Why Tempur-Pedic® is rated #1 by consumers...

TEMPUR-Adapt™ Technology

TEMPUR® Materials, only found in Tempur-Pedic® beds, are not ordinary memory foam. Only TEMPUR® Materials have TEMPUR-Adapt™ Technology allowing them to continuously sense and conform to your individual body weight, your unique shape and your unique body temperature throughout the night. You and your partner always enjoy fewer disturbances; personalized, body-aligning support; and proven cool comfort.

Pressure & Motion Absorption

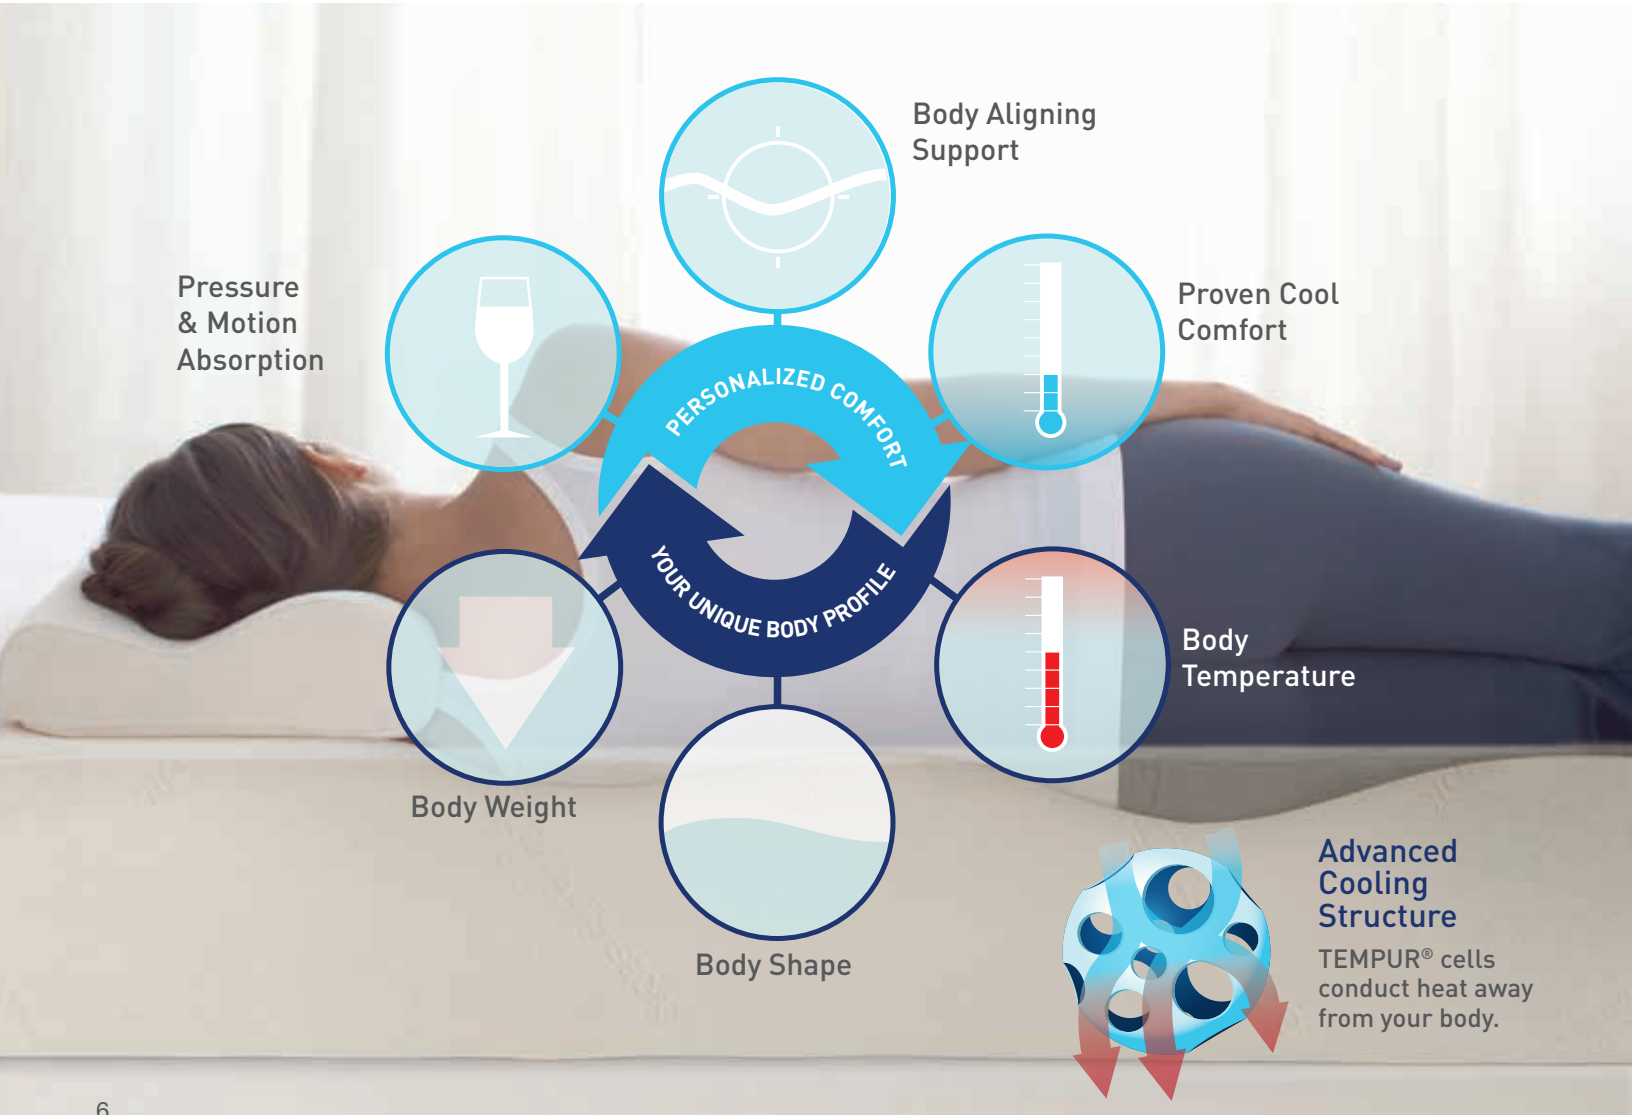

Millions of individually adjusting TEMPUR® cells absorb your weight and movements to help relieve painful pressure points, reduce tossing and turning and help you sleep more soundly.

Body Aligning Support

Millions of individually adjusting TEMPUR® cells continuously sense your unique body weight, shape and temperature to conform more precisely to your body instead of hammocking.

Proven Cool Comfort

Millions of individually adjusting TEMPUR® cells feature our Advanced Cooling Structure that continuously conducts heat away from your body to keep you cool and comfortable throughout the night.

2012 Mattress Industry Consumer Research (Tempur-Pedic ranks #1 in future purchase intent and brand awareness) and consumer review magazine.

