# CYBERPOWERPC

QUICK START GUIDE

CYBERPOWERPC takes great pride in delivering you a high quality product so please follow the steps below to ensure your system is properly prepared for operation before turning on your computer.
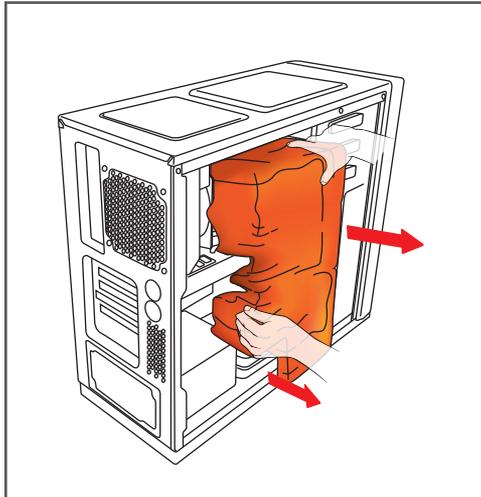

Step 1 — Packaging Foam Removal
(If Installed With Your Purchase)

Some systems may include a protective foam inside the case that **must be removed** before turning on the computer.
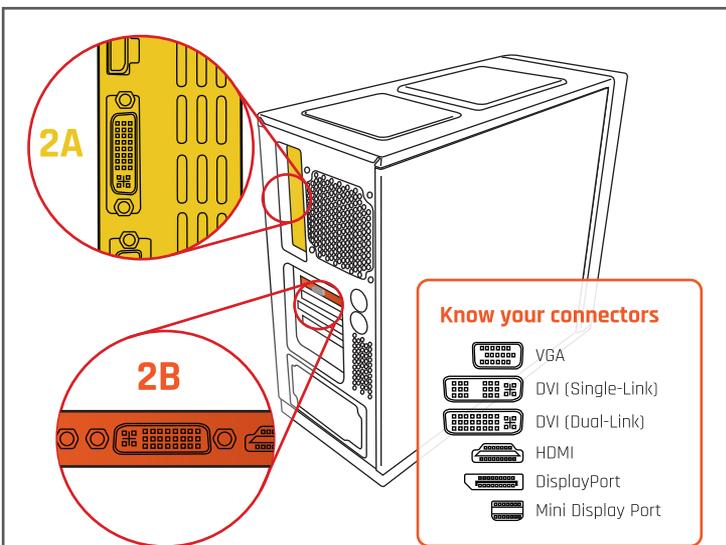

Remove screws from left side panel and remove the panel.

Always carefully remove the protective foam before turing on.

Serial ATA Cables

Note: The most common cables to disconnect are the hard drive power and data cables.

Hard Drive

Inspect all cables to ensure none were disconnected during shipping.

Step 2 — Connecting your display

Some systems will have a add-on graphics card, please see below to identify which monitor connector you should be using.

2A

2B

Know your connectors
- VGA
- DVI (Single-Link)
- DVI (Dual-Link)
- HDMI
- DisplayPort
- Mini Display Port

Always connect your display to the ports at **2B**, **however, if** you don't have connectors there then use the connectors at **2A**.
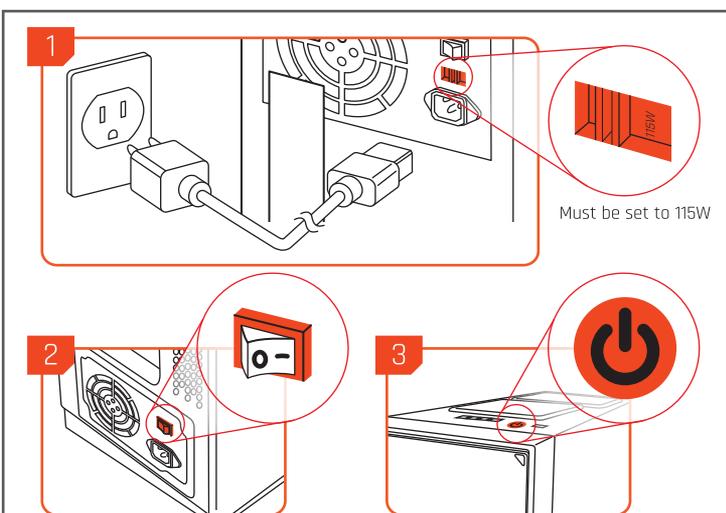

Step 3 — Connecting Your Peripherals

Connect your peripherals such as your mouse, keyboard, speakers, headset and network to the appropriate ports.

USB 2.0 USB 3.0

RJ-45

Audio In   Audio Out

Note most peripherals today are color coordiated so when in doubt match the color of the connectors together with the matching ports on the system.

Step 4 — Powering on your system

Use the included power cord and connect the cable to your system's power supply and the other end to a wall outlet.

1

Must be set to 115W

2

3

Remember you may need switch on the system's power supply first before you can power on your computer with the front power button. (fig.2)

Step 5 — Find Your Windows Product Key

After your system starts up for the first time you will need your Windows product key located on the side of the system.

HBE7X-PXL2-P98XE -HA8BV-G6E7K

Product key

Copy the code exactly as it is on the sticker. It is also recommended that you take a picture of the sticker to keep as a reference. (Don't have one? See FAQ for details.)
