Important safety instructions please read carefully and keep for future reference

To reduce the risk of fire or electric shock, do not expose this product to water, rain or moisture. To prevent the risk of electric shock, do not remove the cover or back of this product. In case of product failure, only qualified personnel can repair. There are no user-serviceable parts inside.

Use of controls, adjustments, or performance of procedures other than those specified herein may result in dangerous radiation exposure. This product is rated as LASER CLASS 1 PRODUCT. CAUTION: Laser radiation when open - never stare into the laser beam.

CAUTION!
Dangerous tension inside the product! Do not open. Risk of electric shock! No parts can be repaired by the end-user. Only qualified personnel can repair and maintain this product.

If the electric cord is damaged, it must be replaced by the manufacturer or qualified after-sales personnel in order to avoid any danger.

The product must be installed in accordance with local laws.

Damaged batteries must be properly disposed. In order to protect the environment, please dispose the batteries properly, in accordance with local laws (information is available at your reseller).

Where to install the product
- Place the product on a straight, rigid and stable place. Do not place the product on a carpet.
- Do not place the product on top of another that may cause overheating (for example, a receiver or amplifier).
- Do not place anything underneath the product (for example, CDs or magazines).

Proper ventilation
- Place the product in a sufficiently aerated place to avoid overheating. Allow at least 10cm spacing at the back and top of the product, and 5cm spacing on both sides to prevent overheating.
- Do not place items such as newspapers, tablecloth, curtains, in front of the ventilating openings.

Do not expose the product to high temperatures, moisture, water and dust.
- The apparatus shall not be exposed to dripping or splashing. No object filled with liquids, such as vases, shall be placed on the apparatus.
- Do not place other items close to this product that may damage it (for example, objects containing water or lightened candles).
- No naked flame sources, such as lighted candles, should be placed on the apparatus.

Electric supply
- Please unplug the product in case of prolonged non-use.
- This product is intended to be used under temperate climate and should not be used under tropical climate.
- If the supply cable is damaged, it must be replaced by the manufacturer or qualified after-sales personnel to avoid any danger.
- This product must be connected to an electrical supply &%*%9L*%$+%3K
- The mains plug is used as the disconnect device, so the disconnect device shall remain readily operable.

- The presence of dangerous substances in the electrical and electronic equipments can have potential consequences on the environment and human health in the cycle of reprocessing this product.
- Therefore, at the end of its lifetime, this product shall not be disposed with other non-recycled waste.
- As the end user, your role is of prime importance in the cycles of reusing, recycling, and other forms of valorization of this electrical and electronic equipment. Local authorities and resellers have set special procedures for the purpose of collecting and recycling this product.
- You have the obligation to use the selective waste collection systems put in place by your local authorities.

3. CONNECTIONS

• Turn off the power before connection.
• Turn on the power after finishing connection
Wires must be firmly connected: especially the plug shall be fully inserted.

3.1 Connection to Television

There are several possible configurations, depending on your television:

Connecting to a TV With Audio/Video cable
Connecting to a TV With HD cable (not provided)

3.2 Setting of TV system

If the picture looks abnormal (does not fit the screen, black and white etc), please select NTSC or PAL via the preferences menu or the N/P button on the remote control to switch the TV system. This DVD player supports video of different scales, this may result in the picture not fitting the TV screen.

4. FUNCTION OPERATION

4.1 Function Buttons On the Front Panel
These buttons function is the same as the corresponding buttons on the remote control. For detailed information, please see the following.

4.2 Function Buttons On the Remote Control

0-10+ keys
These keys are used to input the time, as well as title, chapter and track numbers. When a numeric item is displayed on the screen, press the 0-10+ keys to select the desired entry, and press ENTER to confirm.
When a CD or VCD is playing (with PBC off), press the 0-10+ keys to select a track directly, then press ENTER to confirm.

NEXT
During DVD, CD or VCD playback, press NEXT to play the next chapter, title or track.

PREV
During DVD, CD or VCD playback, press PREV to play the previous chapter, title or track.

STOP
Press the button once and the player will be in memory stop state. Continuously press this button twice and the player will be in complete stop state.

L/R
Press this button to change audio output mode: left, right, stereo or mixed soundtrack.

Return
In PBC on mode press this button to go back to the main menu (VCD/DVD).