Navigating the Line

As you now know, Tempur-Pedic® owners are more satisfied than owners of any traditional mattress brand. A key to achieving that deep level of satisfaction is finding the bed that delivers their perfect balance of comfort, support and the unique benefits only Tempur-Pedic® beds can deliver. We believe the path to finding the right Tempur-Pedic® bed begins with choosing their perfect pillow, then setting a feel preference baseline with a three bed Comfort Test. TEMPUR-Adapt™ Core Benefits and other ways they can enhance their comfort should be explained as you navigate the Tempur-Pedic® Line using the matrix below to relate and compare the unique benefits of each bed.

Enhance with Linens and Protectors

TEMPUR-PEDIC® LINENS COLLECTION

Linen purchases have typically been a one-dimensional decision based on the highest thread count available for the lowest price possible. The result has been a disappointing ownership experience because the more important attributes of lasting Fit, Feel and Function were compromised. Our Linens represent a new way of thinking — to consider all dimensions of comfort rather than simply thread count.

Features & Benefits:

- The patented corner strap design and self-tailoring elastic binding guarantee the fitted sheet will stay in place on any mattress
- Patent pending, FirstFit™ design eliminates the frustration of putting a fitted sheet on by clearly marking the foot corners with gold straps
- Hand sewn with old world craftsmanship and 100% long staple cottons to ensure the highest quality and comfort
- Custom quality, lock-stitch sewing prevents threads from unraveling for maximum sustained quality, ensuring years of washing and drying without sacrificing fit, feel, or function
- Flat sheets are oversized both in width and length and are large enough to tuck under any Tempur-Pedic® mattress
- Set includes: 1 fitted sheet, 1 flat sheet, 2 pillow cases (1 with twin size); Split set includes: two fitted sheets, one flat sheet, and two pillow cases

Commonly Asked Questions and Answers about TEMPUR-Ergo™ Collection Adjustable Bases

IS IT POSSIBLE TO RAISE THE HEIGHT OF THE TEMPUR-ERGO™ COLLECTION ADJUSTABLE BASES?
Yes, the height of the TEMPUR-Ergo™ Premier can be adjusted from approximately 8" to 20" and TEMPUR-Ergo™ Plus can be adjusted from approximately 6.5" to 15.5" with leg and caster sets available from Tempur-Pedic. Please refer to the specifications on pages 31 and 33 for all available options.

WILL A TEMPUR-ERGO™ COLLECTION ADJUSTABLE BASE FIT INSIDE EXISTING FURNITURE?
The TEMPUR-Ergo™ Collection Adjustable Bases are designed to fit into most "freestanding" beds. We always recommend you measure the inside dimensions of the assembled bed to be sure a TEMPUR-Ergo™ Collection Adjustable Base will fit. One of our riser leg sets may be required in some cases. The adjustable bases should not be used in conjunction with bed slats. The weight of the base can cause slats to break. Slats should be removed or the base height should be adjusted such that the base stands above the slats and the slats bear no weight. Please refer to the specifications on pages 31 and 33 for dimensions of the bases.

ARE ALL TEMPUR-PEDIC® MATTRESSES COMPATIBLE WITH ALL TEMPUR-ERGO™ COLLECTION ADJUSTABLE BASES?
They compatible with all mattresses except The GrandBed by Tempur-Pedic®

WHO DO I CALL FOR SERVICE OR SUPPORT IF NEEDED?
Service and technical support is available for the TEMPUR-Ergo™ Adjustable Bases by calling our dedicated Customer Service group at 1-800-821-6621. An owner's manual is included with each base including other information for making claims.

WHERE IS THE SERIAL NUMBER ON A TEMPUR-ERGO™ COLLECTION ADJUSTABLE BASE?
The serial number can be found on the law tag attached to the cover and on the frame right below the foot end of the base. It may be easier to see by lifting the foot section slightly, if possible. It can also be found on the power supply. The serial number is also located on the Complete Reference Guide (owner's manual) shipped with the base.

IS AN EXTENDED WARRANTY AVAILABLE?
Not through Tempur-Pedic.

DO I GET A FULL WARRANTY IF I PURCHASE A FLOOR MODEL?
Yes. However, your warranty start date is the date of manufacture which is clearly marked on the law tag attached to the base (not your actual purchase date).

DO THE TEMPUR-ERGO™ COLLECTION ADJUSTABLE BASES HAVE AC OR DC MOTORS?
The lift motors used on the TEMPUR-Ergo™ Collection Adjustable Bases are DC motors. The base's power supply converts the AC power from the wall outlet to DC power.

WHAT ARE THE ELECTRICAL REQUIREMENTS OF A TEMPUR-ERGO™ COLLECTION ADJUSTABLE BASE?
During normal operation, the TEMPUR-Ergo™ Collection Adjustable Bases can draw up to 2.5 Amps of electricity from a normal AC wall outlet. It is highly recommended that the customer use a power surge protector (not included with the base).

WILL MY REMOTE CONTROL OPERATE DURING A POWER OUTAGE?
Both remote controls have a reserve power supply, including a 9-volt battery back-up. Beds can be lowered during a power outage or remote failure.

HOW MANY REST POSITIONS ARE AVAILABLE WITH TEMPUR-ERGO™ COLLECTION ADJUSTABLE BASES?
You can experience an almost infinite number of ergonomic rest positions with the TEMPUR-Ergo™ Collection Adjustable Base Systems allowing for reduced lower back pressure points and improved position while sleeping or resting. The remote control also offers an increase in head lift to make it easier for the consumer to read, watch TV, use laptop, etc.

DO TEMPUR-ERGO™ COLLECTION ADJUSTABLE BASE SYSTEMS COME WITH HEADBOARD AND FOOTBOARD ATTACHMENTS?
All TEMPUR-Ergo™ Adjustable Base Systems have headboard brackets available as optional accessories (sold separately). Footboard attachments cannot be attached directly to any TEMPUR-Ergo™ Adjustable Base and are not available. However, you can use a "freestanding" bed including headboard, footboard and side rails by placing either of the complete systems within the assembled bed. It may be easiest to assemble the bed around the TEMPUR-Ergo™ Collection Adjustable Base(s). You should measure the inside dimensions of the assembled bed to be sure the TEMPUR-Ergo™ Collection Adjustable Base(s) will fit. One of our leg or caster sets may be required in some cases.

WHY CAN'T I READJUST THE TEMPUR-ERGO™ COLLECTION ADJUSTABLE BASE IMMEDIATELY AFTER I USE THE FLAT BUTTON TO RETURN IT TO THE FLAT POSITION?
All functions are temporarily disabled for approximately 20 seconds to allow the TEMPUR-Ergo™ Collection Adjustable Base to complete the "FLAT" cycle and reset. The "FLAT" cycle can be interrupted at any time by selecting "HEAD" or "FOOT" up or down.

CAN TEMPUR-ERGO™ COLLECTION SPLIT OR DUAL ADJUSTABLE BASE SYSTEMS BE PROGRAMMED OR CONNECTED TO WORK IN TANDEM?
Yes. Tandem or paired functionality with the TEMPUR-Ergo™ Grand Adjustable Base, TEMPUR-Ergo™ Premier Adjustable Base and TEMPUR-Ergo™ Plus Adjustable Base can be accomplished by programming both remotes to each base. The customer will then be able to use either remote to control the movements of both bases simultaneously. Additional details can be found in the Complete Reference Manuals provided with each type of TEMPUR-Ergo™ Collection Adjustable Base.

