802.11ac Wave 2
Enterprise Wi-Fi Access Point
Model: UAP-AC-HD
Introduction
Thank you for purchasing the Ubiquiti Networks® UniFi® 802.11ac Wave 2 Enterprise Wi-Fi Access Point. This Quick Start Guide is designed to guide you through installation and includes warranty terms.

**IMPORTANT:** The UAP-AC-HD requires the UniFi Controller v5.3 or newer, available at: downloads.ubnt.com/unifi

Package Contents

- UniFi AP AC HD
- Mounting Bracket
- Ceiling Backing Plate
- Flat Head Screws (Qty. 4)
- Keps Nuts (Qty. 4)
- Screws (Qty. 4)
- Screw Anchors (Qty. 4)
- Gigabit PoE* (48V, 0.5A) with Mount Bracket
- Power Cord*
- Quick Start Guide

* Included only in the single-pack of the UAP-AC-HD

**TERMS OF USE:** Ubiquiti radio devices must be professionally installed. Shielded Ethernet cable and earth grounding must be used as conditions of product warranty. TOUGHCable™ is designed for outdoor installations. It is the customer’s responsibility to follow local country regulations, including operation within legal frequency channels, output power, and Dynamic Frequency Selection (DFS) requirements.
Installation Requirements

• Phillips screwdriver
• Drill and drill bit (6 mm for wall-mounting or 3 mm for ceiling-mounting)
• Optional: Drywall or keyhole saw (to cut 18 mm hole for Ethernet cable feed)
• Cat5/6 UTP cable for indoor installations

Outdoor Installation Requirements

IMPORTANT: The UAP-AC-HD may be installed outdoors under an eave or other protected location. Do not install the UniFi AP in an open environment.

• Mounting location should be at least 60 cm (2 ft) from the edge of the eave or ceiling.
• Cable feed opening must be directed away from the open environment.
• Cable feed must be pointed downwards when wall-mounted.
• Shielded Category 5 (or above) cabling should be used for all outdoor wired Ethernet connections and should be grounded through the AC ground of the PoE.

We recommend that you protect your networks from harmful outdoor environments and destructive ESD events with industrial-grade, shielded Ethernet cable from Ubiquiti Networks. For more details, visit www.ubnt.com/toughcable

System Requirements

• Linux, Mac OS X, or Microsoft Windows 7/8/10
• Java Runtime Environment 1.6 (1.8 or newer recommended)
• Web Browser: Google Chrome (Other browsers may have limited functionality.)
• UniFi Controller software v5.3 or newer (available at: downloads.ubnt.com/unifi)
Network Topology Requirements

- A DHCP-enabled network (for the AP to obtain an IP address as well as for the wireless clients after deployment)
- A UniFi Cloud Key or management station running the UniFi Controller v5.3 (or newer) software, located either on-site and connected to the same Layer 2 network, or off-site in the cloud or NOC

Sample Network Diagram

All UniFi devices support off-site management controllers. For setup details, see the User Guide on the website: documentation.ubnt.com/unifi

Ports

**Reset**  The Reset button serves two functions for the UniFi AP:

- **Restart**  Press and release the Reset button quickly.
- **Restore to Factory Default Settings**  Press and hold the Reset button for more than five seconds.

**USB 3C**  The USB 3C port is reserved for future use.

**Secondary**  The Secondary port is a Gigabit Ethernet port used for bridging.

**Main**  The Main port is a Gigabit Ethernet port used to connect the power and should be connected to the LAN and DHCP server.

**IMPORTANT:** The UAP-AC-HD cannot be powered by the US-8 or US-8-60W; however, it can be powered by other UniFi PoE Switches that provide 802.3at PoE+ power.

**Note:** If you need to remove the UniFi AP from the Mounting Bracket, insert a straightened paper clip in the Security Slot to release the Lock Tab and turn the UniFi AP counterclockwise.
Upgrade from UAP-AC-PRO

The UAP-AC-HD uses the same mounting hardware as the UAP-AC-PRO, so you only need to remove the UAP-AC-PRO and replace it with the UAP-AC-HD.

To begin the upgrade, perform the following steps:

1. Insert a straightened paper clip into the UAP-AC-PRO Security Slot to disengage the lock. Then turn the UAP-AC-PRO counterclockwise and lift it off of the mounting bracket.