DVD/USB
In stop mode, press the key from the remote control to switch the input source between Disc and USB.

6. SETTING OF THE SYSTEM

1. DVD menu setting

Press the <SETUP> button on the remote control, the SETUP MENU (main) will be displayed.

1. After accessing the SETUP Menu, press the direction buttons for up and down movement to select an item desired, then press the < < > button to confirm your entry and move to the sub-menu.

Use the left and right direction buttons to move the pointer, and the up and down direction buttons to select the option desired. Also, press the < < > button to confirm your selection. Now, setup of this current function is completed.

2. To end the setup, press the SETUP button again. In the SETUP MENU, you may choose any of the following options as you like.

1.1 GENERAL SETUP

1.1.1 TV form

Follow the operating instructions stated in "DVD MENU SETUP" in combination with the desired option in the following figure.

---

Note:

1. No matter what screen format you have selected, if your screen displays in 4:3 format, the picture will be shown in that format anyway.

2. For DVDs, the screen format is convertible.

3. If your screen displays in 4:3 format, when a DVD with 16:9 display format is used, the picture will be flattened.
1.4.2 Resolution
Adjust HD output definition

1.3 Dolby Digital Setup
Dolby digital setup includes Dual Mono and dynamic range compress.

1.3.1 Dual Mono
Follow the operation instructions stated in “DVD menu setup” in combination with desired option in the following figure.

If you have Dolby digital output in your amplifier/decoder, you may select stereo, Left, right and mixed sound accordingly.

1.4.4 HDMI setup
To choose HDMI output ON or OFF
And choose Audio source “AUTO” or “PCM”

1.4 VIDEO SETUP
Video setup includes: Component, Resolution, Quality, HDMI setup.

1.4.1 Component To choose CVBS output or YUV output

Note: This function doesn’t work if the DVD doesn’t show it.

1.1.5. SCREEN PROTECTION
Select in “General setup” menu to turn on the Screen saver

1.1.2 Angle labeling
When a DVD providing multiple angles is used, the user may select a particular shooting angle.

Follow the operating instructions stated in “DVD menu setup” in combination with the desired option in the following figure.

1.1.3 OSD Language
The user may use this item to set the language of the setup menu and screen display to English, German, Spanish, French, Italian.

1.1.4. Captions
Turn captions on or off. Captions availability depends on the disc.

1.2. Audio Setup
Speaker setup for Karaoke Setup.
1.5 Preference Setup

During stop mode, press the SETUP button to access the PREFERENCE SETUP menu, which includes items of TV type, Audio, subtitle, disc menu language, age control, Password, default values...

Preset values are essential to a DVD player. The user may change these items as desired.

1.5.1 TV Type

Follow the operation instructions stated in “DVD menu setup” in combination with the desired option in the following figure.

1.5.3 Subtitle

This machine provides English, French, Spanish, Chinese, Japanese, Korean, Russian, and Thai as the built in subtitle languages. When a DVD is played, the user may hide the subtitle or choose any of them as the preset subtitle language. Availability of subtitle depend on the disc.

1.5.4 Disc Menu Language

This machine provides English, French, Spanish, Chinese, Japanese, Korean, Russian, and Thai as the film's menu language options. Availability of alternate menu language depends on the disc.

1.5.5 Age Control

Set the viewing threshold by the movie rating.

This option will resume the original settings of this machine.

Follow the operating instructions stated in “DVD MENU SETUP” in combination with the desired option in the following figure.

7.CD Ripping (copy button of remote)

CD Ripping copying music from the inserted disc onto the plugged in USB memory stick.

1. With your disc in the disc tray, and your USB memory device in the USB port, you can make a copy of the music from the disc onto the USB stick.
2. Press the RIPPING button, and a screen is similar to the screenshot below will appear.
3. After making your selection, select the on-screen “Start” with the ENTER button to begin the “ripping” process. Indicated by a screen similar to this one:
4. During the above process, selecting “Cancel” can abort from the ripping at any time.
5. Once the “ripping” is complete, the music from your disc is now also available on your USB memory stick.
8. OPERATION OF MP3 FUNCTION

MP3 is an audio compression mode using Level 3 of the international standard MPEG, whereby a sound signal is compressed in a rate of 12:1. A MP3 disc can record music for play of over 600 minutes or record over 170 songs, rivaling CD in sound quality.