WHAT IS THE WI-FI MODULE?
The Wi-Fi Module is a device included with TEMPUR-Ergo™ Premier and TEMPUR-Ergo™ Grand adjustable bases that allows you to control the system with a supported smart device.

WHICH SMART DEVICES ARE SUPPORTED?
Mobile phones and tablet computers running Android operating system version 2.3 or higher, and with Wi-Fi capabilities (specifically 802.11 b/g at 2.4GHz). Apple iPhone, iPod touch, iPad, and iPad Mini devices running iOS version 4.3 and higher.

I'M NOT SURE WHETHER MY SMART DEVICE IS COMPATIBLE WITH THE WI-FI MODULE AND APP.
Contact the manufacturer of your device for confirmation.

WHAT IS THE DIFFERENCE BETWEEN HOME NETWORK MODE AND DIRECT MODE? WHICH ONE SHOULD I USE?
The direct mode makes a connection between your smart device and the adjustable base's included Wi-Fi Module. This is the quickest way to make a connection, but it doesn't allow you to access your home network, which may prevent you from using internet-based functions on your smart device while controlling your bed. The home network mode integrates the Wi-Fi Module into your home wireless network. This means that your smart device can control your adjustable base, but it can also continue to access the internet or other devices on your home network. Most owners with a home wireless network will want to use home network mode.

WHICH WIRELESS ROUTERS ARE SUPPORTED?
Wireless routers must have the following specifications:
- 802.11 b/g on 2.4GHz
- UDP Port 50007 and TCP Port 2000 must be open
- Must support one of the following encryption modes: none, WPA PSK, WPA2 PSK
- The character "^" must not be used in the SSID (network name) or in the network's encryption password
- The router must have sufficient range to comfortably reach the Wi-Fi module of the adjustable base as well as the smart device

CAN I USE THE TEMPUR-PEDIC® FOUNDATION WITH A MATTRESS FROM ANOTHER BRAND?

Yes, our foundation is compatible with any mattress on the market today. However, the foundation warranty is only valid when a Tempur-Pedic® mattress and foundation are USED together as a Swedish Sleep System.® Otherwise, the warranty would be void. It is also important to note that federal flammability standards are based on a set of the same brand.

IS THIS FOUNDATION COMPLIANT WITH ALL SAFETY STANDARDS?

The Swedish Sleep System® (mattress and foundation) has been extensively tested and is compliant with all federal and local regulations, including CFR 1633 for flammability standards.

IS THE WARRANTY ON A FLOOR MODEL TRANSFERABLE TO ONE OF OUR CUSTOMERS?

Floor models should only be sold in sets to include both the mattress and foundation. If you choose to sell a floor model to a customer, the customer purchase date is also the warranty start date.

WILL THIS NEW FOUNDATION WORK WITH A CUSTOMER'S EXISTING BED (OR BED FRAME)?

The foundation's dimensional specs are within industry standards allowing for use of conventional furniture and bed frames. It is worth noting that due to the weight of the foundation, we recommend use of a high quality frame with center support/slats/etc.

TEMPUR® Material vs. Competitors

	TEMPUR® Materials	Memory Foam/Gel
CONSTRUCTION	Proprietary formula, engineered by Tempur-Pedic scientists and manufactured in company-owned facilities, upholding the highest quality standards	Commodity foam and gel-infused memory foam is typically purchased off-the-shelf from a variety of low-cost manufacturers, with often unpredictable quality
RESPONSIVENESS	Sensitive to body temperature and weight, to adjust perfectly to your body contours and return to its original shape every time	Stretches and contorts under your weight, but may not conform to your body or bounce back as well
SUPPORT	Conforms to your body shape and evenly distributes your weight over the surface of the mattress for ultimate support and customized comfort	Commodity foam and gel-infused memory foam may break down under body weight and quickly lose the ability to support your body
PRESSURE RELIEF	Conforms to body contours, allowing heavier areas to sink in further, reducing pressure points where the mattress presses against the body	Compresses rather than reacts to your body, with a tendency to push back against your body instead of cushioning it
DURABILITY	Engineered to last for years, returning to its original shape, night after night and year after year	Typically less resilient, so it's less durable and wears over time and may lose the ability to support the body

Tempur-Pedic's History and Accolades

History: From NASA to Today

The original formulation of "visco-elastic" memory foam was a breakthrough in pressure relief technology by NASA scientists in the 1960s to help protect pilots from extreme g-force pressures. This material was extremely promising but lacked the refinements needed for consumer applications. Our Swedish founders began experimenting with the NASA material in the 1980's, and after almost a decade of intensive research, they perfected our revolutionary TEMPUR® Material which is still a proprietary trade secret today. Kentuckian Bob Trussell discovered the TEMPUR® Material products in Europe and quickly secured distribution rights for the United States.

Today: Tempur-Pedic® has a bed for everyone!
Today Tempur-Pedic International is a billion dollar, publicly traded global company with headquarters located in Lexington, Kentucky, and three engineering and fabrication plants located in Denmark, Virginia and New Mexico. Revolutionary TEMPUR® Material has now evolved into several unique derivatives used to create a broad line of mattresses, pillows, cushions and accessories—even sleep masks, dog beds and slippers. Most importantly, we have millions of extremely satisfied owners around the world!

Latex	Innerspring	Air
Typically unpredictable quality, bought off-the-shelf from a variety of manufacturers, in natural or man-made formulas to meet a manufacturing price point	Constructed of metal coils covered with foam and upholstery	Made from plastic channels of air covered with foam and upholstery

Frequently Asked Questions

What's the density?
This question is often asked (rarely by consumers) when trying to understand the difference between our various TEMPUR® Material recipes and/or compare TEMPUR® Materials to memory foams. While density is a common specification for comparing or selecting commodity foams for other bedding and furniture manufacturers, it really isn't an accurate way to compare them to authentic TEMPUR® Materials. Our various TEMPUR® Material recipes are all derived from our original and completely unique, proprietary trade secret formula. The science and innovation used to make each TEMPUR® Material recipe unique is highly complex and simply not a topic to dive deeply into with a consumer. On the rare occasion a consumer may ask this question, you can assure them that Tempur-Pedic® technologies really can't be compared to memory foam and that we continue to invest millions of dollars to be sure each current and future innovation we introduce delivers unique benefits and the long lasting comfort, support and durability our extremely satisfied owners have come to expect.

What is meant by "open cell"?
"Open cell" is used to describe the structure of various types of polyurethane foam including TEMPUR® Material. An open cell structure is more breathable. Air is pushed out of the cells when pressure is applied. When the pressure is removed, the cells automatically re-inflate to return to their original shape. This breathable structure also promotes the dissipation of heat to keep individuals cool and comfortable. Air and water systems are "closed" cell systems that displace pressure instead of absorbing and relieving.

