

Audio2000's tm AWM6112 Charging Mechanism

* Before using your AWM6112 Rechargeable Microphone system, please follow the recharging instructions.

* AWM6112 Receiver

- * Insert rechargeable batteries in the AWX6112 microphones. Once installed, put each microphone in a charging slot on the receiver.
- * As mentioned on page 4 of the owners manual, the receiver must be powered off for both microphones to charge simultaneously.
- * Red lights indicate the microphones are charging.

Charging both microphones

* Microphones not charging?

- * If the receiver is powered on and both of the microphones are in the charging slots, the red charging lights will go off and the microphones will NOT charge.

* Charging one microphone

- * If one microphone is removed while the receiver is powered on, the second microphone will charge.
- * Note: The red charging light where the microphone is in will turn on.