2. Unplug the Ethernet cable from the Main port.

3. Go to step 4 of the Wall Mount section or step 5 of the Ceiling Mount section.
Hardware Installation

The UniFi AP can be mounted on the wall or ceiling. Perform the steps for the appropriate installation:

Wall Mount

1. Position the *Mounting Bracket* at the desired location on the wall with the *Arrow* pointing up.

2. Mark the four mounting holes, and use a 6 mm drill bit to drill the holes. If your Ethernet cable feeds through the wall, cut or drill a circle approximately 18 mm in diameter. Then feed the CAT5/6 cable through the hole.
3. Insert the *Screw Anchors* into the holes. Secure the *Mounting Bracket* to the wall by inserting the *Screws* into the anchors.

4. Remove the rubber port cover from the UniFi AP.
5. If the Ethernet cable is fed through the wall, skip to step 6. If the Ethernet cable runs along the mounting surface, remove the cable feed plug.

6. Feed the Ethernet cable through the port cover.

Note: The feed hole will stretch to accommodate the RJ45 connector, and then seal around the cable.

7. Connect the Ethernet cable to the Main port and replace the port cover.
8. Align the *Arrow* on the top edge of the UniFi AP with the *Arrow* on the *Mounting Bracket*.

9. Rotate the UniFi AP clockwise until the tabs lock into place and the *Lock Tab* engages.
Ceiling Mount

1. Remove the ceiling tile.
2. Place the *Ceiling Backing Plate* in the center of the ceiling tile. Mark the four mounting screw holes and a 18 mm hole for the Ethernet cable feed.

3. Use a 3 mm drill bit to drill the screw holes, and cut or drill the hole for the Ethernet cable feed.
4. Insert the *Flat Head Screws* through the *Mounting Bracket*, ceiling tile, and *Ceiling Backing Plate*. Fasten the screws using the *Keps Nuts*. Then feed the Ethernet cable through the tile and bracket.
5. Remove the port cover from the UniFi AP, and then feed the Ethernet cable through the port cover.

**Note:** The feed hole will stretch to accommodate the RJ45 connector, and then seal around the cable.

6. Connect the Ethernet cable to the *Main* port and replace the port cover.
7. Align the Arrow on the top edge of the UniFi AP with the Arrow on the Mounting Bracket.

8. Rotate the UniFi AP clockwise until the tabs lock into place and the Lock Tab engages.

9. Set the ceiling tile back into place.
Powering the UniFi AP

The UAP-AC-HD features auto-sensing 802.3at PoE+ support and can be powered by any of the following:

- Ubiquiti Networks UniFi Switch with 802.3at PoE+
- 802.3at PoE+ compliant switch
- Ubiquiti Networks Gigabit PoE Adapter (48V, 0.5A)

The single-pack of the UAP-AC-HD includes one Gigabit PoE adapter. For multi-pack units, PoE adapters or a UniFi Switch with 802.3at PoE+ may be purchased separately.

Connecting to a PoE+ Switch

Connect the Ethernet cable from the UniFi AP directly to a PoE+ port on the switch.

IMPORTANT: The UAP-AC-HD cannot be powered by the US-8 or US-8-60W; however, it can be powered by other UniFi PoE Switches that provide 802.3at PoE+ power.
Connecting to a PoE Adapter

1. Connect the Ethernet cable from the UniFi AP to the **POE** port of the **Gigabit PoE** adapter.
2. Connect an Ethernet cable from your LAN to the **LAN** port of the **Gigabit PoE** adapter.
3. Connect the **Power Cord** to the adapter, and then plug the **Power Cord** into a power outlet.

Mounting the PoE Adapter (Optional)

1. Remove the **PoE Mounting Bracket** from the adapter, place the bracket at the desired location, and mark the two holes.
2. Pre-drill the holes if necessary, and secure the bracket using two fasteners (not included).
3. Align the adapter’s slots with the tabs of the **PoE Mounting Bracket**, and then slide the adapter down.
Software Installation

Download and install the latest version of the UniFi Controller software at: downloads.ubnt.com/unifi

Launch the software and follow the on-screen instructions. Step-by-step instructions are available in the User Guide located on our website: documentation.ubnt.com/unifi

After you have installed the software and run the UniFi Installation Wizard, a login screen will appear for the UniFi Controller management interface. Enter the Admin Name and Password that you created and click Log In.

