local or state laws regarding hands-free devices while driving.
4. Keep the hands-free device within easy reach while driving.
5. Avoid using loud volumes or shouting while using the hands-free device.

Changing and Battery

1. To change the charging cable, gently pull the cable out of the charging port to release it. The charging port is located at the end of the handbrake lever.
2. To charge the device, use the included charging cable and connect it to the charging port. The charging port is located at the end of the handbrake lever.
3. The device takes approximately 2 hours to charge when it is completely drained.
4. It is recommended to keep the device charged when not in use to ensure optimal performance.

Bluetooth connection steps

1. Make sure both the hands-free device and mobile phone are paired and connected.
2. In the mobile phone settings, select “Bluetooth” and “Hands-Free Device”
3. Follow the prompts on the mobile phone to connect the device.
4. Once connected, the hands-free device will automatically connect to the mobile phone when the device is in range.
