

Automation for the People

Control your lights from anywhere

Decora Smart with Wi-Fi.

Introducing the Decora Smart with Wi-Fi Technology family of products featuring five devices including in-wall dimmers, a switch, and plug-in modules for appliances and lamps, supporting a wide range of load types including LED and incandescent with multi-way capability.

CONTROL FROM ANYWHERE - NO HUB REQUIRED

Control connected loads and lights using the free My Leviton app for iOS and Android, no hub required. Simplify control of the residence - schedule lights and connected loads to turn on/off at specific times or based on sunrise/sunset, easily group smart devices into rooms, and create scenes to activate multiple lights at once.

MY LIGHTS. MY HOME. MY FAMILY. MY LEVITON.

Create schedules like "Good Morning" to activate appropriate lighting at preset times. For instance, at 6:30AM every Monday through Friday, turn the bedroom lights to 25% and master bath lights to 50%. As well, Activities can be created so that you can manually push "Movie Time" and have all lights appropriately react as soon as you begin your movie.

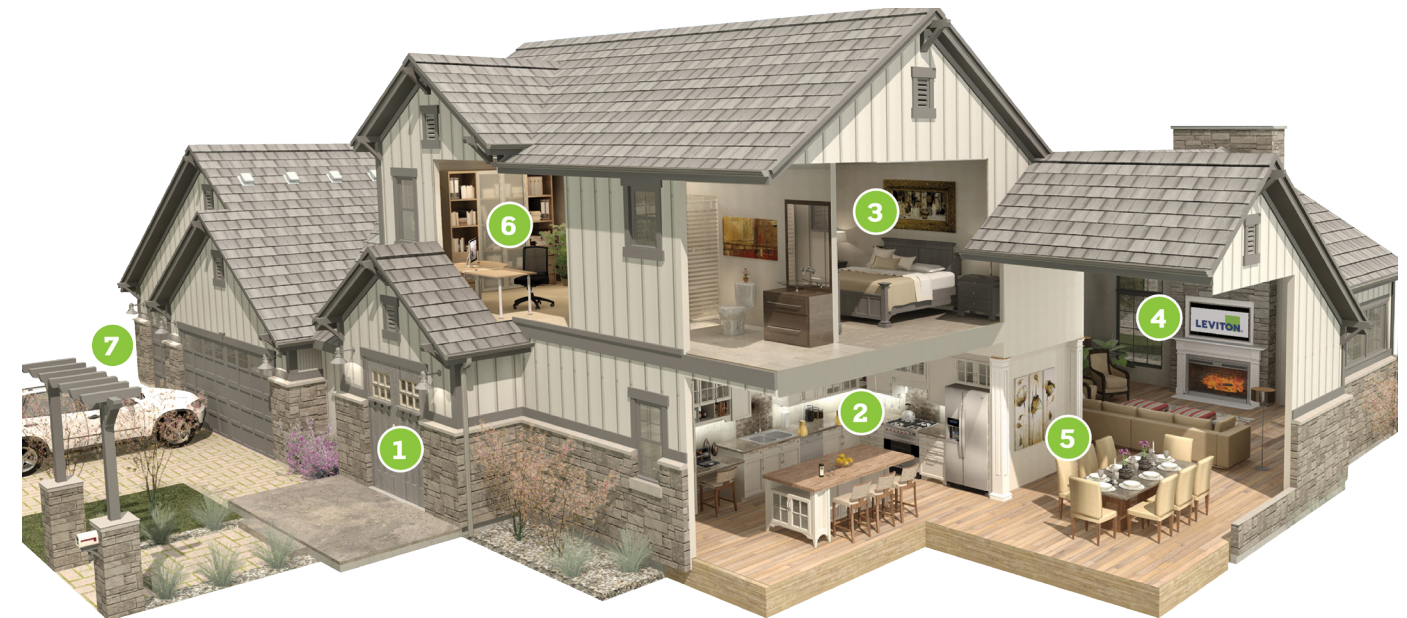

VOICE CONTROL

Compatible with all products that support Amazon Alexa providing voice control of the load: "Alexa, dim living room lights to 25%". Alexa devices (including Echo, Dot, and Tap) sold separately.