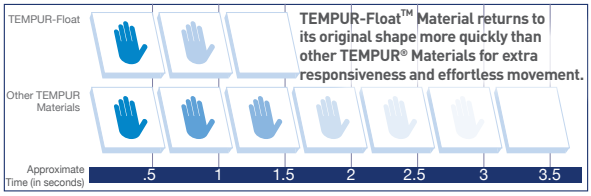

Do Tempur-Pedic® mattresses sleep hot?
Sleeping hot is not an issue for most Tempur-Pedic® mattress owners. In a 2012 survey, Gallup®[1] asked mattress owners about their satisfaction. We compared that to the results of a 2012 independent survey of Tempur-Pedic mattress owners.[2]

Here are the results: When asked: "Are owners dissatisfied with their mattress because it retains heat ('sleeps hot')?"

- **All mattress owners: 12%**
- **Tempur-Pedic® mattress owners: 8%**

What does this mean? A higher percentage of mattress owners, regardless of the brand they own, claim their mattress "sleeps hot" compared to Tempur-Pedic® mattress owners. Only 12% of all mattress owners (all brands) are dissatisfied because they sleep hot. And there is no evidence that retaining heat is related to any particular mattress brand. So you can rest assured that sleeping hot is very unlikely if you're sleeping on a Tempur-Pedic® mattress.

TEMPUR-WEIGHTLESS™ TECHNOLOGY

Who is TEMPUR-Weightless™ for?
We designed TEMPUR-Weightless™ for those consumers who want to enjoy the benefits of our adaptive support, but aren't comfortable with the "enveloping" feel of our mattresses. Weightless owners will get all the benefits of a Tempur-Pedic® mattress, but with extra responsiveness for effortless movement and a feeling of weightless comfort and support.

How does TEMPUR-Weightless™ work?
TEMPUR-Weightless™ mattresses combine our TEMPUR-ES® Comfort Layer with a TEMPUR-Float™ support layer to deliver the benefits of adaptive support with extra responsiveness for easy movement in and out of bed.

Do Weightless mattresses give up any of the benefits of a Tempur-Pedic® mattress?
No! Weightless owners will enjoy all of the benefits of a Tempur-Pedic® mattress: our adaptive support that provides customized comfort, proper alignment, no motion transfer for undisturbed sleep, and our 25-Year Limited Warranty.

TEMPUR-BREEZE™ TECHNOLOGY

Who is TEMPUR-Breeze™ for?
We designed TEMPUR-Breeze™ mattresses for people who like the feel of extra coolness as they sleep and for those who naturally sleep warmer.

How does TEMPUR-Breeze™ work?
TEMPUR-Breeze™ Technology uses 3 exclusive components working together to help balance your temperature in a 3-step process:

Step 1: **TEMPUR-Breeze™ Cover**
Proprietary process binds exclusive Phase Change Material to the fibers to make the cover **cool to the touch and able to wick excess heat and moisture away.**

Step 2: **TEMPUR-Breeze™ Comfort Layer**
Proprietary application process coats the TEMPUR® Comfort Layer evenly with exclusive Phase Change Material to **efficiently draw excess heat away from your body** and into the Support Layer.

Step 3: **TEMPUR-Climate™ Support Layer**
New proprietary TEMPUR® formula features a unique oversized, open-cell structure to **channel excess heat further away from the sleeper and out of the mattress.**

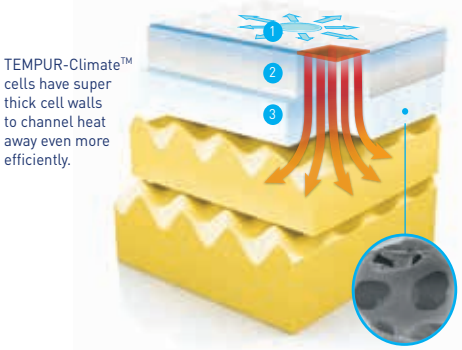

Is TEMPUR-Breeze™ proven to work?
Yes! In tests performed by EIM, a world-renowned product testing lab in Germany, our mattresses with Breeze slept cooler than their non-TEMPUR-Breeze™ versions.

What is Phase Change Material (PCM)?
Phase Change Material (PCM) is a scientific breakthrough that, as the name suggests, has the ability to change "phase" to absorb and release excess heat. PCMs have had a huge impact in the performance apparel industry and now Tempur-Pedic® is using this technology to further enhance the personal climate management performance of two of our most popular beds. And while many competitors say that they use PCM in their beds, it is the proprietary and consistent application of the PCM developed exclusively for TEMPUR-Breeze™ Technology that assures the proven cool, comfortable nights sleep only available from Tempur-Pedic's new Breeze beds.

Why introduce TEMPUR-Breeze™ if Tempur-Pedic® mattresses already sleep cooler?
With 7 million satisfied owners, we know that no other mattress sleeps cooler than Tempur-Pedic® mattresses.

However, some people naturally sleep hot, no matter what mattress they sleep on. Others just prefer a feeling of extra coolness while they sleep. We wanted to produce versions of our most popular mattresses with technology to address their needs, and help them enjoy cooler and more relaxing sleep.

Is Breeze a new Collection?
Instead of creating a new collection, we added TEMPUR-Breeze™ coolness to our most popular mattresses: TEMPUR-Cloud® Luxe, TEMPUR-Cloud® Supreme and TEMPUR-Rhapsody.™ Consumers can get the feel they already love, with the cooling benefits of TEMPUR-Breeze.™

TEMPUR-Climate™ cells have super thick cell walls to channel heat away even more efficiently.

TEMPUR-CHOICE™ COLLECTION

What is proprietary regarding TEMPUR-Choice™ beds and where are we making it?
TEMPUR-Choice™ beds contain both TEMPUR® produced components and as well as some sourced components. All components are made and produced to Tempur-Pedic designs, specifications and leading quality standards with several patents pending. Consistent with Tempur-Pedic policy for confidentiality reasons we do not disclose specific supplier relationships. Importantly, final production and assembly occurs in our state-of-the-art Duffield, VA and Albuquerque, NM manufacturing centers both of which are ISO9001, ISO14000 and ISO18000 certified.

What is unique about TEMPUR-Choice™ beds compared to other leading beds of similar type?
TEMPUR-Choice™ Collection beds are truly unique and special with many market leading advantages. Most notably, they are the only beds of their kind that contain proprietary TEMPUR® materials. They have multiple adjustable comfort zones for each sleeper. This allows each sleeper to personalize their feel under their head/foot and under their lower back where most people want and need extra contouring comfort and support. (Leading competitive beds offer only one adjustable zone per sleeper.) Additionally, they feature a luxurious moisture-wicking textile and a stylish cover that is easily removable, and washable. Finally, The TEMPUR-Choice™ beds carry an industry leading 5 year full, 25 year limited warranty.

Are TEMPUR-Choice™ beds compatible with TEMPUR-Ergo™ Systems?
Yes, TEMPUR-Choice™ beds are designed and tested to be completely compatible with all TEMPUR-Ergo™ systems. The comfort layers feature a proprietary design feature that unites them with the mattress core to eliminate potential shifting that can occasionally occur in some competitive offerings and provide unsurpassed compatibility with our TEMPUR-Ergo™ systems (without the need for special clips and devices often found on competitive products). TEMPUR-Choice™ beds utilize the same retainer bar design found on all other Tempur-Pedic® mattresses.