You can manage your wireless network and view network statistics using the UniFi Controller management interface. For information on configuring and using the UniFi Controller software, refer to the User Guide.

Mobile App Installation

Ubiquiti Networks also offers the UniFi mobile app, which is available from the App Store (iOS) or Google Play™ Store (Android™). You can use it to provision a UniFi AP for basic functionality without configuring a UniFi Controller. It also allows seamless provisioning of APs for remote controllers (controllers not on the same Layer 2 network) and easy access to both local controllers and those monitored on unifi.ubnt.com.

Safety Notices

1. Read, follow, and keep these instructions.
2. Heed all warnings.
3. Only use attachments/accessories specified by the manufacturer.

⚠️ **WARNING:** Do not use this product in location that can be submerged by water.

⚠️ **WARNING:** Avoid using this product during an electrical storm. There may be a remote risk of electric shock from lightning.

Electrical Safety Information

1. Compliance is required with respect to voltage, frequency, and current requirements indicated on the manufacturer’s label. Connection to a different power source than those specified may result in improper operation, damage to the equipment or pose a fire hazard if the limitations are not followed.

2. There are no operator serviceable parts inside this equipment. Service should be provided only by a qualified service technician.

3. This equipment is provided with a detachable power cord which has an integral safety ground wire intended for connection to a grounded safety outlet.
   a. Do not substitute the power cord with one that is not the provided approved type. Never use an adapter plug to connect to a 2-wire outlet as this will defeat the continuity of the grounding wire.
   b. The equipment requires the use of the ground wire as a part of the safety certification, modification or misuse can provide a shock hazard that can result in serious injury or death.
   c. Contact a qualified electrician or the manufacturer if there are questions about the installation prior to connecting the equipment.
   d. Protective earthing is provided by Listed AC adapter. Building installation shall provide appropriate short-circuit backup protection.
   e. Protective bonding must be installed in accordance with local national wiring rules and regulations.
Limited Warranty

UBIQUITI NETWORKS, Inc (“UBIQUITI NETWORKS”) warrants that the product(s) furnished hereunder (the “Product(s)”) shall be free from defects in material and workmanship for a period of one (1) year from the date of shipment by UBIQUITI NETWORKS under normal use and operation. UBIQUITI NETWORKS’ sole and exclusive obligation and liability under the foregoing warranty shall be for UBIQUITI NETWORKS, at its discretion, to repair or replace any Product that fails to conform to the above warranty during the above warranty period. The expense of removal and reinstallation of any Product is not included in this warranty. The warranty period of any repaired or replaced Product shall not extend beyond its original term.

Warranty Conditions

The above warranty does not apply if the Product:

(I) has been modified and/or altered, or an addition made thereto, except by Ubiquiti Networks, or Ubiquiti Networks’ authorized representatives, or as approved by Ubiquiti Networks in writing;

(II) has been painted, rebranded or physically modified in any way;

(III) has been damaged due to errors or defects in cabling;

(IV) has been subjected to misuse, abuse, negligence, abnormal physical, electromagnetic or electrical stress, including lightning strikes, or accident;

(V) has been damaged or impaired as a result of using third party firmware;

(VI) has no original Ubiquiti MAC label, or is missing any other original Ubiquiti label(s); or

(VII) has not been received by Ubiquiti within 30 days of issuance of the RMA.

In addition, the above warranty shall apply only if: the product has been properly installed and used at all times in accordance, and in all material respects, with the applicable Product documentation; all Ethernet cabling runs use CAT5 (or above), and for outdoor installations, shielded Ethernet cabling is used, and for indoor installations, indoor cabling requirements are followed.

