When using electrical appliances, basic precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

• Read all instructions before operating the appliance.
• Do not expose the appliance to rain, or use near water, in a bathroom, laundry area or other damp location.
• Do not use the appliance where combustible gases or vapors are present.
• Do not block the air inlet and outlet by placing items on the air outlet or in front of the air inlet. Do not insert fingers or foreign objects into the air outlet or air inlet.
• Do not let water or any other liquid or flammable detergent enter the appliance to avoid electric shock and/or a fire hazard.
• Do not clean the appliance with water, any other liquid, or a (flammable) detergent to avoid electric shock and/or a fire hazard.
• Do not spray any flammable materials such as insecticides or fragrance around the appliance.
• Check if the voltage indicated on the appliance corresponds to the local power voltage before you connect the appliance to the electrical outlet.
• Always switch the appliance OFF and unplug from the electrical outlet after using and before cleaning, moving and changing the filters. Be sure to remove the plug from the outlet. Never handle the power plug with wet or damp hands.
• Keep the cord out of heavy traffic areas and arrange cord so that it will not be tripped over.
• Do not put the cord under carpets or throw rugs or near heat vents and open flames.
• Locate the appliance near an electrical outlet and avoid using an extension cord.
• Do not use the plug in or near a power outlet that contains an electric air freshener to prevent damage to the plug.
• Do not use the appliance outdoors. For indoor use only.
• The marked electrical rating of the cord must be as great as the rating of the appliance.
• Do not operate any appliance with a damaged cord or plug.
• Do not run cord under carpeting. Do not cover cord with throw rugs, runners, or similar coverings. Do not route cord under furniture or appliances. Arrange cord away from traffic area and where it will not be tripped over.
• Do not drape over the edge of a counter or table where it could be pulled by children or tripped over unintentionally.
• Do not operate this appliance if it has a damaged power cord, plug or motor, if it is not working properly or after the appliance malfunctions or has been damaged in any manner. Discard air purifier or return to an authorized service facility for examination and/or repair.
• Close supervision is necessary when the appliance is used by, on, or near children or invalids.
• This appliance is not a toy. Children should be supervised to ensure they do not play with the appliance.

WARNING: To reduce the risk of fire or electric shock, do not use this appliance on window and with any solid-state speed control device.

Caution
• This appliance is not a substitute for proper ventilation, regular cleaning, or use of an exhaust fan or hood while cooking.
• A loose fit between the AC outlet (receptacle) and plug may cause overheating and a distortion of the plug. Contact a qualified electrician to replace loose or worn outlet.
• Never use the appliance unless it is fully assembled and with filters in place.
• The appliance must be used in its upright position.
• Make sure the appliance is assembled/connected properly after cleaning the pre-filter or replacing the filters.
• If the appliance will not be used for a long period of time, unplug from the electrical outlet, clean the appliance, filters before storing.
• Make sure that you plug the appliance into a properly AC electrical outlet.
Always place and use the appliance on a dry, stable, level, and horizontal surface. Make sure the appliance cannot be easily knocked over by a person or object.

Leave at least 20cm/8in free space behind and on both sides of the appliance and leave at least 30cm/12in free space above the appliance.

Do not place anything on top of the appliance.

Do not sit, stand or place heavy objects on the appliance.

Do not place the appliance directly below an air conditioner to prevent condensation from dripping onto the appliance.

Make sure all filters are properly installed before you switch on the appliance.

Only use the original Bulex filters specially intended for this appliance. Do not use any other filters.

Do not use the filter as fuel or for similar purposes.

Avoid knocking against the appliance (the air inlet and outlet in particular) with hard objects.

NEVER tilt, move or attempt to change or replace a filter while the appliance is operating. Switch OFF and unplug from the electrical outlet. Do not move the appliance by pulling on the power cord.

Do not use this appliance when using indoor smoke-type insect repellents or in places with oily residues, burning incense, or chemical fumes.

Do not use the appliance near gas appliances, heating devices or fireplaces.

Do not use the appliance in a room with major temperature changes, as this may cause condensation inside the appliance.