To play the MP3 disc
Select the track using numbered buttons
1. Follow the basic operating instructions to insert a MP3 disc, this machine will start to search the information on the disc and show it in the display.
2. Press the number buttons to select the track number desired.
3. Press stop key then direction key to select other items

Repeat play
Using this function, the user will be able to enjoy a particular song or all the songs on the disc over and over again.
1. Choose a particular song to be repeated.
2. Press the REPEAT button to show "REPEAT ONE" on the TV screen.
   The screen will display as illustrated:

   A
   B

3. Exit repeat play, the screen will display as illustrated:

4. Cancel the repeat function, folder will be on screen.

Other functions:
When a MP3 disc is played, the features of mute, volume control, pause and forward and backward search will also be available. The operations are the same with those of CDs.

9. JPEG
JPEG adopting the most efficient compression is widely used as picture storage type flattened and stored format.

Even if pictures are compressed by 15-20 times, they still have good effect. Supported by most picture processing software, fit for picture storage, it has small data and easy use. This machine can read JPEG-format picture CD disc.

Press number key to select picture display.
1. Put in disc correctly, the machine begins to search disc information.
2. Press number key to select picture.

Select to play by menu
1. Put in disc, the machine searches disc information and main menu displays on screen.
   Press number key to select picture, press play key to make sure.
   2. Press direction key to select picture then press play key.
   3. In condition of stop, press direction key to select other pictures.

10. HD OUTPUT
The player has HD output all the time, if you want to choose different output definition, press SETUP button on RC, go to VIDEO setup page to choose different HD output definition.

11. Trouble shooting
In the event that you detect a problem, we suggest that you check the following list before requesting technical service.

<table>
<thead>
<tr>
<th>Symptom</th>
<th>Possible Cause</th>
<th>Remedy</th>
</tr>
</thead>
<tbody>
<tr>
<td>No power</td>
<td>1. Power supply not connected; 2. Bad contact between the power plug and the receptacle; 3. The power of the receptacle is off.</td>
<td>1. Connect to the power supply. 2. Plug again or replace a receptacle. 3. Switch on the receptacle.</td>
</tr>
<tr>
<td>No sound</td>
<td>1. Incorrect signal connection; 2. The disc is deformed or get dirty; 3. The system is in the mute status.</td>
<td>1. Connect the signals properly. 2. Clean or fix the disc. 3. Press the Mute button again.</td>
</tr>
<tr>
<td>No picture</td>
<td>1. Incorrect signal connection; 2. Incorrect TV status.</td>
<td>1. Connect the signals properly. 2. Adjust the TV/AV status.</td>
</tr>
<tr>
<td>No color</td>
<td>1. Wrong selection of TV system; 2. Improper color adjustment; 3. Incorrect video output settings</td>
<td>1. Set up the system by pressing the system button of the remote controller. 2. Read just the color. 3. Check if the video output settings are correct.</td>
</tr>
<tr>
<td>Disc cannot be played</td>
<td>1. No disc in the drive; 2. Disc placed wrongly; 3. Moisture has condensed in the unit; 4. Not in a playing status; 5. Wrong disc format; 6. Disc is dirty.</td>
<td>1. Insert a disc; 2. Put the disc on the disc tray properly with the label side up. 3. Leave the unit on for about an hour (without disc) and before using it again. 4. Press the Play button to switch to Playing status. 5. Replace it with a supported disc. 6. Clean the disc with a soft cloth from the centre to the edge.</td>
</tr>
<tr>
<td>Remote controller malfunction</td>
<td>1. The remote controller is not directed at the sensor; 2. The receiving distance is more than 8 meters; 3. Low voltage of the RC batteries; 4. There is an obstacle between the unit and RC.</td>
<td>1. Direct the remote controller at the sensor. 2. Reduce the receiving distance. 3. Replace all the batteries. 4. Remove the obstacle.</td>
</tr>
<tr>
<td>Sudden malfunction</td>
<td>1. Poor disc quality; 2. Press other buttons by mistake; 3. Static from the outside.</td>
<td>1. Wait for 5-10 seconds and the playing will be restored. 2. Operate again. 3. Shut off the unit for 1-2 minutes and open it again.</td>
</tr>
<tr>
<td>Picture dividing</td>
<td>1. The selected system is incompatible with the disc</td>
<td>1. Set up the correct system.</td>
