

RECOIL PAD TEMPLATE GUIDE

WHY USE TEMPLATES?

Many manufacturers modify their stock dimensions yearly, making it difficult for us to keep one specific model available for one specific manufacturer. In response, we have provided these templates to help you match your gun stock butt.

OTHER OPTIONS

If you have a synthetic stock and a Precision-Fit recoil pad is not possible, you can utilize our Slip-On pad which delivers the same felt recoil reduction as the Precision-Fit pad. (Removal of existing pad is recommended, but not required.) You may also utilize our Grind-to-Fit recoil pad, but this may require a visit to your local gunsmith.

TEMPLATE INSTRUCTIONS

****NOTE: If printing from a PDF, please make sure that the “PRINT ACTUAL SIZE” box is checked (found in Print Settings). This will ensure that your templates will be the correct size.***

- I. Simply remove the existing recoil pad or plate from your stock butt by unscrewing. If your recoil pad is glued on, it may require gunsmithing.
- II. Place the gun stock on top of each template until you have found a match. Cut template out to determine screw hole location. If the screw holes do not line up, you can slot or elongate the screw holes on the bottom of our plate an additional 3/16” or more towards the heel or the toe and 1/16” towards the center of the pad (use a Dremel® tool with sanding attachment) to match the holes in your stock. This is regardless of wood or synthetic stocks. Please note: This only refers to the template recoil pads that are not already elongated or slotted.
- III. Once a match is found, the product number will be on that specific template so you will know which one to order.

Ruger M77 (wood), #1, Hawkeye (syn.); Browning Gold; Winchester 70 F.W.

Browning A-Bolt (wood), A-Bolt New Short Mag (syn.), Stalker (syn.);
Mossberg 500 C Youth (wood).

Beretta- All 5 3/8" (wood & synthetic)

Beretta- All 5" (wood & synthetic.)

Choate

Browning X-Bolt, ABD

The following two templates on this page were designed to fit a specific make of synthetic stock. To accomplish as accurate a fit as possible, many of the synthetic recoil pad plates have profiles that snap inside the cavities of the stock. While most plates can be modified to fit a wood stock by grinding off any protruding plastic on the plate, the following two plates CANNOT be altered.

Browning Gold 12/20; Stoeger M2000 (non-pistol grip & P-350 pump (syn.), Silver 12 GA. (Syn.)

Remington 700 ADL/BDL, ML, 710, 770, 7600, 870, (12, 16), 1100 (12, 16), 11-87 (syn.), SP-10;
Marlin XS7 (syn.)

LIMBSAVER GRIND-TO-FIT RECOIL PAD TEMPLATES

The following Grind-to-Fit Recoil Pads are shown with two profile lines. The outer line is the actual size of the pad. The inner line is the "Max" Grind line. In order for our technology to function properly, the interior air chamber must remain intact with enough wall thickness to contain the pressure during the firing of the weapon. By not grinding past this line, you ensure your pad will be in perfect working order. To determine which Grind-to-Fit Recoil Pad is right for you, remove your existing pad, and place your flat stock on the templates. Choose the pad that shows the full outer line of the template, and none of the interior line. For further instructions, see inside of our packaging, or go to www.LimbSaver.com.

SMALL GRIND-TO-FIT

10541 is a Classic LimbSaver pad with 1" LOP
10534 is a Trap LimbSaver pad with 1" LOP
10537 is a Nitro LimbSaver pad with 1-1/2" LOP

MEDIUM GRIND-TO-FIT

10542 is a Classic LimbSaver pad with 1" LOP
10535 is a Trap LimbSaver pad with 1" LOP
10538 is a Nitro LimbSaver pad with 1-1/2" LOP

10540 is a Speed Mount LimbSaver pad with 1" LOP
10544 is a Classic LimbSaver pad with 5/8" LOP

LARGE GRIND-TO-FIT

10543 is a Classic LimbSaver pad with 1" LOP
 10536 is a Trap LimbSaver pad with 1" LOP
 10539 is a Nitro LimbSaver pad with 1-1/2" LOP