Use this appliance for its intended household use as described in this manual. Do not use attachments not recommended or sold by the appliance manufacturer.

The appliance does not remove carbon monoxide (CO) or radon (Rn). It cannot be used as a safety device in case of accidents with combustion processes and hazardous chemicals.

Always wash your hands thoroughly after changing or cleaning a filter.
Congratulations on your purchase, and welcome to Bulex! To achieve optimal performance of the device, read this user manual carefully before starting to use.

SAVE THESE INSTRUCTIONS

THIS APPLIANCE HAS A POLARIZED PLUG (one blade is wider than the other). To reduce the risk of electric shock, this plug is intended to fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician.

DO NOT ATTEMPT TO MODIFY THIS PLUG OR DEFEAT THIS SAFETY FEATURE IN ANY WAY.

Technical Specifications

Model No.: AF-3222
Control Mode: Touch Panel
Rated Voltage: AC120 V, 60 Hz
Rated Power: 45W
Noise Level(dB): Sleep Mod ≤ 32dB, High Speed Mode ≤ 50dB
Dimensions: 210(L)x210(W)x345(H)mm

  8.27(L)x8.27(W)x13.58(H)inch

Weight: 5.57lb (2.53kg)
Filter: HEPA
CADR: ≥ 80cfm/136m3/h
Applicable Area: 11.83m3 (Normal size)

Your Air Purifier

Congratulations on your purchase, and welcome to Bulex! To achieve optimal performance of the device, read this user manual carefully before starting to use.
Product Overview

Control Panel Overview

On/Off Button  Fan Speed Button  Timer Button  Night Light Button

Filter Reset Button
Multiple levels of cleaning include a combination HEPA filter that captures allergens, and an Activated Carbon filter to remove odors. Degerming filter enhances the killing of bacteria.

**PRE-FILTER:** Captures initial dust and allergen particles.

**ACTIVATED CARBON FILTER:** Absorbs formaldehyde, benzene and other noxious gases.

**HEPA FILTER:** Captures dust, smoke, pollen and other allergens.

**DEGERMING FILTER:** Destroys micro-organisms such as germs, viruses, bacteria and fungi (such as mold toxins).
Getting started

BEFORE OPERATING THE AIR PURIFIER:
1. Carefully take out your air purifier from the box and remove all packaging materials.
2. Place the unit on a firm, level and flat surface.
3. Before using it for the first time, please open the bottom cover and take out the filters, remove the wrapping bag of the filters, then insert the filters and close the cover (See chapter ‘Replacing the filters’).
4. Plug the power cord into a right voltage AC outlet.

Note

- Make sure the side with the clip is pointing towards outside when installing filters.
- Wash your hands thoroughly after installing filters.

Using the air purifier

Turning on and off

- Put the plug of the air purifier in the wall outlet.
- Touch the Power On/Off button to turn on the air purifier, the Power On/Off button indicator light turns blue.
- Touch the Power On/Off button again to switch off the air purifier, the Power On/Off button indicator light turns red.

Changing the fan speed

There are several fan speeds available. You can touch fan speed button to repeatedly select the fan speed you need (Low (I), Medium (II), High (III), Sleep ( )).
- Each time that you touch this button , the fan speed is adjusted from Low (I) to Medium (II) to High (III) to Sleep ( ). The default fan speed is at the Low (I) speed. The fan speed button indicator light turns blue and automatically indicates the selected fan speed.
- In sleep mode, the air purifier operates quietly on a very low speed.
Resetting the filter timer
This air purifier is equipped with a filter reset indicator to make sure that the air purification filter is in optimal condition when the air purifier is operating. When the filters need to be replaced (The filter lifetime is 2,000 hours with normal usage), the Filter reset button indicator light turns orange.
• Touch and hold the filter reset button 🔄 for 3 seconds to turn off the filter reset button indicator light after replacing the filters.

Setting the timer
With the timer, you can have the air purifier operate for a set number of hours. When the set time has elapsed, the air purifier will automatically switch off.
• Touch the timer button 🕒 repeatedly to choose the number of hours you want the air purifier to operate. The timer is available intervals of 2, 4, 8 hours. The timer button indicator light turns blue and automatically indicates the selected timer.
• The timer is deactivated by default.