Are TEMPUR-Choice™ beds designed to resist household mold and mildew?
Yes, TEMPUR-Choice™ beds are designed to resist common household mold and mildew. The beds incorporate numerous anti-microbial attributes and design features to insure maximum product quality and user experience.

How will the air chambers be affected by cold temperature swings of twenty degrees or more?
TEMPUR-Choice™ beds are designed for use and optimal performance in normal indoor conditions. They are also designed to be unsurpassed in total comfort, support and quality. They contain many proprietary design features to insure consistent and optimal consumer experience. However, if the user places the bed in a room where the temperature decreases significantly over the course of the night, some slight decrease in air chamber support is unavoidable due to the physics of temperature and air pressure. However, significant drops in temperature (20 degrees or more) will also provide a corresponding increase in the firmness of the TEMPUR® material comfort layers which should minimize the overall net effect to the sleeper.

Does the pump have an air filter that keeps contaminants out of the tubes and chambers?
No, The TEMPUR-Choice™ pump system does not employ filters but the air intake point is inside the pump housing and not directly exposed to the environment under the bed. The pump is maintenance free. Additionally, the overall system utilizes an air-lock technology to insure the bed will not lose air should the tubes become disconnected for any reason. Finally, the tubes and air chambers are designed to Tempur-Pedic specifications and quality standards and the beds come with a 25 year limited warranty (5 year full). (Note: competitive products do not utilize air filters)

Approximately how thick is the air chamber?
TEMPUR-Choice™ air chambers are unique in their design as they offer each sleeper multi-zone adjustability on each side of the bed. The air chambers are embedded within the core of the bed and are approximately 5.75" in height.

Is there a weight limit for customers who wish to purchase TEMPUR-Choice™?
The TEMPUR-Choice™ beds are designed to be unsurpassed in quality and durability. There is no weight limit, however, it is likely that an individual weighing over 300 lbs may experience some reduced performance such as slower adjustment times when personalizing their side of the bed.

How will repairs and service issues be handled?
There is a dedicated team and process in place with Tempur-Pedic Customer Service to handle and manage and all service related issues. The service number is 1-800-821-6621.

How will warranty claims be handled?
Any potential consumer warranty claims should be handled by Tempur-Pedic Customer Service/ Warranty Team. They should not be handled by the retailer. If warranty inquiries are received by the retailer, please re-direct them to Tempur-Pedic 1-800-821-6621.

Will the retailer have the ability to carry replacement parts?
Yes, replacement component parts (remotes, pump assembly, power supply and replacement covers) will be detailed in the Dealer Price List and will be available for retailers who wish to stock them.

Are deteriorations causing the comfort layer to have .75" or greater body impression covered under the warranty?
TEMPUR-Choice™ beds are designed to provide a consistent, quality user experience. They should not be susceptible to body impressions. However, given the unique technical design and adjustable support zones, should a consumer believe they have a body impression issue of .75" or greater while in a fully firm setting they should contact Tempur-Pedic Customer Service for assessment and determination of next steps.

Can a second pump be attached to the bed if a guest so desires?
Yes, a second pump can be easily attached to the TEMPUR-Choice™ beds so that both sleepers can simultaneously adjust their side of the bed if they so desire. However, in the base offering (one pump) there is only a 1 second delay from when one user completes adjusting their side until the other user can begin personalizing their side of the bed.

Will the air chambers be accessible or will that part of the bed be sealed?
The beds are designed so that there is no reason for the consumer to need to access the air chambers and it is recommended that the consumer does not attempt to access the air chambers. In the unlikely event that an air chamber issue arises, the consumer should contact Tempur-Pedic Customer Service for instructions and/or to schedule a technician appointment.

Is there any maintenance that TEMPUR-Choice™ owners need to perform on their bed?
No, TEMPUR-Choice™ beds are designed to be maintenance free. However, they do come with a zip top removable cover so that owners can easily wash the mattress cover whenever they want.

Should the TEMPUR-Choice™ bed be plugged into a surge protector or directly into the wall?
Similar to your TV, computer, adjustable base and other electronic devices it is recommended that owners utilize a surge protector when they setup their TEMPUR-Choice™ bed in their bedroom.

* In independent tests designed to measure heat generated and retained during a seven-hour period, Ergonomie Institut München, a TÜV approved lab, proved the TEMPUR-Cloud®, TEMPUR-Contour,™ TEMPUR-Cloud® Supreme and TEMPUR-Rhapsody™ beds sleep cooler than the competition. TÜV Rheinland is the leading global authority on heat-related product testing and certifications worldwide. Learn more about the test methodology and TÜV Rheinland at tempurpedic.com/sleepscool.

Use and Care Instructions

The following are instructions regarding the use and care of your Tempur-Pedic® mattress:

1. Tempur-Pedic® mattresses are designed for use with a firm, solid-surface, non-spring foundation or adjustable bed base that is structurally capable of supporting the weight of a Tempur-Pedic® mattress. The warranty is based on tests conducted on "sets" that consist of Tempur-Pedic® mattresses and a Tempur-Pedic® Foundation, the TEMPUR-Ergo™ Grand Adjustable Base, TEMPUR-Ergo™ Premier Adjustable Base or TEMPUR-Ergo™ Adjustable Base. If a Tempur-Pedic® mattress is placed on something other than a Tempur-Pedic® Foundation, the TEMPUR-Ergo™ Grand Adjustable Base, TEMPUR-Ergo™ Premier Adjustable Base or TEMPUR-Ergo™ Adjustable Base, the burden of proof regarding the structural capacity of the foundation in the event of a warranty claim is transferred to the consumer and may place the warranty in jeopardy. Placing plywood or particle board over an existing foundation is not recommended and may not provide the support a Tempur-Pedic® mattress requires.
2. Remember that your Tempur-Pedic® mattress is sensitive to temperature. In rooms of 65° F or less, your mattress will become somewhat firmer. However, it will readily warm and respond to your body temperature when you lie on it. We do not recommend using an electric blanket or heating pad with your mattress. These items can impair the unique ability of your Tempur-Pedic® mattress to react to your body temperature and conform to your body shape.
3. We do not recommend using conventional mattress pads or mattress covers as they can affect the full pressure-relieving experience of our proprietary TEMPUR® Material. However, Tempur-Pedic® branded mattress protectors have been specifically designed to protect your Tempur-Pedic® mattress while not impacting the feel or performance.
4. You never have to flip or rotate your Tempur-Pedic® mattress. Your Tempur-Pedic® mattress features a one-sided design and should never be flipped.
5. It may take a while to become accustomed to the unique feeling of your Tempur-Pedic® mattress. Most people are very comfortable on the first night, but others may need extra time to adjust to the pressure relieving qualities of the TEMPUR® Material.
6. Your mattress may have a slight odor remaining from our unique manufacturing process. All polyurethane-based materials have this characteristic. This is normal and completely harmless and will dissipate within a few days.
7. When transporting or storing your mattress, lay the mattress flat. The handles included on some Tempur-Pedic® mattress models are for positioning purposes only — not for carrying.
8. The covers on some Tempur-Pedic® mattress models are removable for washing. We recommend a cold temperature setting for machine washing and a cool setting for machine drying. Air-drying is best. Do not "over-dry" the cover and do not use chlorine products or harsh stain removers. Never wash the TEMPUR® Material. Please refer to the tags sewn into your mattress cover or contact us if you do not know if your cover is removable.
9. If you have questions or concerns regarding your new mattress, please contact our Customer Service Department at 1-800-821-6621 or send an email to customer.service@tempurpedic.com.