Returns

No Products will be accepted for replacement or repair without obtaining a Return Materials Authorization (RMA) number from UBIQUITI NETWORKS during the warranty period, and the Products being received at UBIQUITI NETWORKS’ facility freight prepaid in accordance with the RMA process of UBIQUITI NETWORKS. Products returned without an RMA number will not be processed and will be returned freight collect or subject to disposal. Information on the RMA process and obtaining an RMA number can be found at: www.ubnt.com/support/warranty.
Disclaimer

EXCEPT FOR ANY EXPRESS WARRANTIES PROVIDED HEREIN, UBIQUITI NETWORKS, ITS AFFILIATES, AND ITS AND THEIR THIRD PARTY DATA, SERVICE, SOFTWARE AND HARDWARE PROVIDERS HEREBY DISCLAIM AND MAKE NO OTHER REPRESENTATION OR WARRANTY OF ANY KIND, EXPRESS, IMPLIED OR STATUTORY, INCLUDING, BUT NOT LIMITED TO, REPRESENTATIONS, GUARANTEES, OR WARRANTIES OF MERCHANTABILITY, ACCURACY, QUALITY OF SERVICE OR RESULTS, AVAILABILITY, SATISFACTORY QUALITY, LACK OF VIRUSES, QUIET ENJOYMENT, FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT AND ANY WARRANTIES ARISING FROM ANY COURSE OF DEALING, USAGE OR TRADE PRACTICE IN CONNECTION WITH SUCH PRODUCTS AND SERVICES. BUYER ACKNOWLEDGES THAT NEITHER UBIQUITI NETWORKS NOR ITS THIRD PARTY PROVIDERS CONTROL BUYER’S EQUIPMENT OR THE TRANSFER OF DATA OVER COMMUNICATIONS FACILITIES, INCLUDING THE INTERNET, AND THAT THE PRODUCTS AND SERVICES MAY BE SUBJECT TO LIMITATIONS, INTERRUPTIONS, DELAYS, CANCELLATIONS AND OTHER PROBLEMS INHERENT IN THE USE OF COMMUNICATIONS FACILITIES. UBIQUITI NETWORKS, ITS AFFILIATES AND ITS AND THEIR THIRD PARTY PROVIDERS ARE NOT RESPONSIBLE FOR ANY INTERRUPTIONS, DELAYS, CANCELLATIONS, DELIVERY FAILURES, DATA LOSS, CONTENT CORRUPTION, PACKET LOSS, OR OTHER DAMAGE RESULTING FROM ANY OF THE FOREGOING. In addition, UBIQUITI NETWORKS does not warrant that the operation of the Products will be error-free or that operation will be uninterrupted. In no event shall UBIQUITI NETWORKS be responsible for damages or claims of any nature or description relating to system performance, including coverage, buyer’s selection of products (including the Products) for buyer’s application and/or failure of products (including the Products) to meet government or regulatory requirements.

Limitation of Liability

EXCEPT TO THE EXTENT PROHIBITED BY LOCAL LAW, IN NO EVENT WILL UBIQUITI OR ITS SUBSIDIARIES, AFFILIATES OR SUPPLIERS BE LIABLE FOR DIRECT, SPECIAL, INCIDENTAL, CONSEQUENTIAL OR OTHER DAMAGES (INCLUDING LOST PROFIT, LOST DATA, OR DOWNTIME COSTS), ARISING OUT OF THE USE, INABILITY TO USE, OR THE RESULTS OF USE OF THE PRODUCT, WHETHER BASED IN WARRANTY, CONTRACT, TORT OR OTHER LEGAL THEORY, AND WHETHER OR NOT ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

Note

Some countries, states and provinces do not allow exclusions of implied warranties or conditions, so the above exclusion may not apply to you. You may have other rights that vary from country to country, state to state, or province to province. Some countries, states and provinces do not allow the exclusion or limitation of liability for incidental or consequential
damages, so the above limitation may not apply to you. EXCEPT TO
THE EXTENT ALLOWED BY LOCAL LAW, THESE WARRANTY TERMS DO
NOT EXCLUDE, RESTRICT OR MODIFY, AND ARE IN ADDITION TO, THE
MANDATORY STATUTORY RIGHTS APPLICABLE TO THE LICENSE OF ANY
SOFTWARE (EMBEDDED IN THE PRODUCT) TO YOU. The United Nations
Convention on Contracts for the International Sale of Goods shall not apply
to any transactions regarding the sale of the Products.

Compliance

FCC

Changes or modifications not expressly approved by the party responsible
for compliance could void the user’s authority to operate the equipment.
This device complies with Part 15 of the FCC Rules. Operation is subject to
the following two conditions.
1. This device may not cause harmful interference, and
2. This device must accept any interference received, including
interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a
Class A digital device, pursuant to part 15 of the FCC Rules. These limits are
designed to provide reasonable protection against harmful interference
when the equipment is operated in a commercial environment. This
equipment generates, uses, and can radiate radio frequency energy and,
if not installed and used in accordance with the instruction manual, may
cause harmful interference to radio communications. Operations of this
equipment in a residential area is likely to cause harmful interference in
which case the user will be required to correct the interference at his own
expense.