Turning on and off the night light
With the night light button, you can switch on or off the night light.
• Touch the night light button 🌃 to turn on the night light, the night light button indicator light turns blue.
• Touch the night light button 🌃 again to switch off the night light, the night light button indicator light turns white.

Note
• All indicator lights will go off after 3 seconds in sleep mode.
• You can turn on the indicator lights manually by touching any button.

Note
The air purifier will automatically switch off after operating 48 hours if the timer is deactivated.

Resetting the filter timer
This air purifier is equipped with a filter reset indicator to make sure that the air purification filter is in optimal condition when the air purifier is operating. When the filters need to be replaced (The filter lifetime is 2,000 hours with normal usage), the Filter reset button indicator light turns orange.
• Touch and hold the filter reset button 🔄 for 3 seconds to turn off the filter reset button indicator light after replacing the filters.
Always turn the air purifier off and unplug from the electrical outlet before cleaning.

Never use abrasive, aggressive, or flammable cleaning agents such as bleach or alcohol to clean any part of the air purifier.

The filters are NOT washable.

Do not attempt to clean the filter with a vacuum.

Wash your hands after handling the filter.

When the air is heavily polluted, you can replace the filters even if the filter reset indicator light may not be on. Touch and hold the filter reset button for 3 seconds to reset filter lifetime counter manually after replacing the filter.

**Note**

- Always turn the air purifier off and unplug from the electrical outlet before cleaning.
- Never use abrasive, aggressive, or flammable cleaning agents such as bleach or alcohol to clean any part of the air purifier.
- The filters are NOT washable.
- Do not attempt to clean the filter with a vacuum.
- Wash your hands after handling the filter.

**Cleaning**

**Cleaning the body of the air purifier**
Regularly clean the inside and outside of the air purifier to prevent dust from collecting.
- Use a soft, dry cloth to clean both the interior and exterior of the air purifier.
- The air outlet can also be cleaned with a dry, soft cloth.

**Cleaning the pre-filter**
If the pre-filter is very dirty, use a soft brush to brush away the dust.

**Replacing the filters**
When the filter reset indicator light turns orange and lights up continuously, the filters need to be replaced. After replacement, Touch and hold the filter reset button for 3 seconds to turn off the filter reset indicator light.
1. Switch off the air purifier and unplug it.

2. Remove the bottom cover. Hold the unit firm and rotate the bottom cover counterclockwise to unlock and open it.

3. Take out the used filter according to the filter reset indicator light status. Discard used filters.

4. Remove all packaging material from the new filters.

5. Insert the new filter. Make sure the side with the clip is pointing towards outside.

6. Reattach the bottom cover.

7. Close the bottom cover. Rotate clockwise until the "\[حفظ\] " in bottom cover reaches “LOCK” and upon hearing “click”.

8. Reset the filter timer. Touch and hold the filter reset button for 3 seconds to turn off the filter reset button indicator light and reset the filter timer.
Storage

• Turn off the air purifier and unplug from the wall outlet.
• Clean the air purifier and pre-filter (See chapter ‘Cleaning’).
• Let all parts air dry thoroughly before storing.
• Wrap the filters separately in air tight plastic bags.
• Store the air purifier and filters in a cool, dry location.

WARRANTY

Bulex comes with an industry-leading 1 Year Warranty that begins on the date of purchase. The warranty applies to the whole unit including the components. It does not apply to damage resulting from failure to follow the instructions, accidents, abuse, alterations, or disassembly by unauthorized individuals.

CUSTOMER SUPPORT

Are you satisfied with our products? If you have product questions or concerns, don’t hesitate to contact us directly at ‼️ bulex-services@candohk.cn. Bulex has an award-winning warranty, exchange and customer service teams that guarantees hassle-free solutions to any issue you might have within 24 hours.
## Troubleshooting

This chapter summarizes the most common problems you could encounter with the air purifier. If you are unable to solve the problem with the information below, send email to bulex-services@candohk.cn for assistance.