Warranties

MATTRESS: 25 YEAR LIMITED WARRANTY

Tempur Production USA, LLC ("Tempur-Pedic") Tempur-Pedic warrants that it will, at Tempur-Pedic's option, replace or repair purchaser's Tempur-Pedic® mattress sold in the U.S. if it is defective due to faulty workmanship or materials, subject to the limitations described in this limited warranty. Tempur-Pedic undertakes no responsibility for the quality of the goods except as otherwise provided in this contract. There are no warranties that extend beyond the description on the face hereof.

The removable cover on a TEMPUR mattress is specifically included within this warranty for 25 years from the date of purchase against faults in material or workmanship under the same terms described in this warranty for mattresses. Specifically excluded within this warranty coverage is replacement of the cover for damage attributable to normal wear and tear. In the event that the cover for the mattress needs to be replaced, within the terms of this warranty, Tempur-Pedic will replace it with the current style of cover available for the mattress, which may be a different color, design or material than the original cover. Replacement of the cover will not result in replacement of the underlying mattress.

This limited warranty is valid only in connection with the original purchase of new products and extends from the original purchase date of the original product purchased. An "original purchaser," for the purposes of this limited warranty, is an individual or entity who purchases the product directly from Tempur-Pedic or from an authorized retailer of Tempur-Pedic with the intent to use the product for personal consumer use and not with the intent to resell the product. An individual or entity that purchases the product from whatever source with the intent to resell the product is an unauthorized reseller ("unauthorized reseller").

This limited warranty does not apply to floor models or "demos" (except as specifically provided herein) or to products sold by unauthorized resellers, including without limitation, unauthorized resellers on third party websites such as Craigslist, eBay, Amazon, etc. As noted above, unauthorized resellers are not "original purchasers" for the purpose of this limited warranty. If purchaser is not the original purchaser of this product, purchaser takes the product "AS IS" and "with all faults." IF THE PURCHASE OF THIS MATTRESS WAS NOT DIRECTLY FROM TEMPUR-PEDIC, PROOF OF PURCHASE WILL BE REQUIRED TO DEMONSTRATE THAT PURCHASER IS THE ORIGINAL PURCHASER AND IS ELIGIBLE TO MAKE A VALID CLAIM UNDER THIS LIMITED WARRANTY.

Tempur-Pedic mattresses are designed to work on a firm, solid-surface, non-spring foundation or an adjustable bed base that is structurally capable of supporting the weight of purchaser's Tempur-Pedic mattress and user(s). This limited warranty and other performance warranties are based on tests conducted on "sets" that consist of our mattresses and our foundations/adjustable bed bases. THEREFORE, IF PURCHASER USES INAPPROPRIATE FOUNDATIONS, BOX SPRINGS, ADJUSTABLE BED BASES, OR BED FRAMES WITH THIS MATTRESS, SUCH USE WILL VOID THIS LIMITED WARRANTY AND ALL OTHER WARRANTIES, WHETHER EXPRESSED OR IMPLIED, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. Tempur-Pedic may require purchaser to provide proof of the quality of the foundation, adjustable bed base, or bed frame used in conjunction with the mattress if purchaser makes a claim under this limited warranty. Tempur-Pedic reserves the right to invalidate this limited warranty if the foundation is determined, in Tempur-Pedic's reasonable discretion, to be inadequate or if the mattress is found to be in an unsanitary condition.

This limited warranty covers the following items during normal wear:

1. Deterioration causing the mattress to have a visible indentation greater than three-fourths (0.75) of an inch that is not associated with an indentation or sag which results from use of an improper or unsupportive foundation or adjustable bed base. Normal wear required that purchaser's mattress be continuously supported by a matching foundation or adjustable bed base with a proper bed frame sufficient to support the collective weight of the mattress and foundation.
   - A proper bed frame must provide sturdy support for both the mattress and foundation; including a center support and having at least 5-6 legs for queen, king and cal king and 4 leg support for twin and full mattresses. For queen, king, and Cal king slatted style bed frames, it is incumbent upon purchaser to ensure that the frame utilized offers ample structural support for the mattress and foundation in view of that particular slatted style frame. The use of a bed frame is important for the life and protection of your sleep system. Failure to have a proper bed frame may invalidate the limited warranty. Neither mattresses, individually, nor sleep systems (mattress and foundation combination) are intended to sit/lay flat on the floor or on a waterbed frame or platform of untreated wood or untreated wood covered with fabric.
   - **Please Note:** Tempur-Pedic highly recommends a 3-bed beam support system (available from Tempur-Pedic or Retailer at an additional cost) or a support system of similar quality that is designed specifically to give slatted style bed frames for queen, king and Cal king mattresses additional structural support.
2. Any physical flaw in the mattress that causes the TEMPUR® material to split or crack, despite normal usage and proper handling (as outlined in the Mattress Use & Care Instructions).

This limited warranty does not cover:

1. A normal increase in softness of the TEMPUR® pressure-relieving material which does not affect the pressure-relieving qualities of the mattress.
2. Comfort preference.
3. Physical abuse or damage to the structure and/or its cover material, including but not limited to, burns, cuts, tears, liquid damage or normal wear and tear.
4. Damage associated with the use of the product with an improper bed frame, foundation, or adjustable base. See above description and illustrations for a proper bed support.
5. Replacement of the accompanying piece in the Tempur-Pedic sleep system where only one piece is defective, unless that accompanying piece is also defective.
6. Floor models or "demos" sold at a discount (See specific warranty language for demos and floor models.)
7. Product sold by unauthorized resellers who are not company authorized retailers.

Years 1 through 10 – Full Coverage of Parts and Labor

During the first ten (10) years of this limited warranty, Tempur-Pedic will not charge purchaser to repair or replace purchaser's mattress (or its original cover) if it is deemed defective, but any transportation costs associated with repairs or replacements are purchaser's responsibility. In no event, however, will the transportation costs exceed Tempur-Pedic's then-standard freight charges. No new warranty is provided with a replacement mattress. The warranty for the replacement mattress runs from the date of original purchase of the replaced mattress.

In connection with the replacement of a mattress (or of its original cover) in compliance with the terms of this limited warranty during years 1-10, if a purchaser elects to upgrade to a more expensive product, it may do so by paying the difference between the cost of the original product being replaced and the cost of the upgraded product plus the cost of any related additional sleep system pieces not being replaced as part of the warranty exchange. In the event of an upgrade as described in this paragraph, a new warranty will be provided for the upgraded pieces only.