Remote Access from Anywhere, No Hub Required!

Use the free “My Leviton” app for iOS and Android devices to easily add new devices to your home.

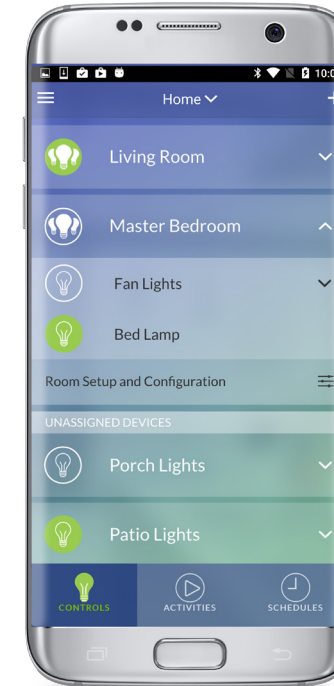

- Schedule and automate your lights and loads
- Use Amazon Alexa, Echo, Tap or Dot to turn lights on/off or dim/brighten with just your voice
- Full range dimming (bright to dark) even with extremely low-wattage LED bulbs
- Adjustable fade rates, brightness levels, and customizable features
- Connect to other popular home automation products like the Nucleus touchscreen intercom, which is Alexa-enabled.

One App for Setup, Control, and Automation.

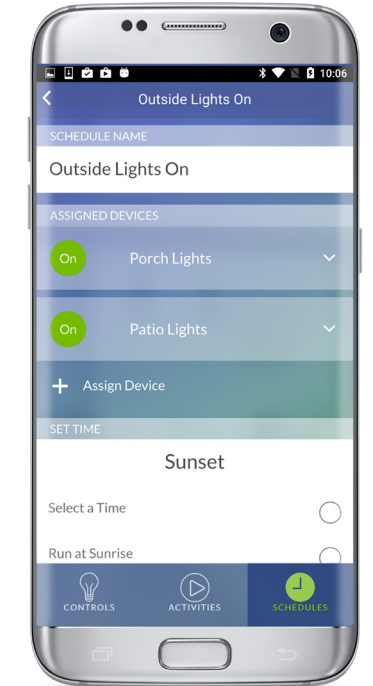

CONTROL

ACTIVITIES

SCHEDULE

“Alexa, Turn On My Lights”

Sometimes you need an extra hand. You were born with a voice box, use it! Simply tell Alexa-enabled devices to adjust the lights or plug-in loads whenever you need that helping hand.

Coming through the front door with your hands full? “Alexa, Turn on Entry Lamps.”

Washing dishes and see something outside? “Alexa, Turn on All Outside Lights”.

About to enjoy a movie but want to remain comfortable on the couch? “Alexa, Set Living Room Lights to 10%.”

Ready to switch from dinner prep to dinner time? “Alexa, Set dining room chandelier to 25%.”

Use your imagination and have fun controlling every light and load in your home with either an app or your voice.

Decora Smart with Wi-Fi Features and Ordering

- Control your lights from anywhere using the free My Leviton app for iOS and Android, no hub required.
- Support for multi-way applications, such as hallways or staircases, in which one fixture is controlled by two devices.
- Five Year Limited Warranty and over 110 years of experience. Leviton stands behind our high-quality advanced solutions.
- Simplify control of your home - schedule lights and connected loads to turn on/off at specific times or based on sunrise/sunset, easily group your smart devices into rooms, and create scenes to activate multiple lights at once.
- Engineered with advanced technology to function with extremely sensitive, low-wattage light sources, such as a single LED bulb in a hallway or a strand of holiday lights.
- Switches, Dimmers, and Plug-In Modules are Universal and work with your LED, CFL, and Incandescent lamps plus more!
