How to Fold Reflector

1.  
2.  
3.  
4.  
5.  
6.
1. Unlock the arm lock to adjust the length of the arm from 26 inch to 45 inch.

2. Untighten the middle screw to twist the arm angle.

3. Release the lever to unlock the neck and pivot the arm bar to get your desired angle.

4. Push the clip down to attach the reflector panel to the arm.

5. Attach the arm bar to the light stand and secure it.