Years 11 through 25 – Prorated Coverage

During years 11 through 25 of this limited warranty Tempur-Pedic will, at its option, repair the mattress (or its cover) at a handling cost to purchaser, or replace the mattress (or its cover) at a prorated charge to purchaser plus transportation costs. If Tempur-Pedic replaces the mattress, the prorated replacement charge purchaser pays will depend on when the mattress is replaced. In the unlikely event that the original cover provided with the Tempur mattress is replaced, these same proration terms apply.

If the mattress (or its cover) is replaced during the eleventh year of this limited warranty, the prorated replacement charge purchaser pays will be fifty (50) percent of the original purchase price.

Based upon this proration, if the product is replaced after the eleventh year but before the twenty-first year, the prorated replacement charge purchaser pays will increase by five (5) percent for each subsequent year of the prorated period (i.e., 55% of the original purchase price if replaced during year twelve; 60% of the original purchase price if replaced during year thirteen, etc.) If the product is replaced in year 21 or any point thereafter prior to expiration of the limited warranty, the prorated replacement charge purchaser pays will the same as if the product was replaced in year 20. If you pay the replacement charge required in connection with a claim made during the prorated coverage period, the existing warranty will continue to cover the replacement product only for the balance of the original 25 year limited warranty period and no further prorated costs for any additional approved warranty claims made against the replacement product will be required.

Mattress Demonstration Samples and Floor Models

Demonstration samples ("demo(s)") and floor model(s) will enjoy a 25 year limited warranty determined not by the original purchase receipt date but by the "date of manufacture" disclosed on the law tag. However, except for verifiable warranty defects, demos and floor models are sold "as is" and "with all faults." Covers on demos and floor models (whether removable or not) are not warranted or guaranteed at all for such samples or floor models.

During the first ten (10) years of this limited warranty, demo or floor model products purchased at a discount will be repaired by Tempur-Pedic at no charge to the purchaser or will be replaced for a charge equal to the cost of the replacement mattress less the amount paid by the original purchase for the demo or floor model. If the demo or floor model product has been discontinued then the charge will be the cost of the reasonable equivalent of the discontinued item [or any upgraded item] less the amount paid by the original purchaser for the demo or floor model product. During years eleven (11) through twenty-five (25) of this limited warranty, demo or floor model products purchased at a discount will be repaired by Tempur-Pedic at no charge to the purchaser or replaced at a prorated charge to purchaser based on the replacement cost less a percentage of the discounted amount the original purchaser paid for the products plus transportation costs. If Tempur-Pedic replaces the mattress, the prorated replacement charge purchaser pays will depend on when the demo or floor model product is replaced and the amount the original purchaser paid for the product.

If the demo or floor model product is replaced during the eleventh year of this limited warranty, the prorated replacement charge purchaser pays will be the difference between full replacement value less fifty (50) percent of the actual discounted price paid by the original purchaser. Example: If the demo or floor model product's replacement cost is $2000 and the original purchase price paid by the original purchaser was $600, then the replacement charge for the product in year 11 would be $2000 – ($600 x 50%) = $1700.

If the demo or floor model product is replaced after the eleventh year but before this limited warranty expires, the prorated percentage of the original purchase price subtracted from the replacement cost would decrease by five (5) percent for each subsequent year of the prorated period (i.e., 45% of the original purchase price if replaced during year twelve; 40% of the original purchase price if replaced during year thirteen, etc.) to a minimum of 5% of the original price being subtracted from the replacement cost. Example: If the demo or floor model product's replacement cost is $2000 and the original purchase price paid by the original purchaser was $600, then the replacement charge for the product in year 12 would be $2000 – ($600 x 45%) = $1730. If the demo or floor model product's replacement cost is $2000 and the original purchase price paid by the original purchaser was $600, then the replacement charge for the product in year 21 through year 25 would be $2000 - ($600 x 5%) = $1970. If you pay the replacement charge required in connection with a claim made during the prorated coverage period, the existing warranty will continue to cover the replacement mattress for the balance of the 25 year limited warranty period and no further prorated costs for any additional approved warranty claims made against the replacement mattress will be required.

If the demo or floor model product has been discontinued then the replacement charge will be the cost of the reasonable equivalent of the discontinued item [or any upgraded item] less the appropriate percentage of the amount paid by the original purchaser for the demo or floor model product.

Additional Limitations on Warranty Coverage

In the event a warranty claim is filed and a warranty replacement is deemed necessary, purchaser will be required to surrender the original product to Tempur-Pedic at the time of replacement. TEMPUR-PEDIC SHALL NOT BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THIS PRODUCT OR ARISING OUT OF ANY BREACH OF THIS WARRANTY; THE EXCLUSIVE REMEDY FOR BREACH OF THIS WARRANTY SHALL BE REPLACEMENT OR CREDIT TOWARDS REPLACEMENT AS SET FORTH HEREIN. THERE ARE NO EXPRESS OR IMPLIED WARRANTIES, INCLUDING IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, OTHER THAN THE WARRANTY DESCRIBED ON THE FACE OF THIS LIMITED WARRANTY.

Please contact Tempur-Pedic's Customer Service Department by calling toll-free 1-800-821-6621 or by sending an email to customer.service@tempurpedic.com with any questions about this warranty.

This limited warranty gives the purchaser specific legal rights, and the purchaser may also have other rights, which may vary from state to state.

PLEASE RETAIN THIS LIMITED WARRANTY AND ORIGINAL PROOF OF PURCHASE FOR AT LEAST 25 YEARS FROM YOUR DATE OF PURCHASE.

An individual or entity that purchases the product from whatever source with the intent to resell the product is an unauthorized reseller ("unauthorized reseller") and is not empowered to offer, or extend in any way, this Tempur-Pedic Limited Warranty. Proof of purchase from an authorized retailer of Tempur-Pedic may be required in order to secure coverage under the terms of this Limited Warranty.
Tempur-Pedic undertakes no responsibility for the quality of the goods except as otherwise provided in this contract. There are no warranties that extend beyond the description on the face thereof.
As this TEMPUR-Choice mattress contains electrical components and has movable parts, it is not a toy and should neither be considered, nor treated, as such.

Years 1 through 5—Full Coverage of Parts and Labor
This TEMPUR-Choice mattress and its components are fully warranted against defects in the workmanship or materials for a period of five (5) years from the warranty commencement date. During these first five (5) years of this Limited Warranty coverage, the entire product is so covered, including any factory-supplied mechanical or electrical components, meaning that there is no cost to the Purchaser involved. In the event that professional installation of such replacement components is deemed necessary, Tempur-Pedic will arrange and pay for same. If no professional labor is necessary, Tempur-Pedic will supply replacement component product and will pay the cost of transportation or postage of such replacement part(s) provided that the Purchaser must return the defective product to Tempur-Pedic within fifteen (15) days of receipt of replacement product. Failure to return defective product will result in a voiding of this Limited Warranty and no coverage will be extended or otherwise granted. Tempur-Pedic will be the sole judge of whether such replacement of components, and any necessary installation thereof, is necessary. Tempur-Pedic reserves the right to substitute components of equal or better quality and may, in its sole judgment, provide refurbished or reconditioned components. Replacement of the entire mattress will be at the sole discretion of Tempur-Pedic as well.