This radio transmitter (FCC: SWX-UAPACHD) has been approved by
FCC to operate with the antenna types listed below with the maximum
permissible gain and required antenna impedance for each antenna type
indicated. Antenna types not included in this list, having a gain greater
than the maximum gain indicated for that type, are strictly prohibited for
use with this device.

Antenna Information: 2.4 GHz, dual-polarity antenna, Gain: 3 dBi; 5 GHz,
dual-polarity antenna, Gain: 4 dBi

Industry Canada

CAN ICES-3(A)/NMB-3(A)

This Class A digital apparatus complies with Canadian ICES-003.
To reduce potential radio interference to other users, the antenna type and
its gain should be so chosen that the equivalent isotropically radiated power
(e.i.r.p.) is not more than that permitted for successful communication.
This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

1. This device may not cause interference, and
2. This device must accept any interference, including interference that may cause undesired operation of the device.

This radio transmitter (IC: 6545A-UAPACHD) has been approved by Industry Canada to operate with the antenna types listed below with the maximum permissible gain and required antenna impedance for each antenna type indicated. Antenna types not included in this list, having a gain greater than the maximum gain indicated for that type, are strictly prohibited for use with this device.

Antenna Information: 2.4 GHz, dual-polarity antenna, Gain: 3 dBi; 5 GHz, dual-polarity antenna, Gain: 4 dBi

CAN ICES-3(A)/NMB-3(A)

Cet appareil numérique de la classe A est conforme à la norme NMB-003 du Canada.

Pour réduire le risque d’interférence aux autres utilisateurs, le type d’antenne et son gain doivent être choisis de façon que la puissance isotrope rayonnée équivalente (PIRE) ne dépasse pas ce qui est nécessaire pour une communication réussie.

Cet appareil est conforme à la norme RSS Industrie Canada exempts de licence norme(s). Son fonctionnement est soumis aux deux conditions suivantes:

1. Cet appareil ne peut pas provoquer d’interférences et
2. Cet appareil doit accepter toute interférence, y compris les interférences qui peuvent causer un mauvais fonctionnement du dispositif.

Cet émetteur radio (IC: 6545A-UAPACHD) a été approuvée par Industrie Canada pour l’exploitation avec l’antenne types énumérées ci-dessous avec le gain maximal admissible et requis l’impédance de l’antenne pour chaque type d’antenne indiqué. Types d’antenne non inclus dans cette liste, ayant un gain supérieur au gain maximal indiqué pour ce type, sont strictement interdits pour une utilisation avec cet appareil.

Informations d’antenne: Antenne 2,4 GHz, double-polarité, Gain: 3 dBi; Antenne 5 GHz, double-polarité, Gain: 4 dBi

RF Exposure Warning

The antennas used for this transmitter must be installed to provide a separation distance of at least 21 cm from all persons and must not be located or operating in conjunction with any other antenna or transmitter, except as listed for this product’s certification.

Les antennes utilisées pour cet émetteur doit être installé pour fournir une distance de séparation d’au moins 21 cm de toutes les personnes et ne doit pas être situé ou opérant en conjonction avec une autre antenne ou un autre émetteur, sauf dans les cas énumérés à la certification de ce produit.
Australia and New Zealand

Warning: This is a Class A product. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures.

CE Marking

CE marking on this product represents the product is in compliance with all directives that are applicable to it.

Alert Sign (!) Follows CE Marking

Alert sign must be indicated if a restriction on use applied to the product and it must follow the CE marking.

RoHS/WEEE Compliance Statement

English

European Directive 2012/19/EU requires that the equipment bearing this symbol on the product and/or its packaging must not be disposed of with unsorted municipal waste. The symbol indicates that this product should be disposed of separately from regular household waste streams. It is your responsibility to dispose of this and other electric and electronic equipment via designated collection facilities appointed by the government or local authorities. Correct disposal and recycling will help prevent potential negative consequences to the environment and human health. For more detailed information about the disposal of your old equipment, please contact your local authorities, waste disposal service, or the shop where you purchased the product.