Years 6 through 25—Prorated Coverage
During years 6 through 25 of this Limited Warranty Tempur-Pedic will, at its option, repair the mattress at a handling cost to purchaser, or replace the mattress at a prorated charge to purchaser plus transportation costs. Any components needing to be replaced will also be subject to the proration formula set forth below. If Tempur-Pedic replaces the mattress, or any component thereof, the prorated replacement charge purchaser pays will depend on when it is replaced. In the unlikely event that the original cover provided with the TEMPUR-Choice mattress is replaced, these same proration terms apply.

Thus, if the mattress (its cover or any component) is replaced during the sixth through the tenth years of this limited warranty, the prorated replacement charge purchaser pays will be forty (40) percent of the original purchase price of the mattress or of the component. Replacement price for components will be as set forth by Tempur-Pedic from time to time and is subject to change.

If the mattress (its cover or any component) is replaced during the eleventh year of this limited warranty, the prorated replacement charge purchaser pays will be fifty (50) percent of the original purchase price of the mattress, if applicable, or of the component as set forth in the Tempur-Pedic retailer price list, which is subject to change from time to time at Tempur-Pedic's sole discretion. If the mattress its cover (or any component) is replaced after the eleventh year but before the twenty-first year, the prorated replacement charge purchaser pays will increase by five (5) percent for each subsequent year of the prorated period (i.e., 55% of the original price if replaced during year 12; 60% of the original price if replaced during year 13, etc.). If the product is replaced in year 21 or any point thereafter, but prior to expiration of this Limited Warranty, the prorated replacement charge purchaser pays will be the same as if the product was replaced in year 20. If a purchaser pays the replacement charge for the mattress (including its cover and any component) required in connection with a claim made during the prorated coverage period, the existing warranty will continue to cover the replacement product only for the balance of the original limited warranty period and no further prorated costs for any additional approved warranty claims made against the replacement product will be required. Thus, replacement of one component, e.g., a pump in year 11 (at a prorated charge to the purchaser) and subsequent replacement of the power supply component in year 12, will result only in a prorated charge of the power supply component. Should the replaced pump fail in year 13, for example, there would not be any additional charge to the purchaser.

No new warranty is provided with a replacement mattress or of any of its components. The warranty for the replacement mattress, or any replaced component thereof, runs from the date of original purchase of the replaced mattress or component. Replacement of product, or component thereof, does not extend the terms of this Limited Warranty.

Exclusions—What this Limited Warranty does not cover:
This TEMPUR-Choice mattress is designed to work on a firm, solid-surface, Tempur-Pedic branded foundation or adjustable base that is structurally capable of supporting its weight. A proper bed frame must be used in order to secure coverage under the terms of this Limited Warranty, such frame providing a sturdy support for both the mattress and the foundation, including a center support and having at least 5-6 legs for a Queen, King, or California sized bed. In the case of a twin or full sized bed, such frame should have at least 4 legs

This Limited Warranty and other performance warranties are based on tests conducted on "sets" that consist of our mattresses and our foundations/adjustable bed bases. THEREFORE, IF PURCHASER USES INAPPROPRIATE FOUNDATIONS, BOX SPRINGS, ADJUSTABLE BED BASES, OR BED FRAMES WITH THIS TEMPUR-CHOICE MATTRESS, SUCH USE WILL VOID THIS LIMITED WARRANTY AND ALL OTHER WARRANTIES, WHETHER EXPRESSED OR IMPLIED, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. Tempur-Pedic may require purchaser to provide proof of the quality of the foundation, adjustable bed base, or bed frame used in conjunction with this TEMPUR-Choice mattress if purchaser makes a claim under this Limited Warranty. Tempur-Pedic reserves the right to invalidate this Limited Warranty if the foundation is determined, in Tempur-Pedic's reasonable discretion, to be inadequate or if the mattress is found to be in an unsanitary condition. This TEMPUR-Choice mattress must not be placed or used directly on the floor or on a waterbed frame. Such use will invalidate the terms of this Limited Warranty.

As noted above, this Limited Warranty does not cover any purchaser other than the original purchaser nor will it cover product purchased from an unauthorized third party. If you are not the original purchaser of this product, you take "as is" and "with all faults." If you did not purchase this Tempur- Choice mattress directly from Tempur-Pedic we will require proof of purchase from you demonstrating that you are the original purchaser and are eligible to make a valid claim under this Limited Warranty.
In no instance will this Limited Warranty cover any damage attributable to misuse or to normal wear and tear or to excessive weight placed upon the product.
This warranty does not include coverage for damage caused by the Purchaser or by other users if the product has been used in a manner inconsistent with the operation and maintenance procedures outlined in the product's Complete Reference Guide, or as set forth in this Limited Warranty, or in any other applicable document published or approved by Tempur-Pedic.
Nor does this Warranty apply to floor models or "demos" or to products sold by unauthorized resellers, including without limitation, unauthorized resellers or third party websites such as Craigslist, eBay, Amazon, etc. Proof of purchase will be required from you if you have not purchased this TEMPUR-Choice mattress directly from Tempur-Pedic, demonstrating that you are the original purchaser and are thus eligible to make a valid claim under this Warranty. This warranty does not apply to secondary products such as fabric, pads, covers, cables, electrical cords or other such items supplied by Third Party Resellers. Contact the Reseller or other appropriate party for warranty information on such items.

Additional Terms and Limitations
This Limited Warranty covers product repair or replacement only. Purchaser's exclusive remedy under the terms of this Limited Warranty is such product repair or replacement. Said repair or replacement will be at the sole discretion of Tempur-Pedic and may include the use of refurbished or reconditioned parts.

TEMPUR-PEDIC SHALL NOT BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THIS PRODUCT OR ARISING OUT OF ANY BREACH OF THIS WARRANTY. THE EXCLUSIVE REMEDY FOR BREACH OF THIS WARRANTY SHALL BE REPLACEMENT OR CREDIT TOWARDS REPLACEMENT AS SET FORTH HEREIN. THERE ARE NO EXPRESS OR IMPLIED WARRANTIES, INCLUDING IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, OTHER THAN THE WARRANTY DESCRIBED ON THE FACE OF THIS LIMITED WARRANTY.

This warranty gives the purchaser specific legal rights, and the purchaser may also have other legal rights, which may vary from state to state. This warranty is valid in all 50 states, Puerto Rico and Canada.

Tempur-Pedic may require proof of the quality of bed frame if purchaser makes a claim under this warranty. Tempur-Pedic reserves the right to invalidate this warranty if the foundation is found to be in an unsanitary condition.

The Consumer Product Safety Commission has created the Standard for the Flammability (Open Flame) of Mattress Sets in Federal Register 16 CFR Part 1633. Replacement parts may be new or reconditioned at Tempur-Pedic's discretion.

Except for the 15 Year Warranty provided for the frame of this product, there is no warranty at all after five years, dating from commencement of this Limited Warranty.
